

British Guiana Is Urged To Buy More From Canada

By D'ARCY O'DONNELL
 GEORGETOWN, British Guiana (CP) — A. C. Ashforth of Toronto, president of the Canadian Chamber of Commerce and head of the Canadian economic mission now visiting British Guiana, said he would like to see this British colony on the South American mainland buy more from Canada.

Mr. Ashforth made the statement at a press conference Wednesday shortly before departure of the mission for Barbados where it will conclude Saturday the 17-day tour of the West Indies and British Guiana.

He said he personally would like to see an increase in trade between Canada and British Guiana. "We now buy from you more than four times as much as you buy from us."

LOST FLOUR MARKET
 He mentioned that Canada held 93 per cent of the British Guiana

flour market in 1953 and now held only 25 per cent. American flour, heavily subsidized by the United States, could be obtained more cheaply here. Mr. Ashforth said British Guiana is buying U.S. flour because of the more favorable price, but Canada bought considerable British Guiana sugar although she possibly could obtain a better deal elsewhere.

"Canada does not let the dollar sign stand in the way of trade," said Mr. Ashforth.

He hoped the British Guiana government would reconsider and rescind the sharp increase in tariff against Canadian potatoes. The last budget increased the tariff to \$3 per 100 pounds from 25 cents per 100. This amounted to "an embargo."

INVESTMENT PROTECTION
 On the question of Canadian investment in British Guiana, Mr. Ashforth said Canadians would invest here only if satisfied the

government will carry out an assurance of the trade department with respect to foreign capital.

The department had said foreign capital could move freely; that there would be no nationalization of industries establishing here; that profits or revenue from sale of business would not be frozen.

Mr. Ashforth said the reception the mission received here outdid anything so far encountered.

Newspapers and radio stations covered the mission's activities fully. Stores throughout the city staged Canada Week, with show windows featuring some imports from Canada, and "Welcome Canada" signs stretched across the main streets.

A native steel band paraded through the streets Tuesday night ahead of banners proclaiming greetings and good wishes to Canada.

SPORT OF KINGS'

Sports Scene In Kings Really Jammed These Days

The sport scene is crowded. We have a number of topics that we could discuss. Probably, the best thing to do, is to touch briefly on all, or most of them.

First, hockey playoffs. Tonight (This is written on Sunday) at mid-night, all intermediate teams wishing to enter island playoffs must have registered. Here in Eastern King's, it looks as if we'll have three teams represent us. Namely, Morell All Stars, Souris Legion, and Annandale Eagles. We do not know what classification each team will be entered. Some team officials informed us that they were to enter the team, and the classification would be handled by the Physical Fitness Dept. Morell All Stars will probably be entered in "C", while Annandale may be "B". Souris is a question mark. Sometimes they seem too weak for "B", and sometimes too strong for "C". We'll have to wait and see. The Physical Fitness Dept. will probably announce the various classifications and the draw for the first round later this week.

SLIGHT MIXUP
 There seems to be a slight mixup in the King's County High School Hockey League. This league has three entries: Morell, Souris and Georgetown. At the start of the league, it was decided to permit Georgetown to use two players of school age, but not attending to school, to make them as strong as the other entries. Last week-end Souris and Georgetown won games against Morell. This week-end the mix-up occurred.

Friday night, Souris visited Georgetown, where they were overwhelmed 13-3. The Souris team complained that Georgetown used more than the two outside players agreed on. Whether or not they protested the game, we know not. On Saturday night Georgetown came to Souris and lost 5-3 to Morell. On this occasion, they used only school-going players. What happens to Friday night's game, we don't know. If it is to count, below is the standings:

	P	W	L	GS	GA	Pts.
Georgetown	3	2	1	24	8	4
Souris	2	1	1	11	17	2
Morell	3	1	2	9	19	3

MINOR HOCKEY
 Minor hockey is having its best season in years, and a lot of it is due to a large scale set-up in Souris. Morell has always given its youth opportunity to partake of Canada's national past-time, both in arranging for coaches and ice time. Red Point has one of the fastest improving bunch of young players on the island. A few years ago, in exhibition games, for instance, the Souris Pee Wees would have no difficulty in beating the Red Point Bantams. Last week, the Bantams easily defeated the Pee Wees, and showed they were near ready to tackle the Souris Bantams.

This year, in Souris, a number of parents have banded together to organize and coach minor hockey. Not since the days of Father Pius Murnaghan have

the Souris lads had as much ice time. They used to have to be content with sessions on Saturday morning, now, along with Saturday morning, they have three afternoon sessions.

Notice to parents and friends. The kids have a couple of big nights coming up first, there's the Annual Ice Sports. Morell were to have their last week, but a spell of mild weather hit. It'll come off soon. Then, Souris will have their ice sports, and of course there's Minor Hockey Night, which should be coming up soon. These are all events that parents should make an all-out effort to attend. The proper expression is "Don't send your child, take him." How about it?

1957-58 winter season. The current increase is being made in Ontario, Quebec and the Atlantic provinces. "The continued cold weather has resulted in abnormal operations and higher costs" the company said.

Under normal conditions refineries are able to manufacture economic proportions of products from crude oil, but when demand is great for one of their commodities, such as furnace oil, it costs more for such out of ratio production.

Halifax's increase in Esso furnace oil follows three decreases, one of a half cent in July 1957 another of a half cent in October 1957, and a third of one cent in April 1958.

Three Per Cent Of Canadians Are Said Mentally Retarded

MONTAGUE — Addressing the members of the Montague branch of the Retarded Children Association at their regular monthly meeting on Monday night, Dr. Malcolm Beck, stated that of the many conditions which might lead to the handicapping of an individual none represented a more complete loss to society than mental illness and mental retardation.

He stated that it has been estimated that three per cent of Canadians were mentally re-

tarded and that this estimate was probably on the low side. This was a serious loss of potential, but public conscience was becoming increasingly aware of the urgent need for special training classes so that the many trainable retarded could be helped into becoming useful members of society, instead of remaining a helpless burden on their unfortunate parents.

Dr. Beck concluded by answering members' questions regard-
