

Dorothy Dix's Column

Continued from page 2

venge on them. The man has gone out of your life forever. If your only reason for refusing the divorce is to spite him, it's futile. Better give in as gracefully as possible.

DEAR MISS DIX: I'm going with a boy I like very much, but we have many arguments over money. I work and make a fairly good salary; he works at his parents' store and is paid very little. If we go out bowling or skating, I suggest having something to eat afterwards. He admits he hasn't the money, but refuses to let me pay for refreshments. How can I handle the situation?

B. L.

ANSWER: Yours is a problem that should be taken up with the never-fail solver of problems—Mom. She'll be glad to prepare, or help you prepare, a snack at home for your evening refreshment. Ask the boy in, with another couple if possible.

Miss Nissen cannot reply personally to readers but will answer problems of interest through this column.

That Body Of Yours

physicians, said careful and critical survey of these patients and symptoms and their emotional reactions after facing life's situation. "I led them to conclude that no technique have been developed which permit conclusive observations concerning the exact relationships, if any, of life situations and emotion-provoking experiences as to whether there is or is not an organic (disease) basis."

Fortunately, neurocirculatory asthenia does not have a high death rate. Although "anxiety" is a characteristic symptom, a "20-year follow-up does not show them to have such diseases as high blood pressure, peptic ulcer, asthma, ulcerative colitis, etc., which some physicians believe are caused by anxiety."

Most physicians agree that anxiety raises the blood pressure and increases the heart rate during which heart and brain strokes may occur. However, it is comforting to know that the death rate in neurocirculatory asthenia is not high.

ELLEN'S DIARY

Continued from page 2

his "farming in a patch of farm enclosed by pickets. "You won't know much about it at first—what time of the moon to set out the cabbage plants and the like, but you'd soon learn."

And "on another thought," you're not a bad man yet in the field—there's lots of farmers who'd like to bring in a nice few dollars. Yes," he laughed "a few more days at the threshing and other work pressing you, and you'll be pretty well done with this farming!"

But James' answering chuckle indicated no desire to take up lesser farming as the two went out then into the moon-lit dark to help with an incidental of today's threshing at Alderlea. This was a spirited ferrying of the yield of grain by way of the two little trucks, bringing for storage to an old granary of this place any overflow from theirs.

But now all care of the day over, the night is at peace. Still—except for the little wind of the west, which with lonely sound blows about the eaves. Stars gleam; and we have only to lift eyes to smile back at the dimpling moon. Beautiful is this October night. And the day? We can easily agree with our philosopher-helper. "This has been all in all a "good day" for this Family at Alderlea."

Until tomorrow . . . . . Diary

--- Good-night . . . . .

BREAD BASKET

EDMONTON — (CP) — Lloyd Cribb, visiting here after serving as a secondary school principal in Ethiopia, said the Ethiopian kingdom could develop into a "bread basket" for the Middle East and a good friend for the democracies. He explained the younger element there seeks progress.

Recent Wedding

Mr. and Mrs. F. W. Butler

A quiet, pretty wedding took place at St. Dunstan's Basilica on Oct. 5, at 8:15, when Rt. Rev. Monsignor McMahon united in marriage in a double ring ceremony, Patricia Josephine Arsenault, daughter of the late Robert Arsenault and Mrs. Arsenault of this city, and Frederick William Butler, son of Mr. and Mrs. William Butler of Ebsfleet, P.E.I.

The bride given in marriage by her uncle Mr. Ivan Gallant, chose a navy blue suit with pink accessories and a corsage of pink roses she carried a white prayer book, gift of her mother.

Her only ornament was a gold locket gift of the groom. The bridesmaid was Miss Velda Ellsworth of St. Louis, cousin of the bride who wore a navy blue suit with navy and white accessories and a corsage of yellow

roses. The groom was supported by Mr. Ralph Peters of St. Louis.

During the Nuptial Mass hymns were sung by Mrs. Jack Walsh with Mrs. Joseph Dougan at the organ. After the ceremony and Nuptial Mass the bridal party with members of their families and friends had breakfast at the home of the bride. The table was centered with a three-tier wedding cake topped with a miniature bride and groom. A toast to the bride was proposed by Mr. Ivan Gallant and responded to by the groom.

Mr. and Mrs. Butler with members of both families motored to the home of the groom stopping on the way to visit relatives and their many friends in Charlottetown and other parts of P.E.I. wish them many years of happy wedded life.

The Story Of Mme. Pandit

Continued from page 2

home to the family. Mrs. Pandit was first arrested in 1932 with a younger sister. She was sentenced to a year and fined when she refused to promise to stop taking part in meetings and processions for a month. In all, she served well over two years.

Her intimates call her "Nan," her brother's name for her, which means "little sister"

Those who are unsympathetic to Mrs. Pandit suspect she is a superb, hard-headed actress, forever playing a role. Even her friends concede she is extremely ambitious—a woman who immediately sets new goals upon achieving an old one.

Except that she is tremendously busy, Mrs. Pandit does not give the impression of a driving woman. She has remarkable poise, turns

up always firmly grounded and briefed on the subject at hand, argues well and, although slightly remote, is extremely gracious.

Prefers Shoes Off

She is intensely feminine. Her short grey hair is always well-groomed, her hands manicured. She invariably wears a sari, and has a large collection of beautiful garments of rich, deep colors.

She uses make-up discreetly, wears little jewelry—and her only vanities are her tiny, well-formed feet and trim ankles. She kicks off her shoes when entering a private home, and a source of considerable quiet amusement among friends is to watch Mrs. Pandit, president of the United Nations, talking with concentration and wiggling her stockingless toes.

