LOCAL AND OTHER MATTERS.

JOURNALISTIC.—Our contemporary the *Herald*, is out as a Semi-Weekly.

PLAIN and Engraved Rings, any weight and quality, made to order at E. W. Taylor's. 6in

STEAM AT GEORGETOWN.—A correspondent of the *Patriot* enquires the reason why there has never been a steam Ferry Boat placed on Georgetown Ferry?

ACKNOWLEDGMENT.—We acknowledge with thanks the receipt of the "*Dominion Printer*," (for August,) published by the "Dominion Type Foundry Company," Montreal.

ACCIDENT.—In the attempt to jump from the cars, while the train was in motion, near Morell, on Thursday evening last, Mr. P. Reilly fell, and, we regret to learn, had his face considerably bruised.

POST OFFICE WANTED.—There is no Post Office at Rocky Point, and one there is much required. The nearest Post Office to that place, in Lot 65, is Nine Mile Creek P. O., eight miles distance.—*New Era*.

"THE WONDERS OF THE HEAVENS."—Mr. Campbell's lecture on this subject was very interesting. The audience was unusually attentive throughout. Mr. Campbell will, we hope, again deliver a lecture in this city.

RARE INTELLECTUAL TREATS were afforded our citizens by Benjamin Dawson, Esq., on the evenings of Monday and Wednesday last. The views he presented of Works of Nature and Art in Classic Europe were very fine.

BURGLARS EXPECTED.—The managers of City Banking Establishments have received notice that a gang of burglars have made Charlottetown a point of attack; and are, now either here, or on their way here. Look out for them.

PERSONAL.—Mr. D. T. Johnson, formerly Bookkeeper at Messrs. Carvell Brothers, has accepted the position of Chief Clerk, in the Mechanical Department of our Railway. A better qualified man for the office would be hard to find.

THE attention of intending purchasers of Watches, Clocks, Jewelry or Electro-plated Table Ware is called to the stock of goods in that line (the largest in the city) offered for sale by W. W. WELLNER, 81, North Side Queen Square, Charlottetown.—2m.

"HISTORY OF PRINCE EDWARD ISLAND."—We have been handed the first sheet of Mr. Campbell's History of this Province. It is from the press of Messrs. Bremner Bros. We need hardly say that it presents a neat attractive appearance. The matter it contains is fresh and interesting. The book will, undoubtedly, be a valuable one.

CUSTOMS RECEIPTS.—The following are the receipts at the Customs for July and August of the current, and two previous years—

	1873	1874	1875
July	$9,616.29	$13,500 39	$21,496.86
August	5,383.75	10,697.66	18,415.53

Making an increase for the two months of $15,714.34. These results are, we think, satisfactory.

THE New Presbyterian Church at Long River, New London, has been opened for Divine worship. This Church, says the *Presbyterian*, is one of the neatest we have seen, for a small Church, and reflects great credit upon our New London friends. It is finished throughout in modern style, and has a neatly raised platform and desk for the Minister, with a handsome chair and desk cushion, the gift of William Cundall, Esq., Charlottetown.

MASONIC.—The following Brethren have been elected office-bearers of 'King Solomon Lodge'—recently established—for the current year:—

W. H. Aitken, W. M.
D. H. McKinnon, S. W.
N. P. Stramberg, J. W.
S. W. Millner, S. D.
D. R. McLennan, J. D.
A. Carvell, Secretary.
L. Poole, Treasurer.
B. Boardman, I. G.

WHAT A CANADIAN THINKS OF CALIFORNIA.—The following is an extract from a letter written by Mr. James Fahey, who recently went to California for the benefit of his health.—"I would warn all Canadian typos, and all other mechanics, to stay away from this coast, at least for the present. In every department the ranks of labor are over-crowded, but in few is the crush so great as in the newspaper business. There have been several suspensions and consolidations during the last few months, and the consequence is a surplus of editors, reporters and printers, said surplus being steadily swollen by fresh arrivals from the host of deluded professors of the art preservative. Outside of San Francisco there is no press on this coast worth speaking of.

