

Qualification of Voters. QUALIFIED VOTERS not yet registered can have their applications made out at the office of John T. Mellish, Esq. Early attention is desirable, as the preliminary revision will soon close.

THE DAILY EXAMINER.

JULY 13, 1891.

Revision of the Voters' List.

It would be well for all persons interested to note that the preliminary revision of the Dominion Voters List will close on the first day of August. All qualified persons who are not already registered should at once take steps to have their names placed on the list. It should be remembered that the registration of a name can now be done with very little trouble or loss of time, while if it is left until the final revision in November, days may be lost in attendance at court.

For general information we give the following synopsis of the different qualifications provided in the Franchise Act:

OWNER.—A person can qualify on real property of the value of \$300 in a city, \$200 in a town, and \$150 outside of cities and towns.

TENANT.—Any person can register if his rental is annual at \$20 a year, or if monthly or quarterly at \$24 a year. The rent must be paid up to last pay day, and he must have held leasehold property continuously for 12 months before the date of his application.

OCCUPANT.—An occupant of real property for his own use and benefit, of the same value of property required for an owner, can register, provided he has been in possession of the same for 12 months before his name is put on the list, and has been for such time in the enjoyment of the revenues and profits thereof.

INCOME VOTER.—Any man earning \$300 a year in money or money's worth, or deriving that amount from any investment in Canada, can register if he resides in the Electoral District and has resided for the last 12 months in the Dominion of Canada.

FARMER OR OWNER'S SON.—Any young man, not otherwise qualified, can register as a farmer or owner's son, provided he has lived with his father, or, if his father is dead, with his mother (she being the owner), provided the property, if divided between the father and sons qualifying thereon, would give each the value required of an owner.

FISHERMAN.—Any fisherman who is the owner of real property and boats, nets, etc., or of shares in a registered ship, whose together are of the value of \$150, can register.

FRANCHISE VOTER.—In addition to the above, any person who, on the 25th day of July, 1885, was entitled to vote under any of the qualifications of the local law, can register as a Franchise Voter.

Charlottetown Philharmonic Society.

A general meeting of the Philharmonic Society is to be held at the Philharmonic Hall, this evening, when the question of its continuance will probably be decided.

That the institution has been a very valuable means of developing a love and appreciation of the highest forms of musical art in Charlottetown during its two years of existence must be acknowledged by all, and we sincerely hope, even though many difficulties now present themselves and require to be overcome, that the society may still continue its useful work of producing the beautiful oratorios and cantatas of the great masters; for, without the society the opportunity of ever hearing these works will cease, as no one will take up the hard labour of organizing such an institution, and at present the music loving people should give it their cordial support.

We certainly think that the capital of the Province of Prince Edward Island has enough of cultivation and refinement among its citizens to appreciate the usefulness of the institution, and we hope that the members of the society, whose musical ability and culture form the actual material from which the excellent concerts of the past two years have been produced, will continue to feel a loyal interest in the institution that they belong to and have individually created. Financially, the society is on a sound footing, its assets being more than necessary to meet all liabilities for the past year. In regard to the work of the coming year, various proposals have been made. One, which seems to be satisfactory, is to arrange for the first concert to be composed of selected choruses not so difficult as those undertaken during last year, but of classical excellence, from some of the best operas and oratorios, &c., and that the second concert at the end of the year shall be a complete oratorio or cantata. This would permit the hard work of learning the difficult choruses to be distributed over the whole year, while the simpler choruses would tend to make the concerts more enjoyable.

As a means for producing revenue for the current year, one proposed is to issue tickets of membership admitting the holders to two reserved seats at each of the two concerts and to hold each of the concerts on two evenings at a lower entrance fee than has heretofore been charged.

Other questions of importance may probably arise at the general meeting, but we would strongly advise that a month or two should elapse before debating on or deciding them.