Coneen-Pound Wedding

A wedding of wide interest to their many friends and relatives took place recently in the Kitchener-Street United Church, Niagara Falls, where Anne Jane, daughter of Mr. and Mrs. William Pound, Fredericton, P. E. I., and Walter Allison son of Mr. and Mrs. Arnold Coneen, Humphrey, N. B., were united in marriage by Rev. R. C. Todd.

Given in marriage by her brother Lloyd the bride wore a ballerina length gown of white nylon net over taffeta with lace bodice and matching bolero and featuring a lace over-skirt with scalloped edge. Her finger tip veil was held in place by a cap style headpiece of lily of the valley. She carried a cascade bouquet of red sweet-heart roses and white satin streamers.

The maid of honor, Miss Norma Pound, sister of the bride, wore a ballerina length gown of pale mauve nylon net over taffeta with matching headpiece. She carried a bouquet of pale pink gladioli.

The groom was supported by Tommy Barton. After the ceremony a reception was held at the Rapids Hotel, Niagara Falls which was decorated with fall flowers. The bride's table was decorated with pink and white gladioli and was centered with a three-tier wedding cake. Toast to the bride was proposed by Ray Hodgson and responded to by the groom.

The bridal couple left, amid a shower of confetti, for a honeymoon to northern Ontario. For travelling the bride wore a blue English wool gabardine suit with navy accessories and a corsage of pink and white carnations. On their return they will reside in Niagara Falls where the groom is employed as field representative for Household Finance.

MARGARET W. L.

The October meeting of Princess Ann Institute, was held at the home of Mrs. Melvin Deagle with seven members and four visitors. It was decided to resume our card parties in aid of the school. An order was made out by the teacher, Miss Freda Mullen for necessities the school.

Everyone present, were in favor of hot lunches for children in school this winter. A delicious lunch was served by Mrs. Deagle. The annual meeting will be held at the home of the President, and roll call will be answered by giving a quarter (25c) for the new apron.

A Country Garden

Continued from page 2

pots if the weather is bad and it will continue to bloom without any setback. Many divisions can be made from a few plants so that a good collection can soon be gathered together. All catalogues list a large number of these hardy garden mums and they come in small and very large varieties. So if you can manage to have a garden of these in the late fall they will be a joy to you and all who are privileged to see them.

Last week I saw very large bushes covered with rosy red blooms at the Memorial Nursery and they had proved very hardy there in an exposed position. It is good to refresh our memories of lovely summer gardens at this time when so much of that beauty has gone for a few months, and I do not know any way half so good as colored photographs of a garden at its best. Sometimes it is difficult to believe that it was so lovely when we look at the borders today. It is now that the evergreens show their worth and English Ivy in large mounds is a good green. However, brown earth smoothly raked and planted with Tulips and Forget-me-nots is something to look forward to in early spring.

The cycle of the seasons, with their never-ending variety, their constant change is certainly not the least of a gardener's charm. We have the pleasures of anticipation and the added interest of change. A drive through our Island wooded sections is a very wonderful joy at this season of the year.

AUTUMN

A solemn land of long-fulfilled desires Is this, and year by year the self-same fires Burn in the trees, the untarnished colors keep The sweetness of the young earth's infant, sleep: Beyond the plain, beneath the evening star, The burnished hills like stately peacocks are. —Mary Webb.

NOTICE TO Charlottetown MOTORISTS

City and suburban car owners are warned that snow and ice will create winter driving hazards. You will be wise to investigate the Suburbanite snow-ice tire by Goodyear before buying any snow tire. In test after test, under every type of winter driving condition, this tire proved it will out-pull, out-stop, out-perform any other tire on the market. And—due to its radical tread design—it runs smoothly, quietly, even on bare pavement. Protect your car investment—and maybe even your life—with the most dependable tire for winter driving safety—the Suburbanite snow-ice tire. Order a pair today from your Goodyear Dealer.

How many products do we get from crude oil?

From eggs, a hen can expect just one product—chicks. But from crude oil, Imperial refines 679 different products, ranging from weed killers to heavy asphalts. And that is not all—crude oil also supplies petroleum gases and other raw materials for plastics and synthetic rubber.

Oil plays a large and growing part in our everyday living. How many of these questions about it can you answer?

Oil supplies are vital to defence. The gasoline required to move one armoured division 100 miles would run your car for 10 years? 95 years? 350 years?

The average weekly pay cheque of Canadians in 1939 would buy 84 gallons of gasoline. How many gallons will today's cheque buy 79? 135? 93?

Scientists believe oil was formed from the remains of tiny sea creatures which lived millions of years ago. Would you say oil is found in rock? pools? swamps?

How much will the oil industry spend each week this year to find and develop oil fields in western Canada \$2 1/2 millions? \$6 millions? \$12 millions?

It takes many millions of dollars in plant and equipment to provide high-quality oil products when and where you need them. How much does this amount to per Imperial employee \$3,856? \$16,597? \$30,715?

The average family car could be operated for 350 years on the gasoline needed to move an armoured division 100 miles.

Even though gasoline road taxes are higher in all provinces, today's average pay cheque will buy 135 gallons.

Oil is usually found far underground in the tiny pores of rock such as limestone or sandstone. The word petroleum is derived from the Latin "petra" and "oleum"—rock oil.

The industry is expected to spend \$300 millions on exploration and development this year—about \$6 millions a week.

Imperial's investment in plant and equipment is \$30,715 for each of its 13,500 employees, and it is still rising.

IMPERIAL OIL LIMITED all makes a country strong

BUILDING A NEW HOME OR RE-ROOFING? Be right in style, color and price! COLORFUL - ECONOMICAL Johns-Manville ASPHALT SHINGLES Before you build or remodel it will pay you to get full details on J-M Asphalt Shingles.
