UP IN A BALLOON.

A Pretty Girl's Homeward Trip by Moonlight.

"The very happiest experience of my life was the balloon trip I took last Saturday. It was thoroughly satisfying."

This remark, says the New York World, was made with much enthusiasm by a young woman who looked as though her happy experiences in life had been many. She was a pretty girl, with brown hair arranged in a loose knot, and blue eyes which sparkled as she declared that she just loved balloons."

No one would imagine her to be an aeronaut, and she isn't. She is simply Mlle. Juliette Rode, a French girl who, for a number of years, has been living with her mother at New Brighton, S. I. Her trip was made with Captain Emile Caston from Lion Park last Saturday at 6.30 p. m.

"Just once did my heart give a big jump, and that was when I first saw the balloon," said Mlle. Rode, in talking it

MLLE JULIETTE RODE.

over, "but the minute I stepped into the basket the suggestion of nervousness went away. How did I feel when I began to ascend? Why, as though I had wings. It was the most delightful sensation imaginable."

Mlle. Rode was very fortunate in the fact that her balloon ascension was in many ways remarkable. From One Hundred and Eighth street to about One Hundred and Eightieth street the balloon sailed above the city.

"The streets," she said, "appeared like narrow white ribbons wound in and out among toy houses, and the people—why they looked like flies. But you could hear very distinctly all they said."

Just above One Hundred and Eightieth street the balloon drifted over the Hudson. The captain, assisted by Mlle. Rode, let the water anchor down, and then the most interesting part of the trip began. For an hour and 20 minutes the balloon floated slowly up the river.

"It made the most beautiful picture," said Mlle. Rode, "and to make it all the more like fairyland the moon appeared and shed its silvery light over the water. I always did like moonlight, but this was a moonlight night idealized. The stars came out and twinkled at us in the merriest sort of way. It was like playing tag with them up there among the clouds. Oh, I shall never forget it!

"What did I wear? Well, I dressed entirely to warmly. On my next balloon trip I shall wear just the same sort of a dress that I would wear shopping. You should have seen the feathers on my hat when we landed over in Jersey. They were perfectly straight. The humidity was such that even my hands were moist.

"After creating a decided sensation among the big and little boats going up and down the river the balloon was dragged ashore by some obliging men in a rowboat at Alpine, N.J.

Mlle. Rode had been above the earth as high as 3000 feet. She had been gone just three hours, had stood up throughout the entire journey and landed on the Jersey rocks with the exclamation: "Must we stop? It has seemed but five minutes to me!"

This young French woman cannot understand why American girls do not go up in balloons often; as a popular means of transportation she thinks balloons would be perfect. "Just think what an improvement it would be on the elevated train," she remarked. "No dust, no noise—just gentle sailing to one's destination."

And then Mlle. Rode sank into a delicious revery from which the reverential withdrawal of the reporter did not arouse her.

WOULD-BE ROSA BONHEURS.

Girls Studying Art in Paris Do Not Have an Easy Time.

Girls who study art in studios with men in Paris do not have exactly a path of roses to tread, according to the testimony of one recently returned. Only those who are exceptionally gifted receive anything but the most curt treatment from the masculine students. The celebrated artist, whose income she is selling, seldom troubles to remember her name.

By way of assisting the girl student the professor stands silently behind her chair and lets his presence be felt. If he does not speak she is wretched, but if he does speak she is usually more so. If she displays too much self-confidence she is ignored until she becomes humble; if she is timorous, she receives crisp criticism that almost gives her nervous prostration. But it is a healthy atmosphere and better alike for budding genius and hopeless mediocrity than the flattering, complaisant ways that prevail among girls.—New York World.

CORDUROY COVERINGS.

How Wicker Furniture May Be Made Suitable for Winter.

Those hygienic housewives who dislike unholstered furniture and have a fondness for rattan and portable cushions are turning their heads to corduroy as a winter covering for cushions. Its claims to popular favor are many. In the first place it is fairly inexpensive. Then it has the wearing qualities of sheet iron. It comes in all colors.

A drawing-room furnished in wicker and corduroy of dark green and brown shades is charming. The chair seats and backs are made by an upholsterer and are tufted, and corded properly. The long wicker lounge has a three-part cover of brown corduroy and the usual embankment of bright-colored silk pillows.—St. Louis Post-Dispatch.

A Foolish Clergyman.

A clergyman out in Denver, whose experience in the east appears to be limited to one or two Chautauquan gatherings, declares that the people of the Atlantic coast cities hate the people of the west. There's a charitable and wholesale generalization for you.—Boston Globe.

The Doctor Passed Him.