TERRIBLE ACCIDENT.—Our contemporary the *Argus* reports the death of a little girl about four years of age—daughter of Mr. James Weatherbie, of Vernon River—which occurred on the afternoon of Saturday, 29th ult., under most distressing circumstances. Mr. Weatherbie was engaged, at the time the tragic occurrence happened, near his residence cutting a field of grain with a reaping machine, and his little daughter, contrary to his express commands, persisted in being in the field with him. He sent her into the house three times, but she returned to the fatal field a fourth and last time to be borne back in a few minutes mangled and helpless in the arms of her father, with the warm blood fast flowing from the fount of life. Mr. Weatherbie, aware of the danger of allowing the little girl to remain near him while at work, at last pretended to be angry with her, threatening to flog her with a bunch of oats if he found her in the field when he came round again. He went on his round, and, upon coming back to the place near which he left his child, not seeing her, he concluded that she had returned to the house. This, unfortunately, she did not do, but hid herself in the tall grain crouching close to the ground in a furrow. Just as the horses passed her by, up she jumped to her feet, and, utterly unconscious of being in the very jaws of death, laughed her last merry laugh in her father's face. But, alas! in a moment more, or before there was time to draw a rein, or utter the word 'whoa,' she was weltering in her blood upon the platform of the machine. The feeling of the horror stricken parent, upon realizing the heart-rending spectacle that presented itself to his bewildered gaze, can be better imagined than described. One of her legs was completely severed at the ankle, and the other almost entirely cut off above the knee. Medical aid was not within easy reach. She lived for some time—until her little body was drained of the life-giving fluid—drank some water, and talked some. When becoming weakened, and her sense of feeling paralyzed from loss of blood, she innocently enquired what was the matter with her feet.

LOCAL AND OTHER MATTERS.

THE PRESBYTERY of P. E. Island will meet at Georgetown, on Wednesday, 8th inst., at 7½ o'clock, p.m. Sermon by Rev. John M. McLeod.

JUST RECEIVED at the Union House by C. O. Winkler, 840 dozen Briar & Fancy pipes, which he offers wholesale and retail, cheaper than the cheapest. Call and examine.

INTERESTING QUESTION.—Some of our citizens are deeply interested in the question, what do the water-carriers casks contain besides water? The question is worth ventilating.

THE LAND COMMISSION.—We learn that Ex-Governor Wilmot of New Brunswick, has been appointed Commissioner under the "Land Purchase Act, 1875," in place of Right Hon. H.C.E. Childers.

MR. CHILDERS, with his wife and son, left the Island this morning. He will go to Montreal, and thence to England. It is to be regretted that the Right Honorable gentleman's engagements were such that he was unable to complete the work he had in hand while here.

CAMPBELL'S HISTORIES.—Persons wishing copies of the History of Prince Edward Island, who may not have been called upon by any of the Agents, are respectfully requested to send their names and Post Office addresses to Mr. Campbell, St. Lawrence Hotel, Charlottetown.—Price per copy $1.25. Mr. Simpson, of the firm of Simpson & Brown, South Side Queen Square, Charlottetown, and Mr. Graves, Bookseller, Summerside, have copies of Campbell's History of Nova Scotia, for sale—Price per copy $2.50.

A USEFUL INVENTOR.

A correspondent writes:—Mr. Thomas Huestis, Summerside, some time since Light House Keeper at Sea Cow Head, has, since the year 1869, made the following inventions, and, strange to say, he has never been taken by the hand or effectually noticed by either our Local or Dominion Governments. It is true that once, by a party, for a short time, he was appointed Lighthouse Keeper at Sea Cow Head, but the next party 'in' removed him. While there, however, by his industrious inventions, he devised a lamp-feeder, whereby the lamp could be kept full of oil at night, and a machine to blow out the lamps from his bedside in the morning without the usual *modus operandi* for putting them out. He was the first to recommend kerosene instead of pale seal oil, and saved to the Government of the Colony £54 per annum, the saving of which for some years would amounted to £378. The following is a list of his inventions:—

1st. A valuable improvement on the old fashioned hand loom.
2d. A Metrileuse.
3d. The lamp-feeder aforesaid.
4th. Lamp extinguisher from bedside.
5th. A potato-planter.
6th. A glazing machine.
7th. Invalids bedstead.
8th. A steam oat drier.
9th. A force pump for drawing molasses.
10th. A clothes-horse.
11th. A steam propeller.
12th. An earth closet.
13th. An ash sifter.
14th. A carpet stretcher.
15th. A new churn.
16th. A measurer or stock-taker.

