Defence Dept. Investigating Serious Leaks

Wet Snow Causes Trouble In N.B.; Causes One Death

GRAND FALLS, N. B. (CP) — An unseasonable snowstorm blanketed the upper St. John River valley Wednesday, disrupted communication and electrical services, felled trees and caused one fatality.

Maurice Caron, 8, was electrocuted here when he touched a power line broken by the weight of wet snow. The town's electrical supply was off from 2 p.m. to 6:30 p.m.

Six inches of snow, which quickly turned to slush, toppled scores of trees and two steel lamp-posts. Numerous cars slithered from the pavement and had to be towed away.

Killed When Summerside-based Plane Crashes

Two Toronto airmen, Leuit. George Noble, right, and P.O. George Wraith, left, were killed and three other men injured when their navy Avenger aircraft flipped over and burned while making an emergency landing at Kenora, Ont. The single-engine light bomber, stationed at Summerside, P.E.I., was returning to its base from Rivers, Man., where it had been delayed by engine trouble, when a gasoline leak developed. The pilot decided to land at Kenora for repairs. Touching down safely on a north-south runway, the Avenger had gone 200 yards when it flipped over on its back, skidded a few feet and burst into flames. Three of the occupants managed to escape from the wreckage. The other two were trapped in the burning plane.

Officials Deeply Concerned Over Three Incidents

OTTAWA (CP) — Too many military secrets are finding their way into Canadian newspapers, defence officials said Wednesday.

They said they are "deeply concerned" over the leakage of classified information and intend to do something about it. Citing three specific cases, an official spokesman said investigations are under way to find out who "talked."

The three cases are: The disclosure several months ago that A. V. Roe of Canada, Ltd., was working in Toronto on a plane resembling a flying saucer; development at McGill University in Montreal of the McGill Fence, to supplement radar defences; and the recent testing near Ottawa of an air-to-air guided missile.

These disclosures were in themselves "very serious," the spokesman said. But officials said they are even more worried by the fact that such information leaked out. "We must plug the gaps before something more serious happens," the spokesman said.

Cornwall Man Fourth For Canadian Plowing Title

By CRAIG ARMSTRONG
COBOURG, Ont. (CP) — Robert Timbers and James M. Eccles, chosen Ontario champion and runner-up respectively Tuesday, finished in the same order in the Canadian championships Wednesday at the 40th international plowing match.

Timbers, 26-year-old veteran of 11 internationals, plowed two almost flawless half-acre plots to add the Canadian title to his impressive array of trophies. Eccles, a veteran of many matches, is also a previous Ontario champion. They went out over a field of pure other provincial champions.

World Match Today

They will represent Canada in the first world plowing match today. Competitors from 11 countries will vie for the golden plow trophy.

Timbers, a slender young plowing craftsman who farms 100 acres near Stouffville, was cheered on by his wife and mother. Eccles has a 300-acre dairy farm five miles west of Brampton.

P. E. I. Man Fourth

Third in the national event was Cyril Haynes of Emerson, Man., with Stanley Willis of Cornwall, P. E. I., fourth and John Beaman of Portage la Prairie, Man., fifth.

The finishing order for the other six contestants was not announced. They were: Hilton Cochran and S. J. Stothers, Beech Grove, Que.; Sven Swanson and Henry Thomson, Chilliwack, B. C.; Stirling Moore, Pownal, P. E. I., and Delmer Duffy, Nappan, N. S.

Each contestant plowed a half-acre plot of sod and half acre of stubble. The time limit for each plot was three hours. Rules used were those of the world plowing match organization, formed last fall to conduct the world competition.

Tells Britain And U. S. To Curb Rhee

LONDON, (AP) — India's prime minister Nehru warned Britain and the United States Wednesday to curb South Korean president Syngman Rhee's government or face the threat of having the Korean war set aflame again.

British officials said Nehru made known his government's concern over the situation in Korea in similar cables to Prime Minister Churchill and President Eisenhower.

The text of Nehru's messages was not released, but the officials said the Indian prime minister expressed fear that statements by leaders in Rhee's government would incite an attack on the 5,600 Indian troops guarding still unrepatriated prisoners of war in the Korean neutral zone.

