DAY after day the evidence accumulates that the "Myrtle Navy" is the people's favorite tobacco. The demand keeps increasing, and from every new consignment who have been induced to try it, the evidence is emphatic in its favor. Its genuine qualities always hold the friend they have once made. These qualities will be kept up to their full standard by the manufacturers of it. It is to these qualities and the reasonableness of the price that they attribute their marked success. To the quality they will adhere to at all costs, also to the price if that be possible.

THE gatling gun used by Capt. Howard with such good effect at Batoche, arrived in Ottawa on the 25th inst., and was visited by a large number of people. There seems to be a very general belief, based on the reports of those who saw the weapon in action, that it served to demoralize the enemy, and that this even it did not do so well as the sharpshooters of the field guns. After Batoche of all the killed on the battlefield but one could positively be said to have been struck by bullets from the gun, though thousands were fired. Much difficulty seems to have been experienced in getting the correct range, even when practicing at a fixed target, and the general conclusion seems to be that the gatling is not suited for bush fighting or rough campaign work, however useful it might be in repelling an attack in close order, or in clearing a street or defile.

[SPECIAL DESPATCHES TO THE EXAMINER.]
RIEL'S TRIAL.
The Evidence for the Prosecution and Defence.
RIEL'S INSANITY.
REGINA, July 21.
In the Riel trial the case for the Crown closed yesterday morning.
George Keer and Edward Walters, storekeepers at Batoche, deposed to Riel visiting their stores and demanding arms and ammunition.
Hilliard Mitchell, a Justice of the Peace, has testified that Riel acted from a sort of revenge for being outlawed fifteen years ago.
Thomas Jackson, Druggist, Prince Albert, brother of the prisoner adjudged insane last week, proved Riel to be the actual leader in the Duck Lake and Batoche fights. The witness thought Riel's motives were those of revenge.
General Middleton's evidence was simply a resume of the campaign. In the cross-examination, Gen. Middleton said Riel talked and acted like a religious enthusiast who was strong on some religious points.
Capt. Young of the Winnipeg field battery testified that Riel, after his capture offered every possible information to assist Gen. Middleton to subdue the Indians.
Major Crozier recounted what occurred at Fort Carlton and Duck Lake.
Charles Leonard, who was associated with Riel for some time during the rebellion, gave damaging testimony against Riel. The evidence was that Riel's main object was to get money from the Government to leave the country. The witness swore to many treasonable acts committed by Riel. In the cross-examination the witness said that Riel frequently acted strangely, and said he was to give Ontario to Ireland, Quebec to Germany, and a part of the Northwest to the Jews.
During the cross-examination a sensation was caused in court by Riel's insisting upon the examination of the witnesses himself, which his counsel strongly opposed. Finally the Judge told Riel if he was not satisfied with his counsel he would have to assign other counsel to him. Riel was greatly excited.
This morning Mr. Greenshields addressed the jury for the defence. He recounted the half-breed's grievances, and blamed the authorities primarily for the outbreak. He said that Riel was a mad man, who was induced to enter the country by the half-breeds. He would show by witnesses that Riel lost control of his senses shortly before the outbreak and was absolutely unaccountable for his actions.
Fathes Audore, Phillip, Garnard, and Father Tourman were examined for the defence. The pith of their testimony was that Riel was insane, both in regard to religion and politics.
Dr. Roy gave evidence as to Riel being insane while in Beauport Asylum, and doubted his sanity now.
Dr. Clarke believed the prisoner to be insane.
Dr. Wallace had no doubt of the prisoner's sanity, and this opinion was corroborated by Dr. Tukey.
The case will be continued to-morrow.

There is trouble in the Tory camp which threatens to bring serious result. It was made public this evening that Lord Randolph Churchill declined at the last moment to attend a great Tory meeting at Liverpool, at which he had been advertised as one of the chief speakers. The fact that this Society has secured its present large membership and won its way to public confidence, while having to contend with the misrepresentations of agents of other companies, and the dissatisfaction of a large number of our citizens, caused by their unpleasant expressions as members of American Assessment Companies, is an evidence that the plan as offered the public only needs to be understood to be appreciated.