THE BEAR RIVER MURDER.

Robbins was found on the 30th ult., just before daylight. He was captured by three men named Samuel Leigler, Alfred Marshall, and Alonzo Harris. These men saw his fire between twelve and one o'clock, and crawled up to it, and waited within a short distance watching until day-light; he moved and then they fired at him twice; he was not hit, but in order to prevent them from firing again he laid still and groaned. They rushed on him and secured him. He offered no resistance, and was disarmed, and marched into town. A knife and a small supply of ammunition were found on him. He was marched into the village amidst tremendous cheering, and attended by a large crowd, which increased all the time until their arrival at the house of Mr. John V. Purds, J. P. The crowd were very excited, and it was with difficulty the captors could be induced to deliver him up to the authorities, and restrained from inflicting indignities on him of every possible description.

Before the Magistrate the murderer said: "I have no statement to make, but I have this to say, that I could tell the truth about it; but those boys have been put up to saying what they did. I am sorry, as my boys had been taught the nature of an oath, and have been persuaded otherwise. I admit the remainder of the evidence is correct. I have chosen death rather than life for some time; since I have suffered so long, I have felt sure that God would damn her soul in hell. I have no accomplice in any way; no one has known my whereabouts or my intention. Ervin has not harbored me. Have not seen Walter Ervin for over a month, when I saw him close to his own house, and asked him about some blueberries or something of that sort, but have not seen him to this day. There can be no positive evidence against Ervin. I did not meet Ervin the day the barns were burnt. I never saw him. The first night I stopped in the house till the morning. The second night I stayed over by Robert Miller's pasture, under an umbrella which I had with me. Think I stopped two nights in that place. From Robert Miller's I went to a cleft in the rocks on Ervin Miller's land, up in the woods to the westward. Made no cutting of wood: found ship timber there; stayed there, I think three nights; this place is now covered with brush to hide it. The nights the barns were burned I stopped in my own field, under the lee of the bushes, and then went to near Froude's. I wished to see Froude, who I heard was alarmed and he had no occasion to be. The next night I stopped on John O'Brien's land, to the southward of the house. After that I stopped two nights on Israel Dunn's land where David Harris had some cordwood, I stopped there two nights. The night before that and last night I stopped where they found me. Ervin knows nothing about me, and any thing he has said has been extorted from him. During my wife's funeral I was at the back of my own house."

CORRESPONDENCE.

To the Editor of the Examiner.

SIR,—I know you will have no objection to give me space to correct some errors into which you have fallen in your article of the 23rd of August, relative to "Civic Affairs." While desirous of avoiding anything that would lead to a discussion on the *political* aspect of Civic matters, it is, nevertheless, my special duty to correct the errors referred to.

Instead of saying that the amount collected last year—*i.e* of City Assessement—was $7654.57 you should have made it $11,482, for I will assume that you did not know that the item of $3827.43, set apart especially for macadamizing, formed a part of the assessment of the year also. It is customary for the Collector to deposit with the Treasurer the proper proportion of his collections as a macadamizing fund, the other, or larger portion, being set apart for general purposes. Last year the amount of $3827.43, as already stated, was the proportion of the macadamizing fund collected up to the 21st of December; but as a large portion of the work under the heading of 'Streets and Squares' is inseparable from the macadamizing proper, it happens that the sum of $5,186 were expended on the public streets, and, including the material laid on sidewalks, the sum of $6,597.77 (nearly one-third the whole revenue) has been expended within the City for the year 1874. It may possibly be objected that you have not had an equivalent for this expenditure, but I believe your own experience will tell you that very few masters are satisfied with the "equivalent" they receive for the wages they pay, and there is hardly a doubt that you will admit that the public is a hard task-master.