The message was reported to have said that such action would be a violation of the armistice and might touch off another Korean holocaust.

Reflect Resentment

Informants said the message reflected India's resentment at what Nehru apparently deemed United Nations indifference to the threats and accusations being directed at the Indians by Republic of Korea spokesmen.

New Incident

India and the Communists Wednesday protested South Korean threats against Indian troops at Panmunjon even as a new incident boiled up in Korea's turbulent truce.

With the apparent blessings of South Korea's government, 63 Chinese ex-prisoners flew off to Nationalist Formosa. Peiping radio shouted angrily. The issue seems sure to reach the armistice commission.

The 63 escaped from Allied prison camps last June when 27,000 anti-Communist North Korean prisoners were freed on order of President Syngman Rhee. The Chinese Reds protested that these 63 should have been turned over to

Cameras To Trip Speeding Motorists

TORONTO (CP) — Cameras to photograph speeding cars and their licence plates will be set up in police cars on Ontario highways next spring to catch speeders and traffic-weavers, a provincial police officer said Wednesday. Insp. William Bride of the OPP radio communications department said the cameras are included in new radar which will graph a car's speed.

Spirited Discussion At Potato Meeting In S' side

—About 500 producers and dealers attended a meeting under the auspices of the Prince Edward Island Federation of Agriculture in the Summerside High School auditorium last evening to hear and discuss the potato marketing agreement made by the Provincial Potato Marketing Board with the Federal authorities.

The details of the agreement were outlined by Mr. D. A. MacDonald, chairman of the board.

In essence the agreement which is in effect now and will go into operation next week, will guarantee to those who enter the agreement an initial payment of 45 cents per bushel to December 31st, 50 cents per bushel for January, February, and March, and 55 cents per bushel for the balance of the season.

Mr. MacDonald emphasized that producers and dealers will individually decide whether or not they wish to participate in the pool agreement, but he pointed out that there will probably be a time limit on registration for participation in the pool and he suggested that this date might be in about six weeks time.

Those who enter the agreement, he said, will be expected to remain with it for the season. However, it was not the intention of the dealers of the Marketing Board to interfere with the dealers or producers in the pool who had made previous contracts.

Employment In Maritimes Seen Unchanged

AMHERST, N.S. (CP) — Employment conditions in the Maritimes this winter likely will be about the same as last year, officers of the unemployment insurance commission of the Atlantic region were told here Wednesday.

Meeting for their biennial conference, the 40 officers were told that there were several favorable factors in the employment picture this winter.

Personal income remains high and people still have plenty to spend, industrial production was being maintained and store sales were making a strong comeback.

On the unfavorable side, labor and material costs were forcing prices higher, farm income was prices higher farm income was declining.

Couple Arrested In Kidnap-Murder Of Greenlease Boy

(By Al Dipping)
KANSAS CITY, (AP) — Six-year-old Bobby Greenlease's body was found Wednesday in a shallow grave at the back of a small St. Joseph, Mo., home soon after the woman living there and her ex-convict lover were arrested as his kidnappers.

Little Bobby was never given a chance even before a \$600,000 ransom was paid by his millionaire father, Robert C. Greenlease. Sr. Police said about \$300,000 had been recovered and the boy was shot to death a few hours after a woman posing as his aunt abducted him from a private Roman Catholic school Sept. 28.

The couple, arrested in St. Louis, are Mrs. James Brown Heady, a blue plastic bag buried beside the back porch of a small white bungalow in which Mrs. Heady lived. It was covered with a foot of lime and about three feet of dirt.

Mrs. Heady insisted she knew nothing of the slaying.

The magic turn in the kidnapping case came as the family had renewed hope Bobby would be returned safely.

The ransom money stuffed in an army duffel bag had been dumped out of a car by a Greenlease representative Sunday night.

The family had complied with a letter demanding \$600,000 ransom in \$10 and \$20 bills. The money had been demanded in a letter received the night of the kidnapping.

The bag was dropped over a bridge in Kansas City. Shortly afterwards a telephone call at the big red-brick house of the boy's 71-year-old father told the family it would learn through a telegram Monday, Oct. 5, where to find the boy.

