THE DAILY EXAMINER

FEBRUARY 1, 1899.

FAVORABLE TO THE STATES.

The Toronto Globe publishes a despatch sent to the Detroit News, from Washington, conveying the opinions of "a distinguished officer of the Government" concerning the treaty about to be concluded between the United States and Great Britain as a result of the past six months work of the High Commission. According to this authority, the treaty will be divided into six sections, as follows:— (1) Pelagic sealing, favorable to the United States; (2) Mining rights, favorable to the United States; (3) Boundaries, give and take; (4) Building warships on the great lakes, favorable to the United States; (5) Reciprocity in trade, favorable to the United States, if an agreement is reached on every section except No. 5, that of reciprocity, and this will be settled as soon as the lumber question is fixed up." The source of all this information is American; and it may appear that the "distinguished officer" states as he hopes. Yet we should not be greatly surprised if his report should prove to be "about right."

WHITE MEN IN HOT PLACES.

ALFRED RUSSELL WALLACE, a noted writer, philosopher and traveller, sends a communication to the London Daily Chronicle in which he asserts that the tropics are by no means closed to a white population. Mr. Wallace holds that the tropics, as a whole, are more conducive to health than the temperate regions. He attributes his own long-continued good health, and he is now seventy-six, to twelve years' residence in the tropics when he was a young man, and threatened with lung disease. The pure, warm air restored him to a permanently sound condition. He says European soldiers in India have better health than the sedentary native classes. British soldiers in the Sudan stand up to the work; thousands of Australian gold miners endure intense heat; and Hollanders have flourished for generations in the Dutch colonies. He believes the region on each side of the equator for a thousand miles to be "the most healthy and enjoyable abode for men, where with the least labor he can obtain the greatest amount of the necessities, comforts and luxuries of life, and at the same time develop and cultivate his higher nature." But work, he adds, is necessary to health there as elsewhere. It is coming to be pretty generally recognized that the danger to white men in tropical regions is due largely to malarial conditions—to swamps, bad drainage and bad sanitation.

—The letter of Mr. Samuel A. Nicholson published to-day, gives a clearer idea of the conditions existing in the Klondike country, than any description we have read. We are greatly indebted to Principal Nicholson, of Westmount Academy, Montreal, for sending it to THE EXAMINER. It will, we are sure, be read with great interest, particularly by the people of Belfast by whom the writer is personally known.

MR. MARTIN'S REPRESENTATIONS.

When a person makes certain statements which other persons know to be untrue it will of course be inferred that other statements of his about which nothing is known are also untrue. So, when the Patriot says that the Liberal Conservative Conference recently held in Charlottetown was "marked by the smallness of its numbers" and that Mr. Alexander Martin's "lack of interest shown in his district is truly astounding," those who know that these statements are incorrect, will discredit and refuse to believe the Patriot's other statements about Mr. Martin's "ignorance of public affairs," etc. Men of good repute, residing in every quarter of the Province, know that the Liberal Conservative Conference was so large that the hall in which it was called to meet was not large enough; and everyone in the district knows that Mr. Martin has been untiring as a representative of the interests of Belfast. If Sir Louis Davies, while he represented the Belfast district, had shown a tithe of the energy displayed by Mr. Martin, it is more than likely that the people of Belfast would have had the needed railway long ago. Sir Louis sat in Parliament, as the representative of Belfast, year after year, and never said a word about the Belfast-Murray Harbor Railway; Mr. Martin has lost no opportunity of calling to the proposed railway the attention of Parliament and the public. Goaded to activity by Mr. Martin's unceasing representations, the Liberals at last made a survey, and passed an Order in Council. But, with no result! Mr. Martin may or may not have known about the minute of Council passed last February in respect to the proposed Hillsborough Bridge. But he certainly does know and the country knows that another year has passed, and nothing whatever has been done towards the construction of either railway or bridge. After all the talk, and the minutes of council, and the delegation to Ottawa nothing is being done in redemption of the pre-election pledge of Sir Louis Davies in this regard. Yet the Patriot boasts about the "fair, practical and reasonable way of providing a railway and a bridge." As a reply to this we have no doubt that Mr. Martin will say, "make your vaunting true, and it shall please me well." What's wanted now is action. Mr. Martin has brought the government to the sticking point. But they will not stick.

A PROMINENT VANCOUVERITE.

Permanently Cured of Asthma, Clarke's Kola Compound Cures.

Mr. F. J. Painton, the well-known proprietor of Painton's Music Store, Vancouver, B. C., writes: "I have been a great sufferer from asthma in its worst form for over four years, very often having had to sit up nearly all night. I had consulted physicians both in England and Canada without obtaining any permanent relief and tried many remedies with the same result. A friend who had been cured by Dr. Clarke's Kola Compound advised me to try it. And three bottles have entirely cured me. It is now nearly two years since my recovery, and asthma has not troubled me since. I feel very grateful to Dr. Clarke for introducing this wonderful remedy, suffering as I was, and do not know of a single case where the required number of bottles have been taken that it has failed to cure. See that you get Clarke's Free sample bottle sent to any person. Mention this paper. Address The Griffiths & Macpherson Co., 121 Church street, Toronto, or Vancouver, B. C., sole Canadian agents."

THOUGHTS OF FRESHNESS

--AND--

NEATNESS

In Every Garment

Thoughts of freshness and neatness of the garments are first in mind. The most exquisite lingerie that Canadian hands have conjured is here—such needlework, such design, such dreamy loveliness, as Canadian art alone can conceive. Soft, filmy Cottons are daintily flounced with choicest laces and caught into clusters of cleverly arranged tiniest plaits. The filmy grace and beauty may not be described, it may be seen.

The makers seem to have carried out fully every suggestion for betterness, both for added beauty and comfortable fit, that we had planned for.—JAS. PATON & Co.

FAIR AND SQUARE.

Excelsior is our standard and BOTTOM PIT OUR PRICE. Watch and compare advertisements; then come and compare our offerings.

Ladies' White Underwear

Annual sale of women's underwear. We believe in the old saying—the best way to keep good deeds in mind is to refresh them with others. So instead of talking for pages, as we might do on the values, we will simply bring forward bargain gems for your inspection.

JAS. PATON & Co

Thousands of beautiful garments received for the biggest sale of muslin underwear ever known in Ch'town. Gowns, Skirts, Chemises, Corset Covers and Drawers made of good cotton and cambric. All designs, shapes and every style of trimming. The sewing is flawless—compare it with home work.

JAS. PATON & Co

Women's Underwear

Ladies slumber robes

Snowy heaps of daintiest and most beautiful underwear in new and fitting styles await your choosing. It will pass a critical eye, and the tape measure test.

White Goods Sale

Cotton Dress Goods.—Just for convenience we've devoted an extra counter to the selling of the neat and inexpensive cottons. Large assortments, and selling at a rate that makes big piles melt away in a day.

White Goods Sale

COTTON GOODS.—Reversing cotton conditions. It's the every day way of selling cotton dress stuffs, to ask high prices when the goods are in demand, and to gradually drop the prices as the season progresses. If you'll read this through you will find that we have partially reversed this order by offering our low prices first. It's only a partial reversal, because the higher prices will follow later. 16, 18 and 20c cottons for 10c and 12c.

White Goods Sale

Household Linens

BED SPREADS.—Freshness for the bedroom, that is a delight for the housekeeper.
