COMMERCIAL HOTEL, in the thriving town of Summerside, is for sale.

BURGULARIES have lately been committed at Mount Stewart.

ISLAND SPONGE FOR BUILDING PURPOSES.—We hope Mr. Cunningham, C. E., will succeed in demonstrating that the rock sandstone of the island is well suited for building purposes.

A THING OF BEAUTY IS A JOY FOREVER.—Hyacinths, jonquils, tulips, snowdrops, roses, lilies, etc., etc., in full bloom at the Conservatory, Euston Street, near the St. Peter's Road, cheap for cash.—21 Feb. 21

FIRE AT SOURIS.—We regret to learn that the sheep and stock of J. O. Morrow, Esq., Souris West, was partially destroyed by fire, on Monday last. The loss is estimated at \$4,000.

All parties not settling their accounts due to Chas. Otto Winkler immediately, will be sued without distinction of persons.

Just received, a car-load of Narrows Oysters, at the Union House. 2in

THE LOCAL LEGISLATURE of New Brunswick opened on Thursday last. The Lieutenant Governor in his speech on the occasion, indicates revision and consolidation of the Provincial statutes as the principal work of session.

LARGE HORN.—The largest pig that we have seen for some time was purchased by R. T. Holman, Esq., from Mr. Samuel Hall, of Lot 19, Ebury. It weighed 686 lbs., and realized the nice little sum of \$54.88.—Summerside Journal.

IMPROVEMENTS AT CARBONAD BRIDGE.—Angus Greer, Esq., the well known proprietor of "Nonpariel" Carriage Factory, New Glasgow, has, we note with pleasure, opened a branch establishment at Carbonad Bridge. He will, we doubt not, drive a thriving business in that flourishing part of King's County.

RIVER PIRACY.—There has been a case of piracy in Halifax Harbor. The schooner Thistle while lying in Dartmouth Cove was stripped of sails, rigging, hawser, and a large quantity of rope used by the divers, and many other articles. This is one of the most extensive cases of river piracy ever brought to light in Halifax.

"A MEMBER OF THE BOARD OF EDUCATION" writes to the "Presbyterian":—

"The Board of Education has made no arrangement with the Christian Brothers or with any other in their behalf? The Christian Brothers were licensed according to law and the trustees of the school engaged them under the School Act. They teach so far as is known to the Board in conformity to and receive the salaries allowed by the School Act."

PRESENTATIONS.—The appreciative parishioners of the Rev. R. W. Dyer, recently presented their venerable and esteemed pastor with an address and a Racon Coat for winter wear. On Thursday last, a deputation waited on the Rev. A. Munroe and, in the name of the Valley field section of his congregation, presented him with a handsome and valuable Coon-skin Overcoat accompanied by an address expressive of their affection and esteem for him as a man and minister.

RAILWAY BREAKDOWN AT ST. PETER'S BAY.—The Times reports:—"This extensive work in being pushed forward with a degree of rapidity which is highly creditable to the Railway department. It is about 1000 yards in length and is built of frame work of heavy timber dovetailed firmly together, and ballasted with brush and stone until it becomes perfectly solid. This portion of the road will be the most secure of the whole line, notwithstanding the fears formerly entertained of its safety."

HOCHFORD THEATRICALS.—The weather was unpropitious on Tuesday evening last, and consequently the attendance at Hochford Theatricals was small. Two plays were, however, successfully rendered. Those present were evidently delighted with the performance. We note with some surprise that the kindly motto: "Honi soit qui mal y pense" has been hung over the stage. It would indeed be an evil mind which could think evil of these perfectly innocent and thoroughly enjoyable entertainments. On Tuesday evening next "The Deal Boatman" and "Done on Both Sides," will be placed upon the board.

SOURIS BREAKWATER.—At a public meeting held in Souris, of which James Moynah, Esq., was chairman and Mr. R. F. McDonald, Secretary, the following resolution was adopted:—

"Whereas, the Dominion Legislature, during last session, voted a liberal sum of money for the construction of a Breakwater at Souris; and whereas, experienced mariners are of opinion that the work, as at present in the course of construction, if continued in the same direction will not be in a position to afford the best harbor accommodation that might be obtained without much additional expenditure.

Therefore Resolved, That in the opinion of this meeting the shipping interests of the port of Souris will be much injured by completing the work according to the present plan which will only afford accommodation for a few small vessels, there being sufficient room for vessels of any considerable size to work in or out, or for steamers to turn without coming in contact with a ledge of flat rock lying opposite and a short distance from the middle of the work.

Resolved Therefore That the Department of Public Works at Ottawa be telegraphed to immediately, praying for a commission to investigate the matter.

The following Committee was then appointed, viz: J. R. McLean, James McFarlane, Michael McCormack, J. McLaughlin, Simon Chivrie and Malcolm Leslie, Esquires.

With the exception of those samples chosen for the exhibition in Philadelphia next year, all the prize samples will be sold by auction at two o'clock of the same day. Farmers wishing either to sell or to buy first-class seed should attend. All articles entered must be the growth of the exhibitor's farm. We notice that five cents is to be charged each person for admission to the exhibition. This is a mere cheese paring. The following is a list of the prizes to be awarded:—

AT MESSRS. S. R. FOSTER & SONS' TACK FACTORY we had recently the pleasure of inspecting the samples of their goods about to be sent to the Philadelphia Centennial Exhibition. In the case of tacks and nails we do not think St. John will have much to fear from other competitors. In addition to some specimen kgs of heavy nails, Messrs. Foster propose to send six show cases containing three hundred different varieties of tacks, nails and brads, in various metals. One contains a variety of tacks and nails for shoemaking, including the peculiar comical-headed "Hungarian" tacks used by miners, which the firm deal in largely and export as far as Australia. Cut nails, from one to four inches in length, are neatly packed in another case; and a third contains smaller sizes of cut nails neatly arranged and polished. Then there are all sorts of odd varieties of the nail tribe, with or without heads, and more or less pointed and finished. It was still more gratifying to learn that Messrs. Foster have kept their factory in full work throughout the winter without reducing either the number of hands or the amount of goods turned out.—Watkinson, St. John, N. B.

DARING ROBBERY.—One of the coolest and most daring crimes ever known in this city was perpetrated last evening in Prince William Street. About a quarter past 7, as Mr. George Phillips, broker, was closing up for the night, two men drove up opposite the building, and one of them went to door, fastened it by inserting a wedge in the handle, smashed the plate-glass window with an instrument that had evidently been prepared for the purpose, grabbed a pile of notes (\$175), jumped in the sleigh, and drove off down the street.—St. John News.
