Never in our experience have we shown a lady's house slipper that has met with such unanimous approval as "The Queen."

It is made of quilted satin, which will wear well and keep its shape, besides presenting a rich and neat appearance. It has a thick warm lining of white wool, the very look of which brings comfort to cold feet. The elastic in front, which keeps "The Queen" from slipping at the heel, is of the finest quality. **A Happy New Year to All**

We wish our customers and those who are not our customers a Happy New Year, and hope they may be happy and will do more to make others happy.

We hope the new year turkey or goose will perfect the appetite and come up to their highest standard of dinner fowls. May its gorge be long and fat, its shape points just right, its shoulders broad and well padded, its round and thick with meat, its legs beautiful peg-top shape.

We hope besides that the new year will begin brighter promises of health, happiness and prosperity for readers than any year they can remember, and that they keep its promises more faithfully than any tailor ever kept to customers about the time he would have their clothes for them.