The sufferers from catarrh are legion, and the majority of them make the serious mistake of thinking they should only use treatment when at its worst. Treatment during the summer months is almost certain to prevent a recurrence of the disease, and Nasal Balm is the only remedy that will effect a complete cure. All dealers, or post free on receipt of price (50c or \$1 a bottle). Address Fulford & Co., Brockville, Ont.

Legislative Echoes.

THE Honorable James R. MacLean excused himself in respect to the issue of the "stop work" circulars to supervisors, by pleading that so many supervisors' orders were being received by the Government, so many claims (some of which were manifestly unjust) were being presented, that the Government were forced—absolutely forced—in patriotic defence of the country's interests, to stop all work and all payments for work done on the roads. It was pointed out by Mr. M. Kay that the circular was dated and issued—the very day on which the Government took office!

A notable fact is the fact that the Government did not present to the Legislature the elaborate and excellent report of the Commissioners appointed to investigate the Land Office. When in opposition, they clamored for a "Royal Commission," and by their charges and innuendoes that the living officials of the Land Office were concerned in the defalcations, forced the late Government to appoint a commission and incur a heavy expense. Their inaction and their silence throughout the late session in respect to the report of the Commissioners would be accepted as the best proof in the world that the investigation did not substantiate their charges upon any material point. The Leader of the Government said that the Government had decided not to accept the suggestions of the Commissioners, and left it to be inferred that the members of the Government are—in the Government's opinion—better judges of the matter than the independent and trained accountants who went fully and carefully into it.

The Patriot attempts to make a point against the Leader of the Opposition and Mr. Rogers because they happened to be absent when the vote was taken on the unrestricted reciprocity resolution. The fact is that the vote was sprung upon the House unexpectedly, while those gentlemen were for a few moments absent, and that they subsequently endeavored to have their names placed upon the division list, but were refused permission. This unimportant fact does not, however, counterbalance the other highly significant fact, that the Government party—every man of them—voted down, unpatriotically and disloyally, a resolution calling for the freest trade relations possible between the two countries (Canada and the United States) consistent with the exigencies of the Dominion and our relations with Great Britain!

Strawberries Extraordinary.

PROFESSOR McLEOD, of Prince of Wales College, has, in recent years, made a specialty of strawberry culture. We are indebted to him for an early box of these berries—large, luscious and beautiful. The varieties contained in the box are the Crawford, specimens of which measure about six inches in circumference, the Bubach, equally large, the Haverland, the Warfield and the Pearl—all excellent. These productions show that our Island soil and climate are particularly well adapted for the growth of the best strawberries, and are suggestive of what might easily be done by every farmer throughout our Province. Why are strawberries and other small fruits more expensive here than in any other part of the Continent—seeing that they can be produced here in greater perfection than almost anywhere else? Among the strawberries grown by Professor McLeod are the Eureka, Gandy's Pride, Michel's Early, Professor Saunders, Governor Hoard, and a number of older kinds—perhaps the finest variety grown here or anywhere else.

Lady Macdonald as an Author.

Just before her bereavement, Lady Macdonald, widow of the late Sir John Macdonald, completed her first ambitious literary effort in a series of articles for the Ladies' Home Journal, the first one of which will appear in the August number of that periodical. Last summer Lady Macdonald, with a party of friends, travelled in her private car through the most picturesque parts of Canada, and in a delightfully fresh manner she describes her experiences on this trip, in these articles to which she has given the title of "An Unconventional Holiday." A series of beautiful illustrations, furnished by Lady Macdonald, will accompany the articles.

Personal.

Mr. James McIsaac, of the Herald, returned from Ottawa on Saturday evening.

Dr. C. L. Strickland has returned to the city, and resumed practice.

Mr. James Paton, of the firm of James Paton & Co., has gone to England on a business trip.

The University of Notre Dame, Indiana, has conferred the degree of Doctor of Laws on Mr. James Jeffrey Roche, of the Boston Pilot, son of our esteemed fellow-citizen, Edward Roche, Esq.