Your reference to the estimated revenue for 1875 is sufficiently correct (in round numbers), but for 1874 perhaps it will be as well to give you the actual figures.

The levied assessment was		$13,647
Collected to Dec. 31, 1874	$11,482	
" " June 1,1875,of bal.	1,614	
Uncollected of 1874	551	
	$13,647	$13,647

There are about 170 poor persons in the city unable to pay taxes, and with sundry losses, viz., by persons leaving the city, and reductions by appeal, etc., there will be at least $500 lost or uncollected each year.

I claim the right to take exception to two other statements in your article. The one is "our city business has been in every department most disgracefully mismanaged." For refutation I can say that, in so far as I know, this statement is far from being correct, a fact which I think you will readily admit if you examine last year's published accounts a little more critically. Excepting the expenditure on public works, Fire and Police departments, it must strike you that the other items of expenditure are very small indeed, and perhaps you will further admit, economical, considering the revenue.

The second statement I beg to direct your attention to, is where you say that "any Corporation that was not sunk in the depths of indolent usolessness would not allow one half of its assessments to be unpaid." This very closely applies to myself as Collector, but as I am not disposed to be too precise in the matter at present, and hoping the explanation I have given above will be satisfactory, I will for the present abstain from further complaint.

Respectfully your obt. servant,
JAMES J. O'REILLY
September 6, 1875. City Collector.

MEMORANDA.

By Cable.—The ship *James Duncan* arrived at Liverpool on Monday, the 30th ult., 17 days from this port.

By Cable to Peake Bros. & Co.—S. S. *Prince Edward* with cargo of general merchandize sailed from Liverpool for Charlottetown, on the 2nd instant.

By Cable to Peak Bros., & Co., Brig *Xenia*, arrived at London.

MUTINY.—As the brig *Empress*, belonging to James Duncan & Co., was being towed out of the harbor by the tug *Henry Aitken* on Tuesday morning last, four of the crew, John McSaily, Jeremiah Hayes, Edward Kelly and William Holland set upon the captain and mate, both named Michael Malone, and beat them so badly that they had to take refuge in the tug, in which they were conveyed back to the city. When the sailors found that the captain and mate had gone ashore they broke into the cabin, took what eatables they could lay their hands on, and left the vessel in their boat. It is said that the sailors were all more or less intoxicated when the affray occurred. The cook and pilot were on board at the time but they took no part in the mutiny.—*Patriot*.

August 27th.—Arrived brig. *Bittern*, Yates master, 24 days from Barbadoes and Trinidad, with cargo of molasses and sugar to Haszard Bros. Capt. Yates reports:—Left Trinidad, Monday, August 3rd, had light and favorable winds to the Banks; on Thursday the 19th inst., encountered a heavy gale from the S. E. to E., and at 4 a. m. split foresail, lower topsail and fore topmast staysail; at 5 a. m. hove to under storm mainsail and main staysail; at 6 a. m. flying jib worked loose, sent James McArthell, (2nd mate,) and William Williams, (A. B.,) to make it fast. Ship making good weather, and shipping no water; suddenly a heavy sea struck her forward and carried away jibboom and the men. When the men came to the surface, they were a sea to the windward of the ship. We tried all possible means to save them, but vessel was making too fast adrift, and as the men were heavily clothed with oilskins they could swim but a short distance and sank in a few minutes, a very heavy sea running at the time. The men lost were James McArthell, (2nd mate,) aged 26 years, a native of Glasgow, Scotland, but hailing from Ardrossan; left no letters or papers to show the address of his people. Had been sailing out of Halifax, N. S., for the last 7 or 8 years. William Williams (A. B.,) aged 23 years, a native of Swansea, Wales, left no papers or letters; ship in which he last served brigt. *Fleetwood* of P. E. Island.

REGULAR TRADERS.

FALL 1875.

The celebrated A 1 extreme Clipper Ship
"JAMES DUNCAN,"
Lawrence Kickham, Commander,
756 tons Register, classed 8 years at English Lloyd's, and coppered, will sail from this port for Liverpool
On the 11th instant.
AND RETURNING
Will leave Liverpool about the 10th of September.

