the banqueting-halls of the feudal barons, ergies of cook and servitor were tasked utmost to arrange a tempting bill of All the wealthy kept open house during holidays, and good cheer was provided t stint or measure. On Christmas-day and feast was served, and of all the dishes r's-head was best loved and most dili- y honored. Preceded by merry song, and d by blast of trumpets, it was borne in a dish of gold or silver, and followed by of lords and knights, and ladies, chant- s they walked a song in its praise. Next portance as a Christmas dish, came the ck. The bird was first carefully skinned his plumage preserved, and then, after dressed for the table, his resplendent ent was restored, and with outspread gilded beak and lustrous eyes, it glistened the board in almost its living magnificence. e, capons, pheasants and venison, were the ishing accompaniments, and the fluids were ffered in just as great abundance; and perhaps glory of boar's head and peacock has arted, and roast-beef and plum-pudding undivided sway over the Christmas ap- ites of England. Though the repast is not rude as it was five hundred years ago, it is ll one of lavish abundance—very often of roarious merriment. The drinking orgies ich in the past characterized the Christmas st, are now, however, less extensively in- lged in. The temperance reform has effect- a wonderful transformation. Though much ense is even now allowed at this season, ye re is a stigma attaching to the excess tha ll frequently occurs that respectable men sely shun; and in the domestic management the households of rich and poor there is a owing improvement in this respect. But dst so much of feasting and amusement of velry and excitement, of pleasure-seeking d self-gratification, the charities of England ve a world-wide celebrity; and a strong ea for the maintenance of Christmas observ- nces might be deduced from the largeheart- d, open-handed benevolence that at this season so freely dispenses of its abundance to the necessities of those whom Providence has less highly favored.

In addition to the foregoing, we shall now merely observe that, although, with respect to Prince Edward Island, it cannot, indeed, be said that her "charities have a world-wide celebrity;" yet, we believe, that throughout the whole of Her Majesty's dominions, no community exists in which are more freely and meritoriously practised the sacred obligations of Christian charity, than in that of which we have here the happiness to form a part; and we sincerely trust that, on Christmas Day, no poor family in the Island will fail to be made glad participants of the good things which can be well, and will, we doubt not, be cheerfully spared from that day's festival abundance of their independent or wealthy neighbours. And neither, we trust, will the sufferings and sorrows, even of the guilty and imprisoned amongst us, be left uncared for and unmitigated by the visitations of Charity upon that day—the anniversary of the birth of the Saviour of all mankind. Many who are blessed with abundance, convinced that

"Harshness, too often, hardens souls in sin,"

will, on that day, we confidently hope, in humble imitation of our blessed Lord, have recourse to the gentle but often healing influence of compassion.

We have now nothing more to say than this—that we most heartily wish all our friends and patrons

A Merry Christmas!

The First Mails by the Winter Route.—On Wednesday last several Boats, detained at Cape Tormentine on account of the large amount of ice and lolly in the Straits, crossed over to Cape Traverse. On the same evening the Courier from the latter place arrived in town with an abundance of mail matter, both Colonial and American, brought over by these boats.

LATEST NEWS BY TELEGRAPH TO *EXAMINER* AND READING ROOM.

St. John, Dec. 20.—*London, 18th*—midnight.—Powder was placed under one wall Milbank Jail, in which a number of Fenians confined—preparations all completed, fuse lighted without attracting attention, fortunately some defects in arrangements of the materials. Powder did not explode, plot discovered before attempt could be removed. No arrests made, no clue obtained to guilty parties. Gold 133½.

St. John, Dec. 21.—*London, 19th*—evening.—Explosion glycerine at Newcastle, more serious than first expected. Sheriff and town surveyor died with their wounds, in all eight persons lost their lives. A paper found in Wolverhampton shows Fenians in England had organized to plunder all armories of Militia forces in England. Gold 134½.

Monday, Dec. 23, 1867.—Great fire raging in Newcastle on Tyne. Cabinet decided to ask Parliament to suspend privilege Habeas Corpus in England. Coroner's inquest rendered verdict charging Desmond and Allen with murder, having caused explosion of Clerkenwell prison. Gold 133¾.