Held Faint Hope

The telegram never came but spokesmen of the family still held faint hope until the FBI called Wednesday to tell them little Bobby had been murdered.

The shocked parents who went into seclusion in their home with their 11-year-old daughter, Sue, and friends were visited by a priest shortly after the news of the discovery of the body.

Whether the state or the federal government would take over the prosecution of the arrested

Power Blackout In Most of N.B.

SAINT JOHN, N.B. (CP) — Transformer trouble at the Grand Lake plant of the New Brunswick electric power commission caused a power breakdown throughout the province early Wednesday afternoon.

The first break occurred at 12:30 p.m. Outages were restored at varying intervals up to 2:45 p.m. When power stopped from the Grand Lake plant, the overload on other plants caused additional "trip-outs" until the whole province lacked power. Nearly two hours elapsed before the Grand Lake trouble was corrected.

Newspaper editions were delayed and practically all other businesses and services affected.

Snow Falls Over Much of Maine

NEW YORK, (AP) — Snow up to six inches fell in New York near the Canadian border and up to four inches in Maine Wednesday. The weather bureau termed it the first good snowfall of the season.

Five to six inches of snow dropped in the Lyon Mountain-Danvers area in New York about 20 miles south of the Canadian border.

In Maine the snow covered the northern two-thirds of the state. Four inches fell at Houlton and Bangor, but in most of the area it melted quickly.

Some areas in the midwest had frost.

Most of the United States had clear skies with temperatures near normal fall levels.

Warships Arrive At British Guiana

GEORGETOWN, British Guiana, (CP) — A British cruiser and two frigates arrived here Wednesday night with 600 troops aboard to thwart a Communist uprising in this British colony.

The warships arrived shortly after leftist premier Cheddi Jagan fell in a bid to have the House of Assembly (lower house) condemn the presence of British forces.

The warships anchored off Georgetown. The 8,000-ton cruiser Superb had 500 Royal Welch Fusiliers aboard. Officials believed the 1,600-ton frigates Bigbury Bay and Burghhead Bay will ferry the troops ashore during the night.

Monument To Bennett To Be Unveiled Oct. 16

OTTAWA, (CP) — A monument commemorating the birthplace of the late Viscount Bennett, former Prime Minister of Canada, will be unveiled at Hopewell Cape, N.B., Oct. 16, the resources department announced Wednesday.

Capl. R. V. Bennett of Sackville, N.B., brother of the former statesman, will unveil the cut — stone monument and its bronze tablet. Labor Minister Gregg will give the commemorative address.

The monument was erected in the small park at Hopewell Cape by the national parks branch of the resources department on the recommendation of the national historic sites and monuments board of Canada.

C.N.R. Opposes Rates Change

OTTAWA, (CP) — A Canadian National Railways spokesman Wednesday criticized freight rate changes announced by the board of transport commissioners Monday as a temporary rate-equalization measure.

Alex Hart of Montreal, CNR commission counsel, described the move as "frustrating with danger to the railways." He was presenting evidence to the board as it continued hearings on equalization.

The action protested by the government-owned company was a decision by the board to order the railways to reduce class freight rates in Western Canada by five per cent and to authorize compensating increases of up to 10 per cent in Ontario and Quebec.

Jap Cargo Liner Opens New Service

MONTREAL, (CP) — The Japanese cargo liner Fughiharu Maru, one of the largest and fastest motorships from the Far East, docked in Montreal Wednesday on her maiden voyage.

The ship, first of the Shinnoh line vessels to reach Montreal, brought in a cargo of ore, opening a new service between Canadian ports and far eastern ports, including Yokohama and Kobe.

The line's representatives said other Japanese ships will come to Montreal before the close of navigation and will go to Halifax and Saint John, N.B., during the winter.

Look For Ex-convict

The Federal Bureau of Investigation are looking for Thomas John Marsh, 37, another ex-convict. Hall told Police Marsh murdered Bobby.

Bobby's body was found in a blue plastic bag buried beside the back porch of a small white bungalow in which Mrs. Heady lived. It was covered with a foot of lime and about three feet of dirt.