This favorite ship has proved herself to be one of the fastest vessels afloat, and offers unsurpassed inducements to shippers, her cargoes having been invariably delivered in good order.

Also, the fine new Clipper Barque
"MINERVA,"
Philip Mercier, Commander,
392 tons Register, classed for 8 years at English Lloyd's and coppered, now at London, will be despatched thence direct for this Port about the
1st September next.

Both these vessels will take Goods for Pictou, Shediac Georgetown and Summerside, at through rates, and as they will sail early, shippers will please have their Goods alongside without delay.

For Freight or passage, (having superior accommodation) apply in Liverpool to SIR JAMES MALCOLM, Bart., 69 South John Street, and in London to Messrs. TAYLOR, BETHEL, & ROBERTS, 112 Fenchurch Street, or here to the owners,

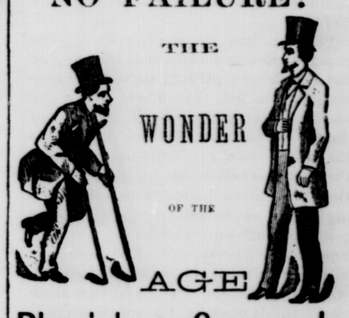
NO FAILURE!



Physicians Cornered.

PROBABLY there are few circumstances under which a physician labors with more real sympathy for his patient than when called upon to administer relief to an acute sufferer with Chronic Rheumatism.

Rheumatism is a disease of the blood, and no substantial relief can be obtained without cleaning the blood from the fibrim substances which obstruct the circulation, causing inflammation and pain.

The greatest success of the DIAMOND RHEUMATIC CURE in curing this disease is owing to its power of converting the blood from its diseased condition to a healthy circulation. It also regulates the bowels, which is very essential in this complaint, and no one will read the following statement, from a well-known Dartmouth gentleman, with more interest and pleasure than those physicians who have a real desire to benefit their suffering patients:

DARTMOUTH, Sept. 14, 1874.

FORSYTH & Co.,
Gentlemen:—For the two past years I have been severely troubled with Rheumatism. I have suffered the most acute pain, and at times I have been rendered perfectly helpless—being unable to walk, sleep or even sit up. I have tried many physicians and used numerous patent medicines, but I still continued to grow worse. It is now about four days since I commenced taking the DIAMOND RHEUMATIC CURE, and the pain has all left me, and the use of my limbs is rapidly returning. I bless the day that the Diamond Rheumatic Cure was called to my attention.

Gratefully yours,
WM. BRODIE

FURTHER PROOF.
HALIFAX, Sept, 19, 1874.

FORSYTH & Co.,
Gentlemen:—I wish to make known to all sufferers from Rheumatism in Halifax, that I, the undersigned, suffered the most terrible pains possible to imagine, for two years past. I have tried several physicians in this city, and paid them most of my means for prescriptions, but all of no avail. I have now taken the DIAMOND RHEUMATIC CURE for a week past, and I can truthfully say that it has done me more good than anything I have ever taken. I cordially recommend it to all afflicted humanity.

Truly yours,
ADAM HANNIGAN,
Lower Water Street.

The proprietor of this has walked the aisles of the hospitals of London, Eng., for the past twenty years, making Rheumatism a speciality and the prescriptions from which the remedy is compounded is all he ever used in the treatment of this disease.

In simple cases sometimes one or two does suffice. In the most chronic cases it is sure to give way by the use of three or four bottles. By this efficient and simple remedy hundreds of dollars are saved by those who can least afford to throw it away, as surely it is by the purchase of useless prescriptions.

This medicine is prepared by a careful experienced and conscientious physician, in obedience to the desire of numberless friends in the profession in the trade and among the people. Every bottle is warranted to contain the full strength of the Medicine in its highest state of purity and development and is superior to any medicine ever compounded for this terrible complaint.

It is for sale at all Druggists throughout Canada. If it happens that your Druggist has not got it in stock, ask him to send for it to,

W. R. WATSON,
CHARLOTTETOWN,
Agent for Prince Edward Island.