We learn from the Newburyport Herald that the mackerel fleet of that city "are all in port, without the loss of a man or vessel." Taken as a whole, this year has been a very unsuccessful one, the larger and higher class vessels not paying their way, while the lowest class vessels have in many instances done remarkably well. One vessel not worth $500 has landed 175 barrels, stocking over $3,000. Notwithstanding the price of mackerel is depressed at this time, the catch is not one-third as much as last year, and is wholly a speculative one, and as soon as the mackerel pass out of first hands, the price current will suddenly be changed. The schr. *Fanny*, Capt. Frank Janvrin, takes the palm for this season among the mackerel fleet, having landed nine hundred and ten barrels, which stocked $13,000. The *Fanny* is but 63 tons burthen, carrying 15 men, and costing her present owners $3,200.

The debate on Friday evening, last was opened by Mr. Seth D. Shaw. Subject, "Is man the creature of circumstances." After a warm discussion the following resolution was submitted by the opener, and having been seconded by W. E. Clark, Esq., was carried:—

"*Resolved*, that in the estimation of this meeting man is not necessarily the creature of circumstances."

There will be no debate on Friday evening next, and on Friday following (Jan. 3rd 1868), the annual meeting of the Club will be held, when officers for the ensuing year will be appointed. Any persons not already members of the Society, but who wish to become so, will please attend this meeting.

In another column will be found the address of the Prince of Wales Volunteers to Lieut. Col. Rankin, on the occasion of his resignation of the command of that Company, together with his reply thereto. The affectionate language of the address shows the high esteem and respect in which the gallant Colonel is held by the members of his late command.—*Pat.*

Quick Despatch.—We noticed the arrival, on Friday, the 29th instant, of the Barque *Polar Star*, owned by Mr. John Douse, from Liverpool, with a full cargo of goods, to Halifax; thence to this Port, and after having landed some 200 tons of cargo here, took on board about 24,000 bushels oats and a quantity of deals, cleared at Customs the following Friday, and sailed early next morning for London.

Information Wanted.—A man named John Sigsworth, about six feet high, dark complexioned, with black moustache and whisker shaved, and wearing homespun clothes and top boots, was drowned between Charlottetown and Point Prim, about the 14th of November last. Any person who can give any information of the body to Daniel Sigsworth, Cardigan Bridge, Lot 53, will be suitably rewarded.—*Her.*

The Halifax *Unionist* of the 16th inst. says a melancholy case of shipwreck occured at Cape Sable on the night of the 4th inst. The brigt. *Ada*, of Walton, Hants Co., Capt. A. Tobin, from Portland for Halifax, with a cargo of flour, is reported to have been wrecked and all hands lost. The boat and portions of the wreck were washed ashore. The vessel was owned by Mr. Mosher. The captain and most of the crew were married men, and live in Hants County.

An exchange says, the St. John papers are largely engaged in discussing the various routes proposed for the Intercolonial Railway. St. John is working hard, but it will all, very probably, be in vain. The Northern route will be the one adopted, in the opinion of nine-tenths of the people who will have the selection.

In the Dominion Parliament, the resolutions providing for the union of Rupert's Land and the North-West Territory to the Dominion, were passed at 2 o'clock on Saturday morning, after a heavy debate, in which Howe, Anglin, Smith, Connell, &c, spoke in opposition. It is said there will be further discussion when motion of concurrence is made.

The Halifax *Borderer* states that Wm. Murphy, of P. E. Island, lost his life by falling overboard from a scow, in Dorchester River, on the 26th ult. Every effort was made to save him, but in vain.

The leading men of France are organizing a new expedition to the North Pole, which is to be commanded by M. Gustave Lambert, who proposes an entirely new route. Six hundred thousand francs are wanted for the outfit.

On the 22nd ult. a girl about 18 years of age, named Amelia McGregor, a native of Prince Edward Island, living in a family at East Gloucester, Massachusetts, committed sucide by hanging herself from the stair-rail in the front entry of the house. Disappointment in love is said to have been the cause of the tragedy.—*Halifax Reporter, Dec.* 10.

The receipts for the Province of all Canada for the year from June 3, 1866, to June 30, 1867, amount to $16,400,139.89 and the expenditure to $14,729,090.54.

Cheaper than Ever.—Now is the time for those who are in want of Dry Goods to make their purchases. And we would desire to call the attention of our friends to Robert Young's large and well selected stock, confident that those who favor him with their patronage will get the best value for their money at his establishment.