The following were among the arrivals at the Seaside Hotel on July 7th: Jas. Carruthers, Mrs. Carruthers, Bessie Carruthers, J. Stewart Carruthers, Ch'town; Abner Hart, Halifax; Aubrey E. Smith, Truro; Ida H. Peniz, S'side. S'n—W. F. Mitchell, Bridge-water. 10th—Minnie J. Andrews, Mary T. Cochrane, Chicago; Mrs. Barr, Battle Creek, Mich. 11th—R. H. Smith, Ottawa; E. F. Dawson, wife and children, Bombay; Emma S. Pentz, Summerside; J. B. Doyle and wife, New York; H. W. Vinnicombe, Ch'town.

COMPLIMENTARY.—In the course of his farewell address in the First Methodist Church last evening, Rev. John Read made a kindly reference to the press of this city, which, he said, on every occasion had treated him in the most courteous manner. He would leave Charlottetown taking with him the most kindly remembrances, and felt that he too would leave with the good will of its citizens. The rev. gentleman and family leave for their new field of labor, Moncton, N. B., on Thursday morning.

LETTERS TO THE EDITOR.

Sellers vs. Toombs.

SIR,—Mr. W. S. Stewart displays considerable animus in his defence of the decision given by Judge Alley in the above suit. Why he should show so much bad temper in endeavoring to uphold this judgment I am at a loss to understand, as he is in no way responsible for the conclusion arrived at. Surely he does not consider it his duty as an attorney retained in the case to rush to the newspapers to support the finding of the Judge. He is good enough, however, to inform the public that the judgment bearing on the case is, in his opinion, a good and sound one. This, I dare say, in the estimation of Mr. Stewart, should be conclusive and end the whole matter! Against Mr. Stewart's dictum, however, I can place the opinion of the Attorney-General, who was Dr. Toombs' counsel, and who, with his client's consent, permits me to say that he advised an appeal and considered the Judge's opinion erroneous. It seems Dr. Toombs did not think it proper to further contest the case for reasons I need not explain here. Suffice it to say, they were other than any doubt he entertained as to the final issue being in his favor. This is to be regretted, as it would be of interest and value to the medical profession, as well as to the public to know what the Judges of the Supreme Court would lay down as the law touching a doctor's duty under similar circumstances. In this case the question at issue was of much importance to the members of the Medical Association. They had no opportunity to appeal to a higher court, and in delivering my address to them as retiring President, I was not only acting well within my rights, but simply doing my duty in drawing their attention to this judgment, and giving my reasons for believing that Judge Alley had arrived at an incorrect conclusion. It seems, however, that Mr. Stewart thinks that because I dared to do so the Medical Act should not be passed, and that the whole profession should be punished for my temerity! I believe the Law Society has the right by statute to debar a lawyer duly admitted by the court from following his calling unless he conforms with its regulations, but according to this legal authority, the doctors are incapable and unfit to exercise the same functions as regards their professional brethren. This is truly refreshingly modest on the part of Mr. Stewart!

Mr. Stewart's innuendo that Dr. Toombs' case had no precedent for the reason that no other doctor had refrained from informing a third party occupying Mr. Seller's position, that his patient was suffering from typhoid fever is so exceedingly disingenuous and so contrary to the testimony of the doctors examined, which showed that in their practice after having informed the nature of the nature of the disease they considered their duties ended as not worthy of even this passing notice. Having condemned me unheard he takes the liberty, forsooth, to stigmatize the whole medical profession of P. E. Island as unfit to be entrusted with the same powers and privileges as are accorded to the profession elsewhere. If I, because I condemn his conduct towards me as unfair, were to brand the whole legal fraternity in this Province as unfit to exercise the rights granted to them as a Law Society, I would simply be guilty of an impertinence. I leave it to your readers to apply the most fitting epithet to Mr. Stewart's conduct. Mr. Stewart endorses the "facts" as given in your summary. As to my reason for challenging the truthfulness of these "facts" and the correctness of the Judge's decision, he must only possess his soul in patience until my paper is published.

JAS. McLEOD.

