FROM THE KLONDYKE.

Immense Amount of Gold on its Way to San Francisco.

ONE MAN REPORTS THE MINES THE RICHEST ON EARTH.

A Special Agent of a Seattle Syndicate Advises All to Stay Home Till the Spring.

SAN FRANCISCO, Cal., Sept. 8.—According to the information brought by steamer National City from St. Michael's, an immense amount of Klondyke gold is on its way from the mouth of the Yukon to San Francisco and the Sound. A letter received by G. Murray, of this city, from Dr. J. W. McKenna, says: "We leave tomorrow for the Yukon. Two steamers arrived last night from Dawson, loaded with wealth. The mines are the richest on earth. Men can get \$20 per day, but they must have provisions as they are scarce."

Capt. Anderson of the National City says he knows that a large amount of gold came down the river from Dawson, but he could not give figures, as the miners are very reticent about their work. The Captain said the Excelsior left St. Michael's for San Francisco, and he believes she will arrive sometime today.

SEATTLE, Wash., 6.—A syndicate of cautious business men of Seattle who contemplated sending several prospectors to the Klondike first took the precaution of sending an experienced man to Skaguay and Dyea to examine personally into affairs there and report on the situation. A. S. Gross, who has a great deal of experience in prospecting and packing in the Northwest Territory, was chosen for this mission, he returned today and advises that no movement be made till spring when it will be possible to accomplish the trip with some degree of satisfaction.

To a Sun reporter he said that the miners camped at the passes were the craziest crowd of men he ever saw outside of the lunatic asylum; and it was his opinion that not more than five per cent, could get through. The whole trouble was attributable to ignorance of camp life and packing over trails that had scarcely been blazed and were so narrow that two abreast could not pass with safety. The system of establishing camps along the trail and packing from one to the other had been the means of destroying the pack animals and blocking the trail. Gross says the stories related by newspaper correspondents and others fall to picture the true condition of affairs now existing along the route, and the season is now so far advanced that the situation will become a great deal worse before it gets better.

Gov. Brady considers the situation critical, and it is stated by those who have seen him that he proposes calling the attention of the government to the condition of affairs. The men have been made desperate by their failure to get over the trail and by the hardships they have been compelled to endure in the hopeless struggle against heavy odds. They have become suspicious of one another, and quarrels are frequent. Every man's hand is raised against every other man. The lawless characters are much in evidence, and dissensions and disorders have broken out among the miners until such a thing as co-operation is impossible.

The Territorial Marshal is reported to be getting out a force of deputies to drive the crowds of smugglers and banco men, out of Skaguay. This class has caused a great deal of the present trouble at that place.

Honolulu, via Victoria, B. C., Sept. 8.—The annexationists are much worried over the difficulty of an alleged attempt on the part of the anti-annexationists to influence Senators Morgan and Quay, who are expected to arrive here soon on a tour of investigation. They say that Senators White of California and Thurston of Nebraska, who will lead the fight against annexation in congress this winter, will also visit Hawaii and attend the mass meeting of natives, which, it is alleged by the annexationists, has been called for the purpose of convincing the senators that the natives bitterly oppose annexation. It is also alleged that the mass meeting will be made as dramatic as possible. It is believed that the ex-queen may arrive by the same steamer as the senators and that she will address the people at the same meetings. The second card of anti-annexationists will be played on the arrival here late in September of Senator Pettigrew, of South Dakota, Lee of Montana, and Frank Canon of Utah. They are now in Japan and China studying the silver question.

NEWS NOTES.

A Mycological Society has been formed in Berlin, which, it is claimed, is the first of the kind in Canada.

It is said that Cardinal Satolli, who is most intimately acquainted with American affairs, has been designated by Leo XIII. to succeed Cardinal Dedochowski as prefect of the propaganda.

Geo. Hublin, of Sheffield, Sunbury Co., while carrying a scythe, was frightened by a frog that jumped up his trousers leg. He sprang back inflicting a bad cut in his side.

A young woman has received the unusual honor of the freedom of a London guild. She is the daughter of Lord Amherst, of Hackney, and, having written a history of gardening in England, has just been thus honored by the Worshipful Company of Gardeners.

Miss Platt, in Chicago, is a colored woman who practices law with success. She passed the examination with great credit and received her license to practice. She speaks German and French with ease, and so secures good patronage from foreigners. Her practice is of the office rather than the court room.