Thad. Stevens is said to be a mere wreck, with no prospect of living many months, and many doubt whether he will ever again take his seat in Congress. He is weak, emaciated, and pale; his limbs tremble, his voice is broken, and the fire has vanished from his eye, except when he denounces Copperheads.

Wm. Smith, Esq., late comptroller of the port of St. John, has been appointed deputy Minister of Marine at Ottawa.

A ghost without a head, covered with blood, is said to be frightening the good people of Moncton.

The cost of the Abyssinian expedition, says the *Sunday Gazette*, may be put down in round numbers at a million to start with, and half a million a month while it lasts. This does not include the pay and allowances of the troops, which, as we have before stated, will fall upon the finances of India.

A colored barrister, Mr. Rainy, of Sierra Leone, appeared as one of the counsel in a case which came before the Court of Queen's Bench in London recently. The learned gentleman, whose appearance excited some interest at the bar, is said to have stated his case with considerable ability.

Manchester didn't sell a yard of calico at the Paris Exposition, and not half a dozen of the English exhibitors sold enough to cover their expenses. But the Burton brewers made enormous sales.

Pain Killer.

Northampton, March 11, 1867.

Dear Sir:—I wish to add to your numerous testimonials. Last September, while at work cutting sole leather with a die and a heavy iron mallet, I made a mis-strike, and the mallet came down with its whole force on my thumb, splitting it from the first joint entirely open, and laid the bone bare. I supposed I had ruined my thumb forever; but I thought of your Pain Killer, as I had often heard of its healing qualities. I went about a half a mile, and obtained a small bottle. I saturated a little cotton batting, first winding a waxed thread around the wound, and applied the Pain Killer, saturating the bandage two or three times a day. In five minutes the pain ceased, and in a week it entirely healed up; and I will say that I have never seen anything for healing qualities that equalled it; and I would earnestly recommend it to the public as a pain killer and a healer.

AN EFFECTUAL WORM MEDICINE.

Brown's Vermifuge Comfits,

Or Worm Lozenges. Much sickness undoubtedly, with children and adults, attributed to other causes, is occasioned by worms. The "Vermifuge Comfits," although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be safe and sure in eradicating worms, so hurtful to children.

Children having worms require immediate attention, as neglect of the trouble often causes prolonged sickness.

Symptoms of worms in children are often overlooked. Worms in the stomach and bowels cause irritation, which can be removed only by the use of a sure remedy. The combination of ingredients used in making Brown's "Vermifuge Comfits" is such as to give the best possible effect with safety.

The Hon. J. C. Pope, with an energy and pluck characteristic of the man, is actively engaged with a large number of men in cutting the barque 'Prioress' out of this Harbor, where after completing her cargo for Europe, she has been frozen since the first of last week. We have no doubt he will succeed in getting her into clear water. Mr. Pope is one of our most extensive ship owners, and active business men, and as a consequence, he is deservedly held in general esteem. We sincerely hope that he will receive such prices upon the cargo and freights of the 'Prioress' as will more than repay him for his present trouble and expense. *Her.*

We are sorry to learn that, owing to very hard frost setting in on Thursday night, Mr. Pope has not yet succeeded in getting his vessel clear of the ice.

By letters received by last mail from Messrs. William and Clement White of this city, we understand that produce is in good demand in St. John's, Newfoundland. At the time they wrote, Jackson potatoes were selling at 7s. 6d, and Turnbull's at 7s. per barrel. From a telegram received here this morning we learn that the Messrs. White's two vessels, the *Vesta* and *Brighton*, have been sold.—*Pat.*

Dawson's Cottage, on the Brighton Road, was sold at auction yesterday by William Dodd, Esq. for 1025. Purchaser Mr. Benjamin Heartz, of the firm of Heartz & Son.—*Ib.*

We learn that the dwelling house of Mr. Richard Taylor, of Mill River, New London, was totally consumed by fire on Wednesday morning, the 11th instant. Mr. Taylor and his sister, the only inmates of the house, barely escaped with their lives, in their night clothes. They lost everything they had. The fire originated from a barrel of ashes.—*S. J.*

A very large amount of produce arrived here from P. E. Island on Friday and Saturday last, the potatoes alone amounting to about 13,000 bushels.—*Halifax Chronicle, Dec* 9.
