PRINCE COUNTY ITEMS.

We glean the following interesting items from the *Summerside Progress* of Monday last:—

OUR FISHERIES.

Our trip to the Westward has given us a better idea of the extent of our fisheries in that direction. What we saw there impressed us favourably, and gave ample proof that a prosperous future is before our people, only needing for its ensurement the exercise of the most ordinary qualities of energy, faith and perseverance. These are somewhat lacking now with the people at large, but we feel that the time is coming when a very large portion of our *community will pursue fishing* exclusively, and that a large amount of our surplus cash will be invested in this enterprise as promising the largest return. And as our shore fisheries become more and more developed, foreign capital must come to share in the profits of the enterprise.

As one improvement is said to suggest others in matters of taste, so the development of one branch of our industry will help to develop others. There is no doubt in our mind, that fish can be caught and cured cheaper on our shores than in any other country in the world. There is only one drawback to the freest development of this industry, and that is the lack of transportation to market of these products. This must be remedied, and the sooner the better for all concerned.

In the western portion of our Island there are now some twelve fisheries carried on, exclusive of that carried on by formers and others residing on the sea shore. Messrs. Hall & Myrick have a fishing station at Tignish, and another at Sea Cow Pond. Geo. W. Howlan, Esq., has a fishing station at Tignish, and another one at Nail Pond. Benj. Rogers, Esq., has a fishing station on the sandhills of Cascumpec, another one at Kildare Capes, and one at Nail Pond. Messrs. Strickland & Co. have a fishery at Sea Cow Pond; Richard Dawson, Esq., one at Nail Pond; Strang Hart, Esq., one at Miminigash; Roderick Nicholson, Esq., one at Campbellton, and Chas. Compton, Esq., one at Egmont Bay.

We did not learn the number of boats employed at any of the stations, except by Mr. Howlan, which is stated elsewhere; but judging from the number which he employs in his two stations (eighteen) we should say that nigh on to one hundred boats are regularly employed in this business, and perhaps fifty boats outside (mostly owned by farmers who fish in the season, and sell their products at the fishing stations nearest to them). About the close of the fishing season we shall make an effort to give more definite statistics of this business, and the number of men employed in it.

Codfish, haddock, ling and mackerel, are we believe the principal fish taken.

The addition to the wealth of our Island by these fisheries must be some considerable number of thousands of pounds annually, and good returns are nearly always certain.

The store of Benj. Darby & Co. was broken into on Thursday night last, and several articles stolen. Our merchants will yet learn, by dear-bought experience, that it is absolutely necessary to have a night-watch in Summerside. The stores of our merchants are comparatively exposed to the attacks of burglars, a class of which scoundrels, we are sorry to say, exist in our midst. If the people will not protect one another's property, then each man must look out for himself, and the way to do this will be to keep a gun loaded, and if a fellow is caught in the act of breaking and entering, shoot him.

On Thursday night last the blacksmith shop, belonging to Mr. Robt. Southron, and occupied by Mr. Newton Lee, caught fire from cinders, and a large hole was burnt in the floor. Happily the *fire was discovered before making much* headway, and was put out without the aid of the engine. We ought to have a fire-bell; also, at least half a dozen keys to the door of the engine house.

The fishing schooner *Summerside*, Capt. McLaren, arrived here on Thursday morning last. She has not a large fare; but the catch is a fair average one for the season. She landed 145 bbls. mackerel, and on Saturday last proceeded again on her voyage.

The Antigonish *Casket*, of Thursday last, states that the potato blight has made its appearance to a fearful extent in the country during the past week. It is said that one-third of the crop is already rotten.

Horrible Affair in Montana.—The Helena (Montana) *Republican* of the 2nd inst., contains the following particulars of a *most horrible* tragedy:—

"From reliable sources we learn the following particulars of a tragedy which has taken place beyond the range, and which would be worthy the times of the *Borgias*. Some time in May last a man representing himself to be a minister of the gospel stopped at an Irishman's ranch, situated at Tobacco Plains, on the road from Pend d'Oreille Lake to the Kootenia Mines. Here the reverend gentleman remained quite a long time. Soon after he made his appearance the Irishman was missing from the locality, but as his place was in a remote portion of the country, and as mountaineers are proverbially of a rambling disposition but little notice was taken of his disappearance. In the meantime the quandom preacher preached into the shoes of his former host, became a veritable ranchero, and essayed to keep a public house, taking pains to inform all inquiring friends of the previous proprietor that he had bought out the Irishman, and that the latter had gone out to the lower country. This seemed a plausible story, and was readily believed, until one day some friends of the missing man, who had been calling at the house, and were afterwards searching for their horses, found human bones and a complete hand, upon which they distinguished freckled marks. After this horrible discovery, they demanded an explanation from their late host, and were informed that the remains in question belonged to an Indian that had been recently killed, and that he would burn them. No sooner was the conversation ended than the supposed ex-preacher commenced carrying his intention into effect, but the friends of the missing Irishman, mistrusting that all was not right, deterred him, and commenced closely questioning him. When finally driven to the wall he made such confessions as proved him to be the most guilty wretch that ever disgraced God's foot stood by his presence. He had never bought the ranch, but had forged a bill of sale from his former landlord and afterwards murdered him. Not satisfied with this, our informant tells us, he hacked to pieces and cooked the corpse of the unfortunate man, and served it up in variously prepared dishes to travellers stopping at his place. We rejoice that the villainous hypocrite has been hung."

