HYMN TO THE FLOWERS.

Floral Apostles! that in dewy splendour
Weep without love, and blush without a crime,
Oh! may I deeply learn, and ne'er surrender
Your love sublime!

"Thou wast not, Solomon! in all thy glory
Arrayed," the lilies cry, "in robes like ours;
How vain your grandeur! ah, how transitory
Are human flowers!"

In the sweet-scented pictures, heavenly Artist!
With which thou paintest nature's wide-spread hall,
What a delightful lesson thou impartest
Of love to all!

Not useless are ye, flowers, though made for pleasure:
Blooming o'er field and wave, by day and by night,
From every source your sanction bids me treasure
Harmless delights.

Ephemeral sages! what instructions hoary
For such a world of thought could furnish scope?
Each fading calyx a memento mori,
Yet fount of hope!

Posthumous glories! angel-like collection!
Upraised from seed or bulb, interred in earth,
To me you are a type of resurrection
And second birth.

Were I, oh God! in churchless lands remaining,
Far from all voice of teachers and divines,
My soul would find in flowers, of thy ordaining
Priests, sermons, shrines!

42d ROYAL HIGHLANDERS, WELCOME TO SCOTLAND.

What means that busy joyous hum
What make each one look hark and brow,
'Tis that from foreign lands are come
Auld Scotia's pride, the Forty-two.

Fond Mothers' hearts with hopes bent high
To embrace again her sons so braw,
And pleasure sparkles in each eye
That beams upon the Forty-two.

Weel may each Scottish heart delight
In the guardians of their land and law
For never yet in dearest fight
Ere failed or quailed the Forty-two.

Where there have gallant deeds been done
By the land that to the World gives law
Fresh laurel wreaths have aye been won
For Scotia by her Forty-two.

Hamilton, July 9, 1851.

A RAFFLE FOR A NEGRO.—The Louisville Journal relates
an amusing incident a negro raffle, which came off in one of
the towns of Mississippi. Mr. —, the owner of the boy, having
a note to pay that day, and not having the wherewith to do it,
was compelled to do what he gladly would not have done.

The raffling commenced. Bill looked on unconcerned at
anything but the idea of leaving his old master. When the chances
were all raffled off but the last, Bill took the box. Previously
to his throwing, however, he was offered \$100 for his chance,
the highest throw yet made being 46, which stood "a tie" between
two individuals; but Bill was no "comprise man," he refused the
offer, saying "de whole hog or nofin," and made his first throw,
which was 13; his second throw was 16. Bill stopped, scratched
his head, threw again, and came up 18. It was declared off that
"Bill was free," and such a shout was never before heard.

Bill's success induced him to try another speculation of the "same
sort," believing that he could do as a free man, as much as he
had before done. He proposed to set himself up again in a raffle,
and he thought it would be no more than fair, he should put
the price at \$600 this time. The chances were soon taken, Bill
reversing but one chance for himself. He pocketed \$590, and
the sport commenced.—Bill's original owner and himself were the
two highest again, and in throwing off, Bill lost. It proved a very
fortunate speculation for Bill and his master both.—The master
had made \$800 clear, and Bill had cleared \$590, and remained with
his kind master. Both were well contented, and every one present
was satisfied, that he had got his money's worth.

BLUE ROSE.—The horticulturists of Paris, says a correspon-
dent of the New York Express, have succeeded by artificial cross-
ings in obtaining a natural rose of a blue colour, which is the fourth
colour obtained by artificial means—that and the yellow or tea rose,
the black or purple rose, and the striped rose, being all inventions,
and the result of skilful and scientific gardening.

FATAL EFFECTS OF CHLOROFORM.—A woman named Amelia
Serrano, aged 22 years, born in Germany, died at New York,
from inhaling an over dose of chloroform. The deceased had been
afflicted with the toothache, and to allay the pain, administered
to herself the dangerous medicine. She obtained 25 cents' worth
of chloroform; soon after which she was found dead, having inhaled
too much of it.

