

General News.

Nobody who visited the Centennial Exposition of 1876, will have forgotten the "butter woman" in the Women's Pavilion, the work of Mrs. Brooks. That lady has been in Washington since last winter, having that same butter head of the Drawing Iolanthe on exhibition, and trying in every way to obtain means which would enable her to go abroad and study the sculptor's art—in which she is yet wholly unacquainted. She is also quite poor. She has just completed another work—the same subject, but on a more extensive scale. This is also in full length, reclining in a garden. Mrs. Brooks proposes taking this to Paris and exhibiting it there.

Alex. A. Stephens says, the Potter investigation will cost, at least, a million of dollars; but Congress does not make the estimate so large, having only appropriated \$20,000 for the purpose. The Senate amendment, however, appropriates the same sum additional for its own use in the matter. Probably Stephens counted Congressional time spent, etc., in which case he could not be far wrong. Minister Stoughton has already been summoned from Russia as a witness before the Potter Committee. Mr. Anderson, in his testimony concerning his interview with Sec'y Sherman, stated that Mr. Stoughton was present, but took no part in the conversation, being engaged in reading a newspaper, and hearing nothing that was said. "The other side," it seems, think it more than probable that Mr. Stoughton, shrewd old lawyer that he is, although apparently absorbed in his newspaper, did hear what was said (since he was sitting by) and have sent for him accordingly. His testimony can scarcely be without weight in the case. Among other Southern men, Senator Gordon expresses his belief that the investigation is a mistake, and ought never to have been begun; also, that Mr. Hayes' title to the Presidency cannot be disturbed, except he has impeached for some crime committed since his inauguration; and that no really new facts will be brought out by the investigation.

An English paper states that one of the endeavors of Mr. Bennett's Arctic yacht "Pandora," now rechristened the "Jeanette," will be to search, by way of Behring's Strait, the mysterious Wiangell or Keltlet's Land. Dr. Schneck saw it two centuries ago; then Wangell tried to reach it, and the Siberians told him that on clear days its mountains could be seen from Cape Jakan. It is even said that some natives attempted to reach it, but never returned to tell the tale. Keltlet caught glimpses of it in 1849, and in 1867 several American whalers approached within twenty miles of it, but could not land on account of broken ice.

The Greatest Medical Discovery since the Creation of Man, or since the Commencement of the Christian Era.

There never has been a time when the healing of so many different diseases has been caused by outward application as the present. It is an undisputed fact that over half of the entire population of the globe resort to the use of ordinary plasters. DR. MELVIN'S CAPSICUM POROUS PLASTER is acknowledged by all who have used them, to act quicker than any other plaster they ever before tried, and that one of these plasters will do more real service than a hundred of the ordinary kind. All other plasters are slow of action, and require to be worn continually to effect a cure; but with these it is entirely different: the instant one is applied the patient will feel its effect.

Physicians in all ages have thoroughly tested and well know the effect of Capsicum; and it has always been more or less used as a medical agent for an outward application; but it is only of very recent date that its advantages in a porous plaster have been discovered. Being, however, convinced of the wonderful cures effected by DR. MELVIN'S CAPSICUM POROUS PLASTER, and their superiority over all other plasters, they now actually prescribe them, in their practice, for such diseases as rheumatism, pain in the side and back, and all such cases as have required the use of plasters or liniment. After you have tried other plasters and liniments, and they have failed, and you want a certain cure, ask your druggist for DR. MELVIN'S CAPSICUM POROUS PLASTER. You can hardly believe your own convictions of its wonderful effects. Although powerful and quick in its action, you can rely on its safety for the most delicate person to wear, as it is free from lead and other poisonous material commonly used in the manufacture of ordinary plasters. One trial is a sufficient guarantee of its merits, and one plaster will sell hundreds to your friends. Ask your druggist for DR. MELVIN'S CAPSICUM POROUS PLASTER, and take no other; or, on receipt of 25 cents for one, \$1 for five, or \$2 for a dozen, they will be mailed, post paid, to any address in the United States or Canada.