Mrs. Heady insisted she knew nothing of the slaying.

The magic turn in the kidnapping case came as the family had renewed hope Bobby would be returned safely.

The ransom money stuffed in an army duffel bag had been dumped out of a car by a Greenlease representative Sunday night.

The family had complied with a letter demanding \$600,000 ransom in \$10 and \$20 bills. The money had been demanded in a letter received the night of the kidnapping.

U. S. Seeks To Settle Yugoslav, Italian Wrangle

By STAN SWINTON
ROME, (AP) — The United States is quietly intensifying its effort to solve the wrangle between Italy and Yugoslavia over Trieste.

Fear of Soviet intervention is one reason for the renewed and accelerated move to settle the fight over the future of the Adriatic seaport and the surrounding area, reliable sources report.

Premier Giuseppe Pella, who told parliament Tuesday night that Italy will not change her demand that the future of Trieste be settled by plebiscite, called in U.S. ambassador, Clare Boothe Luce Wednesday to explain the implications of his speech.

After hearing his views in a 20-minute meeting, the U.S. ambassador was reported to have told Pella the United States is extremely hopeful action toward a friendly settlement on the Trieste issue will be forthcoming soon.

Thieves Fail In Bank At Havelock, N.B.

MONCTON, (CP) — Thieves failed Tuesday night in an attempt to open the Bank of Nova Scotia vault at Havelock, N.B., about 30 miles west of here. Police searched the province Wednesday for a car stolen from a nearby garage, believed to have been used for a getaway.

An acetylene torch, crow bar and other equipment stolen from the garage were found in the bank.

Nothing was reported stolen from the bank. Entry was made through a rear window.

Demand For Uninterrupted Car Ferry Service Indorsed

In a resolution passed at the annual meeting of the Maritime Provinces Board of Trade at Saint John this week, the demand made by the Province for a Federal guarantee of uninterrupted ferry service between Borden and Tormentine, regardless of any future strikes by railway employees, was strongly endorsed. The Board also urged that this matter be supported by the Governments of the four Atlantic Provinces as a measure of "vital importance" to these Provinces.

Another resolution urged strong support of any move designed to improve the service on the Wood Islands to Caribou route. Delegates from Nova Scotia particularly remarked on the value to that Province of the trade with this Island.

Following is the text of the car ferry resolution, which was passed unanimously:

"The ferry service between Cape Tormentine, N.B., and Borden, P. E. I., is designed for the transport of trucks, passenger vehicles, passengers and railroad equipment. This ferry service is the main transportation link between Prince Edward Island and the mainland and discontinuance of this service, for any period of time, would jeopardize the economy of the Maritime Provinces in general and Prince Edward Island in particular. This has happened in the past through strike action on the part of employees of the Canadian National Railways, under whose jurisdiction the operation of this service falls.

"The Maritime Provinces Board of Trade feels strongly that no one segment of the transportation field should, by its actions, or actions of its employees, be able to curtail the operational activities of any other mode of transportation.

Disastrous Consequences

"The Board is deeply concerned over such occurrences because of the disastrous consequences and has transmitted its view in this matter to the Prime Minister of Canada, Minister of Transport, and the President of the Canadian National Railways. The Board has

10 Rescued From Gas-Filled House

WINDSOR, Ont. (CP) — Ten persons, including a three-week-old baby, were hauled from a gas-filled house here today and were revived by a rescue squad. A gas leak, thought to have originated in a furnace at gas seep through the house, which is occupied by Chris Markou and his family.

Sharp 'Quake Jolts Southern California

BAKERSFIELD, Calif. (AP) — A sharp earthquake, apparently centered near here, jolted southern California early Wednesday. No damage was reported.

In Pasadena the California Institute of Technology's seismological laboratory estimated its magnitude at about 4 1/2, compared with 7 1/2 for the shock that destroyed much of Teahachapi and Arvin last year.