In Atlanta, Georgia, the men secured the passage of a law compelling women to take off their hats in theatres. The women are now seeking to have a municipal ordinance passed to prevent men from leaving their seats between the acts of a play, or in any of the intermissions. All rules of either of these kinds are apt to bring legislation into contempt.

During British rule of Egypt the cotton crop has doubled, and now amounts to over 500,000,000 pounds a year. The people were encouraged in their industry by the knowledge that its fruits would be secured to them. Just administration of the law has its material as well as its moral vindication.

An Austrian priest named Gentilini claims to have discovered a certain cure for cancer by means of eating lizards. By this extraordinary remedy he is said to have already cured thirty patients afflicted with cancers. In this connection it may be added that recent investigation has resulted in the discovery that both toads and lizards possess beneath the surface of their skins certain secretions which constitute an extremely powerful chemical agent, so that the use of these reptiles for medical purposes in China and in other parts of the Orient is not so ridiculous as was at first imagined.

The advance in the price of silver is supposed to be due to the holding back of supplies by America and by the idea that silver currency will be wanted in India. The purchases were chiefly for immediate shipment by people having contracts to fulfil in India and China. The Times and the Standard concur in the opinion that the impression that India will buy silver is a mistaken one. The currency department of India holds a large quantity of silver, which would be released against gold in the event of gold being exported to India.

Col. Albert A. Pope and A. G. Spalding, whose departure together for Europe several weeks ago gave rise to all sorts of rumors in connection with the cycle trade on both sides of the water, have returned home. Both are reticent as to their mission abroad. The colonel would give no opinion as to the chainless wheel being featured next year, other than to say that it will be an expensive machine, and, therefore, will not supplant the present style of bicycle. He asserted that there was no truth in the rumor of a chainless wheel trust being formed. He said he had found the cycle trade abroad in a demoralized condition, and predicted that the outcome will be a reduction in the number of manufacturing concerns on both sides of the water.

MESSAGE TO MEN

Proving that True Honesty and True Philanthropy still Exist.

If any man who is weak, nervous and debilitated, or who is suffering from any of the various troubles resulting from youthful folly, excesses or overwork, will take heart and write to me, I will send him confidentially and free of charge the plan pursued by which I was completely restored to perfect health and manhood, after years of suffering from Nervous Debility, loss of Vigor and Organic Weakness.

I have nothing to sell, and therefore want no money, but as I know through my own experience how to sympathize with such sufferers, I am glad to be able to assist any fellow-beings to a cure. I am well aware of the prevalence of quackery, for I myself was deceived and imposed upon until I nearly lost faith in mankind but I rejoice to say that I am now perfectly well and happy once more and am desirous therefore to make this certain means of cure known to all. If you will write to me you can rely upon being cured and the proud satisfaction of having been of great service to one in need will be sufficient reward for my trouble. Absolute secrecy assured. Send 5c silver to cover postage and address Mr. G. Strong, North Rockland, Mich. 135 p&w.

THE WEATHER.—Moderate to fresh westerly winds; fair and warm.

C. C. C.—Meeting of Crescents to-night. Important business. A full attendance requested.

ENGINEERS.—Drill to night without uniform. Engineers work.

LEGAL LOBSTER FISHING.—Three cases of lobsters were seized from the Schooner Lily Bank, Capt. Blue, this morning and are now in overseer Hobkirk's office.

METHODIST BRICK CHURCH.—Prayer meeting this evening at 7.15.

LOCAL AND OTHER ITEMS

POLICE COURT.—This forenoon Kenneth MacKenzie was fined \$2 or 10 days for drunkenness.

ST. PETER'S HALL.—The programme of the opening entertainment, in St. Peter's Hall on Thursday 25th inst., will appear next week.

MISSIONARY CONFERENCE.—Delegates to the Missionary Conference of the Diocese of Nova Scotia will arrive on Tuesday evening next. The Conference will last two days.

SOURIS NOTES.—Registered at the Sea View Hotel: W. Rankine, St. John; R. Davison, Montreal; H. McLean St. John.

Prof. Herr Muller gave a gramophone concert in St. Patrick's Hall last night.

Mr. Geo. Murphy, of Hunter River, is visiting here.

The store of Ephraim McKeanzie was robbed last evening. Goods to the value of over \$50 were taken. This is the third time this store has been robbed.