CONVERSION OF A BREWER.—Father Matthew has con-
verted an eminent brewer of Cincinnati to temperance principles.
He has closed his establishment, discharged his hands, and will
neither drink himself nor brew any more beer for others to guzzle.

By what an apparently slight cause is death sometimes occasion-
ed. A Mr. Andrews, an eminent lawyer of Alexandria, Va., slapp-
ed his slave boy in the mouth with the back of his hand; one of
the teeth wounded the hand between two of the knuckles, and from
the effects of that wound, Mr. Andrews died, a few days after-
wards.

Charles Hood, who is employed in the Iron works of G. Down-
ing, Esq., Smithwick, England, has produced a book, the leaves
of which are iron, rolled so fine that they are no thicker than a piece
of paper. It is neatly bound in red morocco, and contains forty-
four of these iron leaves, the whole being only the fifteenth of an
inch thick.

A chap from the country, who visited this town to "see the
Fourth of July," (says the Newport News) entered one of our
hotels and sat down to dinner. Upon the bill of fare being handed
him by the waiter, he remarked that "he didn't care 'bout readin'
now—he'd wait till after dinner."

A lawyer on his death-bed willed all his property to a lunatic
asylum, stating, as his reason for so doing, that he wished his
property to return to the liberal class of people who had patronised
him.

JUDSON'S CHEMICAL EXTRACT OF CHERRY AND LUNGWORT, FOR THE CURE OF Coughs, Colds, Hoarseness, Spitting of Blood, Night Sweats, Asthma, Liver Complaints, and CONSUMPTION.

Consumption can be and has been cured, in thousands of cases, by this only certain remedy, JUDSON'S CHEMICAL EXTRACT OF CHERRY AND LUNGWORT, and no remedy has ever before been discovered that will certainly cure Consumption.

The most strongly marked and developed cases of Pulmonary Consumption, where the lungs have become diseased and ulcerated and the case so utterly hopeless, as to have been pronounced by Physicians and friends, to be past all possibility of recovery, and at times thought to be dying, have been cured by this wonderful remedy, and are now as well and hearty as ever.

THOUSANDS OF CONSUMPTIVE persons have been deceived repeatedly in buying medicines which were said to be infallible cures, but which have proved only palliatives, but this medicine is not only a palliative but a cure for ulcerated lungs.

About 1000 certificates of almost miraculous cures, performed by this medicine, from some of the first Doctors, Clergymen and Merchants, have been sent us for this medicine, but the publication of them looks too much like Quackery, [we will show them to any person, calling at our office.]

Consumption!! Every body knows is a flattering disease. It commences and progresses so insidiously, that before one is aware of it, the lungs are a mass of ulcers, then a sudden exposure or change from heat to cold, produces an inflammation, and in a few days or weeks, it is said he or she died of Consumption.

Bliss' Compound Cod Liver Oil Candy.

A new and effectual remedy for Coughs, Common Colds, Cold in the Head, Hoarseness, Bronchitis, Asthma, Tickling in the Throat, Catarrh, Diseases of the Lungs and Bronchial Affections. This favorite remedy is composed of Pure Cod Liver Oil, combined with other valuable ingredients, which completely disguise the repulsive taste of the Oil, without detracting from its medicinal virtues, presenting it in a form by which it can be administered to the most delicate invalid, without inconvenience.

The medicinal influence of this Candy pursues the exact tract of the inflammatory action, causing cough. First, soothing the organs of the voice, its sedative influence, passes along the mucous lining of the windpipe into the bronchi, and allaying pulmonary irritation, giving ease and comfort to the chest, restoring the voice to its accustomed clearness and powers; Congealed Phlegm, Acrimony in the Fluids, and Obstructions in the Glands, are gently and safely discharged by easy expectoration. It never disagrees with the stomach, a common cold yields to its benign influence in a few hours, and when resorted to, before the complaint is far advanced, all danger of CONSUMPTION is entirely prevented.

Sold Wholesale and Retail, at the Drug Store of M. W. SKINNER, Queen Street, Charlottetown, June 13.

Printed by JAMES D. HAZARD, at his Office, Queen Square, Charlottetown.