The Rifle.

The third of the series of league matches was shot throughout the Dominion on Saturday afternoon. Though the afternoon was favorable for shooting, yet our teams were placed at a disadvantage in beginning at a late hour and finishing in the dark. This was caused by the fact that a large number of the militia were required for duty till three o'clock. The Engineers were one man short. The 82d Battalion team shot well, making nearly 86 points per man. The ranges were 200, 400, and 500 yards.

NEW CHURCH.—The Agriculturalist says: The cellar and foundation of the new church at Miscouche have been completed, and the frame of the edifice is now being put together. It promises to be a very handsome building, and a credit to the people of Miscouche.

AGAIN AHEAD.—The following cable appears in the Toronto Globe: Letters have just been delivered in London from Yokohama via Vancouver in 26 days. This is the quickest delivery on record, being five days less than the official estimate in the postoffice guide, and seventeen days less than the average time by the Suez Canal.

Imperial Federation.

SIR CHARLES TUPPER BRINGS FORWARD SOME DEFINITE PROPOSALS.

The Montreal Star publishes the following special from London: "Responding to Lord Salisbury's demand for a plan of Imperial Federation Sir Charles Tupper has submitted to the council of the Imperial Federation League a series of definite proposals. These embrace the admission of High Commissioners of Canada, Australasia and South Africa to the Imperial Privy Council and the Imperial Cabinet, while holding positions in the Federal Cabinets of the respective colonies; also the establishment of a small preferential duty within the empire against foreign goods. This, Sir Charles Tupper believes, would give the colonies a needed voice in imperial affairs and at the same time make the unity of the empire a matter of mutual interest. Sir Charles contends that it is neither prudent nor right to expect the colonies to contribute to an imperial defence fund, in view of what the colonies have done or are doing to strengthen the position of the empire. In connection with this argument Sir Charles instances Canada's immense outlay to strengthen British interests in North America and the east in connection with the Canadian Pacific Railway and the St. Lawrence canal. The High Commissioner had the honor of submitting these proposals before the largest and most influential meeting of the council of the league ever held. The council unanimously decided to appoint a committee representing all parts of the empire to consider the proposals and to prepare a definite plan for the federation of the empire to submit to Lord Salisbury."

The merits of "DYSPEPTICURE" are so wonderful that it is fast spreading all over Canada and the United States.

For HEADACHE, SLEEPLESSNESS and NERVOUSNESS it is a quick and sure cure.

It easily overcomes Indigestion, and, strange as it may seem to the hopeless, Chronic Dyspeptic, who has made up his mind to try nothing else, the original reputation of "DYSPEPTICURE" was based altogether on the praises of thousands of Cured Chronic Dyspeptics. 1w—jy13

THE LIFE OF CHRIST, In Story, Painting and Song.

M. R. A. W. STRUTHERS, of Toronto, will exhibit his unrivalled collection of Views, embracing the principal events in the Life of Christ, from the Manger to the Throne.

IN THE LYCEUM, Monday, July 20th, at 8 p. m.

preceded by some magnificent Dissolving Views of the Rock of Ages; a finely colored set of Scenes—Ten Nights in a Bar Room; and a superb set illustrating Bishop Heber's Missionary Hymn, "From Greenland's Icy Mountains." The Views from the Life of Christ are chiefly copies from the paintings by Rubens and others of the Masters, to be found in the Art Galleries and Cathedrals of the Old World and in the Vatican. They are shown upon a canvas twenty-five feet square, by means of a pair of the most improved and powerful stereopticons, employing the oxy-ether calcium light, and producing the most brilliant effects.

MATINEE.—To afford the Children of the City an opportunity of seeing this magnificent Exhibition of Paintings, a Matinee will be given on Monday Afternoon, at 4 o'clock, to which only Children and their guardians will be admitted.

PRICES.—Matinee, 10 cents; Evening, 15 cents; Gallery, 25 cents. jy11—dy 6 (11, 13, 14, 16, 17, 18) wky