STEAMSHIP IN PORT.—The Bonavista arrived from Montreal last night about half past eleven, bringing a good general cargo and a number of passengers. She left port about noon for St. John's and Harbor Grace via Sydney, taking a large fish. Mr. William Boyle and Mrs. Geo. Hughes are passengers to Harbor Grace, and Richard Grant, Mrs. Cowan and Miss Donovan go to Sydney.

FIRE AT SUMMERSIDE.—During last night Brace & McKay's warehouse and Murphy's bakehouse at Summerside and two or three outbuildings nearby were destroyed by fire. The Campbell Hotel took fire in the rear several times, but the flames were quickly extinguished. The fire looked very serious at one time. Had the fire not been stopped when it was the consequences would have been most serious, as it was in such a place that had it become unmanageable a great part of the town would have been destroyed.

PERSONAL.

Dr. Cunningham, of Cambridge, Mass., is visiting his native province.

Rev. John McDonald, of Miscouche, was in town today.

Archdeacon Brgstocke, of St. John, is visiting this city.

Hon. Senator Ferguson has returned from Toronto, where he visited the exhibition.

Dr. Vincent spent a short holiday in this Province and returned to Truro this morning.

Mr. George R. G. Bagnall left this morning for New York via Montreal. A number of his friends were at the station to say good-by and wish him well.

The Bishop of Nova Scotia has returned from England. He will arrive in Charlottetown next Tuesday evening to preside at the Missionary Conference.

Messrs. Lorne Unsworth, C. J. McMillan, D. McKinnon and L. B. McMillan left this morning for Halifax. They are all entered for the Wanderers sports to take place there tomorrow.

Mr. and Mrs. S. B. Euman and child left yesterday for Colorado Springs where they will reside in future. Their departure is regretted by their many friends, a goodly number of whom were at the railway station to see them off.

Mr. H. L. Chipman, of Halifax, Canadian agent of the Plant Steamship Company, is making the round trip on the steamer Halifax.

Mr. and Mrs. Delman J. Vail, and Master Vail, of Ornell, Vt., were among the passengers on the Halifax last night. Mr. Vail succeeds Mr. Kane as United States Consul at Charlottetown.

Queen Hotel: J. W. Bolto, Montreal; W. E. Rudge, Mt. Vernon N. Y.; James Thompson, Picton; John F. Baker, City; F. V. Warmoll and wife, Detroit Mich; F. H. Barbour, Boston; Hon. A. Snow, Miss Lottie Snow, D. L. Palds, Orlean, Mass; Miss Jennie Coffin, Boston; J. R. Neilson, Braintree; Rev. J. W. McConnell, Vernon River; Mrs. G. H. Bell, Summerside.

Mr. Fred R. Hodgson has our thanks for copies of late Chicago papers. The papers include the initial number of "The Association Club Journal," a monthly publication issued in the interest of wheelmen generally. It is pleasing to observe by the Journal that Mr. Morse, who was here with Mr. Hodgson a few years ago, is maintaining his reputation as a wheelman and is keeping up with the fast ones. He has lately won several prizes.

Hotel Davies: Mrs. Kingbury and 3 children, Portsmouth N. H.; J. F. Barchelle, Mrs. Burchelle, New Cambeltor; Archdeacon and Mrs. Brgstocke, M. J. Farrand St. John; Walter Colpitts; Moncton; F. M. Choate, Truro; Jno. G. Green, Galt. Ont; Dr. Keir and wife, Boston; B. C. Cox Souris; Mr. and Mrs. Geo. W. J. Beyrding, Westport, Conn; M. C. Phillips, Washington D. C.; J. S. Vander, D. J. Nail and wife, Orange, N. J.; Hannily, C. S. Phillips, Philadelphia; Miss A. E. Golden, A. F. McLean, Harry Beldin and wife, New York; H. L. Chipman, Halifax.

Mr. Lester Gill, B. A. Sc., of McGill, read a most interesting paper at the recent meeting of the British Association in Toronto. The paper treated of a new method of measuring hysteresis in iron. The substance of the paper was the description of an instrument of Mr. Gill's invention, with which he carried out all his experiments before the Association. It is claimed that with this instrument an ordinary man can do in five minutes what it usually takes a scientific man half a day to accomplish. Mr. Gill has spent almost all his time since Christmas on this instrument, and he has received many compliments from eminent scientists regarding it. Mr. Gill is another of our clever young Islanders abroad. He is a brother of Mr. F. W. Gill, of the Post Office Department.