HABITUAL CONSTIPATION.

HOW TO EFFECT A CERTAIN AND PERMANENT CURE.

Some occupations of life predispose to Costiveness, especially those which allow but little exercise Persons who contract this unfortunate habit of body, under such circumstances, might possibly be relieved by changing their sedentary employments for others of a more active kind; but this is by no means certain. Habitual constipation is a very obstinate disorder. All the ordinary so called remedies invariably aggravate it. Nothing can be more injurious than the continued use of strong aperients. They at first irritate, and finally almost paralyze the bowels—rendering them so torpid that enormous doses of cathartic medicines have no effect upon them. A mild aperient, combined with a gentle stimulant, is the true remedy; and a combination in the happiest proportion, of these ingredients, is found in HOSTETTER'S STOMACH BITTERS. This famous Stomachic invigorates the whole intestinal canal, while quietly removing from its convolutions all impediments to a free passage through them. No mere purgative has this double operation. No ordinary stimulant effect the desired object. Cases of constipation abandoned as hopeless by distinguished medical men have been cured in a few weeks by the Bitters. To those who have tried all the medicines of the dispensary in vain, we say try this irresistible stimulant and aperient. There is no sufficient reason why constipation should be the consequence of sedentary habits. HOSTETTER'S BITTERS, by supplying the vigor which would otherwise be derived from exercise, will in all cases enable the system to perform its excretary functions regularly and healthfully.

Holloway's Pills—Important for the Delicate.—It is difficult to determine which is the more trying to the human constitution—the damp, cold days of the autumn and winter, or the keen dry easterly winds of spring. Throughout the seasons good health may be maintained by occasional doses of Holloway's Pills, which purify the blood and act as wholesome stimulants to the skin, stomach, liver, bowels, and kidneys. This celebrated medicine needs but a fair trial to convince the ailing and desponding that it will restore and cheer them without pain, danger, or inconvenience. No family should be without a supply of Holloway's Pills and Ointment, as by a timely recourse to them the first erring function may be reclaimed, suffering may be spared, and life saved.

The Remarkable properties of Brown's Bronchial Troches have been thoroughly tested since first introduced. The demand for them has steadily increased, and purely upon their own merits, they have found favor with those, who, from Pulmonic, Bronchial, or Asthmatic complaints require them. For Coughs, Colds, Bronchitis, Asthma, and Influenza, they are entirely efficacious, removing all obstructions, and increasing at once the power and flexibility of the voice.

An Excellent Article. — MRS. WINSLOW'S SOOTHING SYRUP is an excellent article for all diseases of children. It relieves the child from pain, regulates the stomach and bowels, and, by giving health to the child comforts and rests the mother. During the process of teething, its value is inestimable; cures wind colic and griping in the bowels.

PROCLAMATION.

BY THE PRESIDENT.

Put them to Death,

NOTICE.

THE SUBSCRIBER begs to inform the citizens of Charlottetown, and the public generally, that he has RE-OPENED his

Tailoring Establishment

on QUEEN STREET, two doors west of T. DesBrisay's; and solicits—while gratefully acknowledging past favors—a return of that public patronage which was formerly so generously and extensively conferred upon him.

Having acquired a thoroughly correct knowledge of the Cutting Department, on a purely geometrical principle, together with many years' successful practice, he is prepared to compete, for superiority, with any of his profession in this Colony.

Having also selected Mr JOHN CHRISTIAN, whose name is proverbial for superior workmanship, as his Parnter, he guarantees the Firm of "McLEOD & CHRISTIAN" to give every satisfaction.

Orders from the country promptly attended to.

THE Subscriber begs to inform the Citizens of Charlottetown, and the Country in general, that he has opened a NEW TOBACCO FACTORY, on QUEEN STREET, in the premises lately occupied by Mr. Whitford, Painter, and situated opposite Mr. Wm. Skeeston's.

Having superintended, for the last seven years, the Manufacturing of Tobacco, in the Firm well known as LOWDEN'S, with unequalled success, he will fearlessly warrant his Tobacco as second to none in the Colonies, and would earnestly advise the public to call and judge for themselves before purchasing elsewhere.
