# OUR BOARDING HOUSE

# MAJOR HOOPLE

Continued from page 1  
**Voting In The U.S.**  
Although the 1952 election was a major personal victory for Eisenhower it was the slimmest kind of triumph for the Republicans who now have only the barest possible majority in House and Senate. A slight Democratic edge—and the party in opposition almost always gains in off-year elections—will put the Democrats in command in Congress.  
**MCCARTHY ABSENT**  
One notable feature of the campaign has been the absence of Senator Joe McCarthy of Wisconsin from the spotlight. He has appeared only briefly in the picture and has called for unity in his Republican party, some members of which he has berated readily in the past. In New York, where there is a bitter and probably close fight for the governorship, newspaper polls have given an edge to Averell Harriman, the Democratic-Liberal candidate, over Senator Edward Brooke at the Republican choice to succeed Governor Thomas Dewey, who decided not to seek re-election this year.  
for seven thousand dollars. Despite the big price tag he couldn't quite make the grade in his class yesterday in the Bailey Arena. The Roberts calf was knocked down at \$300 to Leigh Brown. He placed third in his class. He is a full brother to Mr. Roberts' Teekayde heifer that has been a consistent grand champion at Charlottetown where she beat this past summer a cow brought from Ohio by the Eaton herd to show against her. The Teekayde heifer is also a former champion at the Maritime Winter Fair. The auctioneer for the sale was Bill Cunningham of New Glasgow. He has a colorful personality and he proved to be an entertainer as well as a salesman.

# Ford Charges Illegal Picketing

WINDSOR, Ont. (CP) — Ford Company of Canada charged Monday the United Automobile Workers (CIO-CCL) are using illegal picketing methods at the Ford Oakville assembly plant. In a statement released Monday, the company said supervisors, technicians and engineers have been prevented from entering the plant by the pickets. Jack Taylor, international representative of the UAW in Oakville, said the union will not change its methods of picketing at the huge plant, where 800 employees went on strike 17 days ago. The company statement also said Mr. Taylor "intimidated the union was finding it increasingly difficult to permit continued operation of the boiler house, which provides heat and other services for the plant and offices." There was no change in the strike situation here, where 3,700 workers have been on strike for 22 days. Workers here and in Oakville are demanding wage and fringe benefit increases.

# Addressed Ministerial Ass'n At Annual Meeting In S'ide

—We are confronted with a terrific campaign against what we want our Sundays to be," said Rev. Gerald W. Guio, Maritime secretary of the Lords Day Alliance, in addressing the Prince Edward Island Ministerial Association at its annual meeting in Summerside yesterday. "If we are to be successful in our campaign," he said, "it will be necessary for us to build more attractive things into Sundays than baseball." Mr. Guio pointed out to the Association that the Lords Day Alliance Act came into being because of the need on the part of the churches to have a united front in the attempt to have Sundays observed as a day of rest and worship. "There is need," he said, "for better co-ordination between the churches and the Lords Day Alliance, for the idea has become current that the Lords Day Alliance is a separate group. The local congregations ought to be aware that they are, for all practical purposes, the Lords Day Alliance in their community." A discussion regarding the breaches of the Lords Day Act of Canada followed Mr. Guio's address. Other items of business were then dealt with by the group following which the election of officers took place. The officers for the year 1954-55 are as follows: Rev. Alexander MacKay, Summerside, president; Rev. A. E. Piercey, Milton, secretary; Rev. C. R. Moase, Hunter River, treasurer.

# S'ide Reports Quiet Hallow'een; Kinsmen Party Enjoyed By Kiddies

—An absence of any serious acts of vandalism on Hallow'een was reported last night by Summerside police. Several cases of windows being broken, either intentionally or otherwise, were reported but the authorities said that on the whole a quiet observation of the evening was enjoyed. This can be attributed in a great measure to the annual party sponsored by the Kinsmen Club of Summerside and staged this year in the Curling Rink. Here, with the genial master of ceremonies, Maurice Mill acting as host, the kiddies were treated to a program which met with their wholehearted approval and at the conclusion each child was presented with a bag of treats after which they proceeded homeward in a quiet and orderly manner. During the early part of the evening the usual parade of "goonies" called on the residents and were hospitably received and given candy or cakes in response to the usual greeting of "trick or treat". In nearly every case the children accepted the offering with thanks and proceeded on their way to the next house. There were, however, reported exceptions to this when older boys accepted the treats and then, with a dwarfed sense of humor, repaid the hospitality by throwing lighted firecrackers through the open door into the living room. Cases such as these were exceptional as most of the kiddies behaved as perfect little ladies and gentlemen. Trick or treat wasn't always the ultimatum last evening as youthful pranksters gave vent to their Hallow'een antics. In some cases it was just plain "trick" and a destructive type of trickery at that. Reports from Freetown and district indicated some damage was done, especially to doors and windows, with the R.C.M.P. being called upon to halt the destruction of the over-exuberant pranksters. —S.