GRAVENHURST, Sept. 18—About a year the newspapers contained of the curious case of Sam Murray, a railroad brakeman, of this place. He was paralyzed, as a consequence of an injury received while coupling cars, and for two years was unable to work. Several doctors, among them some Toronto specials, pronounced him incurable and his case hopeless. The Grand Trunk Railway Company paid him his full disability claim, and the Brotherhood of Railway Trainmen was about to pay a similar claim, when Murray astonished everybody by a return to health. It was proven at the time, beyond the possibility of a doubt, that Murray's recovery was due to Dodd's kidney pills. A few days ago Murray applied to a life insurance company to take out a policy on his life. Two physicians have just examined him, pronounced him a desirable risk, and recommended the company to issue a policy. That's the kind of work Dodd's kidney pills do.

Endurance in Pain.

Untold agonies are silently endured by thousands of sufferers from Piles. The use of Hawker's Pile Cure soothes the pain, relieves the inflammation and makes a perfect and permanent cure. Price 50 cents. Sold everywhere. It afflicted try it.

A Big Mistake.

The moulting season, or the season when the hens shed their feathers will soon be at an end. The process is one that in certain respects debilitates and prevents hens from laying. The reason of this is that the growing of new feathers requires all the nitrogen and phosphates contained in the food and there is none left to form the egg. A curious fact about the hen, and one that illustrates the foregoing statement, is this, if a hen's leg be broken during the laying season, she will lay her eggs without shells until the break is mended. The reason for this must be that all the lime contained in the food is required to unite the broken bone, there is therefore none for the formation of egg shells. The formation of new feathers does not require any carbonaceous or fat producing food, consequently well fed hens get very fat during the moulting season and poultry raisers not understanding all about these things kill off the old hens because they think they have stopped laying as are fat. This is a great mistake, because if the proper material be furnished them with their food to supply the increased demand for nitrogen and phosphates before mentioned the old hens will be through shedding feathers much sooner and will begin laying on the approach of cold weather and will continue to lay vigorously all winter, while the young pullets, reserved to take the place of the old hens, may not begin to lay until much later in the season. Very many people have learned from experience that Sheridan's Condition Powder mixed once daily with their food will supply the extra material needed to strengthen and invigorate their hens, enabling them to grow new plumage quickly and commence laying early. Those who commence now to use Sheridan's Powder, will find that their young pullets will commence to lay at from four to six months old, and will lay continuously through the winter. The Farmers' Poultry Raising Guide, published by I. S. Johnson & Co., at 22 Custom House Street, Boston, at 25 cents, contains a vast amount of information on this subject. Johnson & Co. will send, post paid, two 25 cent packs of powder and one Guide for 60 cents, or a 2½ lb. can of the powder, postage or express prepaid, for $1.20 and a guide free.

After Twenty Years.

Twenty years ago Thomas Simpson, of St. John, was restored to health from a condition of severe pains and great nervous prostration by Hawker's Nerve and Stomach Tonic. Doctors' medicine had failed. Mr. Simpson still treasures the first empty tonic bottle, and now whenever he is unwell his remedies are found in Hawker's Tonic and Hawker's Liver Pills, the latter is the best pill, he says, that he ever used.

For Over Fifty Years

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best-known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

Mr. James Shand, the well-known auctioneer, says: "Had considerable expectoration and disagreeable cough. Physician recommended Puttner's Emulsion. Took six bottles—cough vanished. Am convinced your preparation brought about my speedy convalescence."

JOHN DOULL AND OTHERS, Defendants.

Whereas by an order made in this cause by the Master of the Rolls on the 30th day of August, A. D. 1893, it was referred to me, amongst other things, to take an account of the personal estate and effects of which the late Hon. Charles Young, deceased, testate, was possessed, or to which he was entitled, at the time of his decease, also of the debts and liabilities owing to and by the said testator at the time of his decease, and that I should cause to be published in the Royal Gazette and such other papers as I should think fit an advertisement, calling upon all persons claiming in respect of any such debts or liabilities, other than those already duly furnished to the Executrix of the testator, to come in before me and prove such debts and claims, and that I should fix a peremptory day for that purpose, and that such of the creditors as should not come in and prove their debts and claims by the time so to be fixed, should be excluded from the benefit of the said order. Now I do hereby, in pursuance of said order, give public notice that I do hereby fix MONDAY, the Thirtieth day of October next, at eleven o'clock in the forenoon, at my office in Charlottetown, in Queen's County, as the time and place for all persons (except as aforesaid) having or claiming to have any debt, claim or demand against the estate of the said Testator to come in before me and prove the same, and any person neglecting to come in and prove his or her debt, claim or demand before me at such time and place will be excluded from the benefit of the order of the 30th day of August, A. THE GRODER DYSPEPSIA CURE CO.

