

The Shape of Things to Come!

Aero Willys

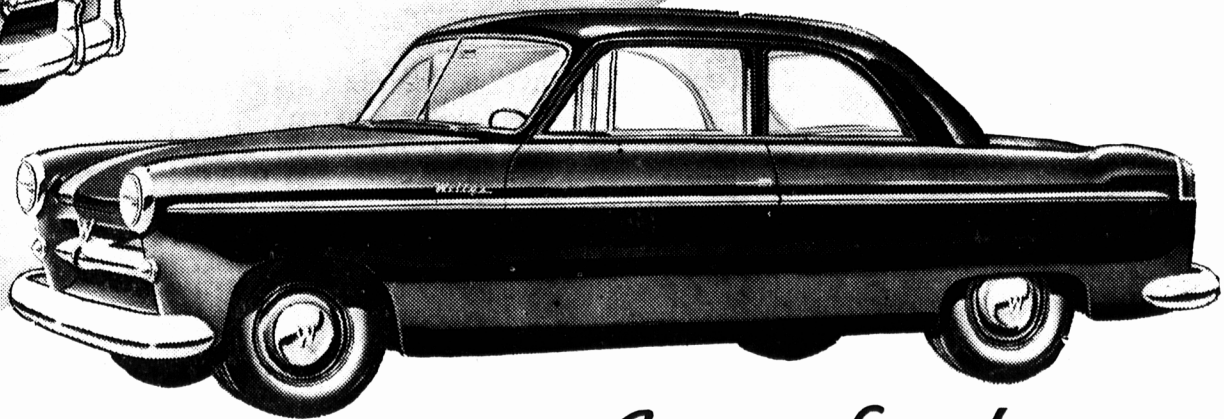

Before you decide on your next car, see and drive an Aero-Willys. Here is a full-size Six designed and built in the shape of things to come. A car that speaks for itself in a language you understand—extra-value performance, safety, comfort and economy (owners report up to 35 miles per gallon of gas). But why not let Aero-Willys tell its own story! Arrange with your friendly Willys dealer for a trial run under your own conditions! That's the best way to protect the important investment you make in a new automobile!

SIX ADULTS: 61-inch-wide seats front and rear give six adults luxurious, roomy comfort even on longer trips.

AERO-FRAME CONSTRUCTION: body and frame welded into one rigid unit. No squeaks, rattles or noisy interiors.

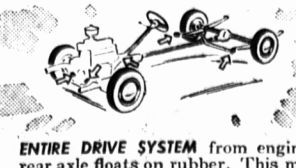

TWO GREAT ENGINES: "Hurricane" Power in the Eagle and Ace; "Lightning" Power in the Lark and Falcon.

ITS SENSATIONAL MILEAGE means fewer stops for gas and oil, convenience when you do, with gas cap near centre at rear.

EASY TO PARK: driver can see all four fenders, and the road 10 feet ahead. A panoramic view means greater safety.

ENTIRE DRIVE SYSTEM from engine to rear axle floats on rubber. This means vibration and noise are damped out.