# Questions And Heckling Feature Potato Meeting At Crapaud Last Night

—In a general atmosphere of disorder, the efforts of four speakers to answer questions and explain the Potato Marketing Board proposal for the establishment of a system of central selling had to be discontinued at Crapaud last night when members among an audience of some 250 persons persisted in loud heckling and interrupting and ignored the repeated pleas of chairman Frank Myers, M.L.A. for a fair hearing. Everyone who wished to come to the platform and voice opinions for or against the Marketing Board and the proposed selling agency. With several interruptions Mr. D. A. MacDonald, chairman of the Potato Marketing Board, spoke briefly at the beginning of the meeting and said he would be pleased to answer questions and elaborate on the Board's proposals. Messrs. John Dawson of Albany, Gideon McLaughlin and Harry McLaughlin of Covehead, and Isaac Stewart of Inkerman were the chief spokesmen of many who voiced opposition to the Board. Mr. Dawson wanted to know how many of the dealers were threatened to have their licenses taken from them and their doors locked for following the market price when Mr. MacDonald set the price at \$1.90 cents for the winter. He said "his judgment was awful poor and if we are going to have a man at the head of our board business with as poor judgment as he had that winter we feel that when we get a dealer price we want somebody else in there to run the show with better judgment." He charged that a lot of people are leaving the Farmer's Federation, and said "they shouldn't leave it, but because of the wandering and bungling of MacDonald" this was happening. Mr. Dawson brought up the subject of the wheat pool in the west and Mr. Emmet Gorman interrupted to say that the audience didn't want to hear about wheat "we only want to hear about P.E.I. potatoes." Mr. MacDonald rose to say he was prepared to answer any question if they could be answered. DENIES RUMORS He denied the rumor that the board had sold a large quantity of potatoes last spring in the south at too low a price and were going to use the present marketing policy to bail themselves out of the hole. "There is no foundation in fact for any such rumor. The board did not sell one bushel of this year's crop but they did try to prevent other dealers from selling your potatoes too cheap even before you grow them." Mr. Gideon McLaughlin interrupted "can you tell us anything you ever made a success of before you took over management of the Potato Board?" Mr. MacDonald defended himself on the point and invited any one out to visit his farm to see for themselves. Someone shouted "it's all right for him to have a big farm when he is getting \$9,000 a year." The chairman interrupted at this point and directed his remarks at a group who were making a great deal of noise. "You people are not from around here and we do not want to discredit the people of this section of the country," he said. When the noise and interruptions continued Mr. Emmet Gorman asked the chairman to ask the people to keep quiet or else adjourn the meeting. He said "we listened to this sort of heckling in the Forum (at Charlottetown) and we don't want to listen to it again tonight." TRIES TO EXPLAIN Mr. Richard MacPhee of New

Have a producer member of the Potato Board then took the platform and began to explain his reasons for support of the board, but he, too, was compelled to leave the platform when the noise level went further increased. Mr. Isaac Stewart spoke against the board and described some of the transactions he had had with the board which he said were unsatisfactory. In reply to Mr. Stewart, Mr. MacDonald said "on that board I do not try to do anything that would injure any dealer or any trucker, but the farmer comes first. But I do think there is a place for all working together for the good of the industry. Mr. Dawson asked Mr. MacDonald why he didn't sell some potatoes now. He asked "what are you doing sitting back? You want to cut your price below the rest of them. That's what your waiting for. Get up and get going. If the people had some guts they'd chuck you out the back door," he said. CANT TRUST SOME On a discussion of the loss by field frost in certain warehouses, Mr. MacDonald said they had learned from last year's experience that there were certain people that they could not trust. Mr. McLaughlin asked "how much more do you have to learn at our expense?" Mr. Gorman asked if Mr. McLaughlin was a producer or a dealer, and Mr. McLaughlin replied that he was neither, but he was a dealer in a way. Mr. McLaughlin then asked Mr. MacDonald how much money he was turning over each year before he came with the Marketing Board. MacDonald replied that in one way or another it would be in the vicinity of a quarter of a million dollars, to which Mr. MacDonald said his present job was quite a lot of money to handle after coming from a farm in Glenfinnan. Someone in the audience said that this year when the farmers can sell their potatoes and get their money the country looks better. Mr. MacDonald asked what would the position of the country have been last year if farmers had to take the market price offered. Interruptions prevented him from proceeding further on the subject. Mr. Gordon MacMillan of Cornwall was introduced at the start of the meeting and spoke on behalf of the Marketing Board reviewing his long experience in the potato industry and expressing his support for what the board was trying to do. Mr. MacMillan was subjected to increasing interruptions and was unable to conclude his remarks. The final speaker was Mr. Leo McIsaac who received the same general heckling and interruption and was unable to speak to the audience. The chairman commented that no progress was being made because of the prevailing disorder and adjourned the meeting. —S.