GENTLEMEN:—I am 71 years of age. Have been afflicted with sick headache most all my life, which developed into Dyspepsia of a mild type about twenty years ago, and has continued to grow worse until during the past seven or eight years I have not been able to take a drink of cold water or milk, as they would produce severe pains and sometimes vomiting. I have been subject to severe pains in the chest, with dizziness, which have been more frequent during the past three or four years. My mouth was furred up in the mornings, accompanied with bad breath. My case was yearly growing worse.

During all this long period I have tried many popular medicines, as well as prescriptions from the regular medical practitioners, but without producing any improvment.

In the fall of '92 I concluded to try a bottle or two of your medicine and such were its effects that I continued it and now I can drink cold water or milk without any inconvenience. Those dizzy pains are all gone and my mouth is as sweet as a baby's. In short, your medicine has cured me and I am sure that all Dyspeptics can be cured by its use.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Many of them have repeatedly told me of its good effect upon their children."

DR. G. C. OSGOOD,
Lowell, Mass.

Castoria.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHELOE,
Conway, Ar.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

Change of Business!

For nearly fourteen years we have conducted business in this city in the lines of SEEDS and GROCERIES to the satisfaction of our patrons, as is evidenced by the fact that a large proportion of our present customers have dealt with us regularly from the start. For several years past we have foreseen that the development of our Seed business—now the largest in that line in the Maritime Provinces—would eventually make it advisable to give up the sale of Groceries altogether. That time has arrived, and we now RETIRE FROM THE GROCERY BUSINESS, not because of any want of success in that line or want of confidence in our ability to continue to compete for a fair share of patronage, but for the reason that we have plans for the future which, properly carried out, will, apart from the Grocery business, take up all our time and employ all our capital.

We propose to further develop and extend our Seed trade, improve wherever possible the quality of the Seeds we sell, and increase our facilities for conducting that business; to enter more largely into the growing of Seeds for our own trade in such lines as this can be profitably done, and in connection with the Seed business conduct

A COMPLETE BOOK STORE,

in which the sale of Agricultural Literature will be made a specialty.

Our former Store in MONAGHAN'S BRICK BUILDING, on QUEEN STREET is now being completely refitted and prepared for the proper carrying out of the above named plans. This Store will be open for business as soon as possible, and due notice will be given of the date. In the meantime our office remains where it is at present and we respectfully request prompt payment of all due and overdue accounts.

We have now to cordially tender our sincere thanks to our many friends and customers in both the city and country for their liberal patronage, and beg to inform them that we have sold out our STOCK OF GROCERIES and the good will of our Grocery business to MESSRS. BEER & GOFF of this city, and we bespeak for them the patronage of our customers in the Grocery line, and we feel confident that MESSRS. BEER & GOFF will endeavor to please all our old customers by giving them GOOD GROCERIES AT LOW PRICES and prompt attention, such as we have ever tried to do.

GEO. CARTER & CO.

Referring to the above, we shall make every effort to give Messrs. Geo. Carter & Co's. former Grocery customers, who may favor us with their patronage, the attention and satisfaction which we are sure they have received in the past, and thus prove that we merited their confidence in recommending their customers to deal with us.

HAWKER'S NERVE & STOMACH TONIC.

A LADY'S EXPERIENCE.

Mr. Wm. Thompson of Musquash, N. B., says: "For 2 years past my wife has suffered with *Acute Dyspepsia* accompanied with complete *nervous prostration* and a *smothering sensation about the heart* which frequently produced an attack of faintness. She became weak and nervous, lost all energy, and had a constant *feeling of dread*. She suffered with *intense pain in the stomach* after eating, which was usually followed by the smothering sensation about the heart and *fainting spells*. She tried a great many remedies and was treated by the doctors for some time, but obtained no relief. She became so *discouraged* that she gave up all hope of ever getting better, when *our pastor suggested* that she try HAWKER'S NERVE AND STOMACH TONIC and LIVER PILLS, *which had produced remarkable cures in several cases he knew of*. We did so and she obtained immediate relief from the distress after taking the second dose, and has continued to improve ever since until today she is as well as ever, and can enjoy her food without fear of suffering. I cannot speak too highly of these valuable medicines which have restored my wife to health and strength and saved much suffering and expense."

Rev. Henry M. Spike, Rector of Musquash N. B., says: "I am personally acquainted with Mrs. Thompson's case, and am greatly pleased that the medicine which I recommended to her produced such remarkable results."