Coming Events

- **Dance in Millview hall every Friday.
- **Buying timothy daily. McGuigan & Boyle.
- **Dance, Grandview tonight. Burns Orchestra.
- **Dance, Mermaid School, Friday, October 9th, Fraser's Orchestra.
- **Weekly Dance, Winsloe Station Hall, Thursday, October 8th, Doiron Bros. Orchestra. Canteen.
- **Chickens - supper Immaculate Conception Church Hall, Wellington, Thanksgiving Day, Oct. 12th.
- **Pantry Sale, Group 3, Zion W. A. Miller Bros. Saturday afternoon, October 10th, 2:30.
- **To get the most value out of your grain have it ground and mixed at E. J. MacDougall's Vernon.
- **Island Valley Boys appearing in Forest Hill, Friday, October 8th. Cowboy singing and old time music.
- **Owing to the drop in grain our prices have been greatly reduced on Shur Grain Feeds. C. J. MacDougall, Vernon.
- **All plot holders in Wheatley River Cemetery are asked to mark plots and identify graves so charting may be complete.
- **Buying daily, live and dressed chicken, fowl and old roasters, plying highest market prices. Delivered our Souris plant. Crates supplied. Eastern Packing Co., Ltd.
- **Farmers ask about the Shur-Gain Feed Finance Plan. For particulars contact your local feed mill. Farmers who break records use Shur-Gain.
- **We need large quantities heavy Capons, chicken and fowl, at our plant, Fitzroy Street. Can also market large quantities lighter weights to your advantage. Island, Co-Op Service, Fitzroy Street.

Reports Great Progress In Atom-Powered Planes

TORONTO, (CP) — The Star claimed Wednesday that atomic-powered warplanes, each capable of circling the earth three times for every four pounds of uranium fuel, are being developed by Allied scientists.

"Closest co-operation yet between Canada, Britain and the United States is reported this week with the meeting of Canada's and Britain's top aircraft designers in New York," the newspaper says.

It adds: "Discovery of a new metal alloy is said to have speeded progress. Canada's Chalk River atom scientists are reported to have investigated this alloy, which would replace lead as a shield against radiation from an atomic reactor. The major obstacle at present to development of an atomic-power unit small enough for aircraft use is the tremendous weight of lead shielding required to protect the crew."

Takes 30-Mile Walk On 83rd Birthday

COLLINGWOOD, Ont. (CP) — Alfred Staples of Collingwood took his 83rd birthday in his stride. He walked 30 miles Tuesday, took an ice-cold bath, ate a bowl of fruit and said: "I love life. I feel like 35." The journey from his town, 65 miles north of Toronto, took most of the day.

Snow Hampers Search For Missing Que. Hunter

ST. EMILE DE MONTCALM, Que. (CP) — Wet, drizzling snow hampered search parties that set out before dawn Wednesday in an effort to find a missing hunter.

It was feared the cold, damp weather would lessen the chances of survival of 44-year-old Alphonse Berube of Verdun, Que., who became lost Sunday in the woods of Montcalm County, in the Laurentian mountains area north of Montreal.

One search party reported hearing earlier a few faint cries and four separate parties began an intensive search of the woods.

Berube was with Dr. J. A. Gagnon, 29, of Montreal but Dr. Gagnon managed to find his way out about 12 hours later, eight miles from the place he had entered the woods.

Dr. Gagnon said Berube became too tired to go on and remained at the foot of the mountain while he climbed to "scout around." Dr. Gagnon saw a road and called down to Berube to come up. There was no reply. Dr. Gagnon went down again but, after firing shots and searching several hours, failed to find Berube.

Regional forecasts:

Prince Edward Island: Cloudy and cool; west winds 20. Low-high at Charlottetown 45 and 50.

Eastern N.B. counties, lower St. John river valley, Bay of Chaleur: Cloudy and cool; northwest winds 20. Low-high at Moncton 42 and 50, Fredericton 33 and 50, Saint John 35 and 50, Campbellton 35 and 45.

Upper St. John river valley: Cloudy and cool; northwest winds 26. Low-high at Edmundston 32 and 45.

High tide today at Charlottetown at 11.1 A.M. and 11.00 P.M.

High tide today at the North Shore at 7.13 A.M. and 5.56 P.M.

Summerside tide eighteen minutes later than Charlottetown.

Sun rises today at 6.19 A.M. and sets at 5.42 P.M.
