MANCHESTER TO WITHDRAW.—The Manchester fire assurance company, of England, capital $10,000,000, has decided to withdraw from Nova Scotia and P. E. Island after the 1st. September. The Manchester has lost considerable through the province and the Island; and the withdrawal is said to be dictated by the dread that prevails among English underwriters of the "conflagration hazard," of which several of the colonies have furnished notable illustrations.—Halifax Herald.

A DASTARDLY ACT.—Last night, shortly after the express for Souris passed Five Houses, some person or persons broke the lock of the switch at Five House, threw the points for the siding and let an empty box car standing thereon on to the main track. The car ran down the grade on the main track to within a short distance of St. Peter's Station, where it was found this morning by the sectionman. It is hoped that the railway authorities will be able to locate the guilty ones, and have them punished as they deserve. Had there been a train moving in that vicinity after the box car was placed on the main line there is no knowing the extent of the damage to life and property that might have been the result.

THE FASTNET-HILLSBOROUGH COLLISION.—The May Queen, Captain Paoli, went out to the scene of the Fastnet Hillsborough collision on Tuesday night to render all assistance possible in the event of assitance being required. The Captain and engineer of the May Queen were on board at the time, and the former heard the noise made by the steamers coming together. He lost no time in arousing the engineer, and when the police came down after calling upon the Messrs Batt at their house, there was steam up on the Queen and she was about ready to proceed to the scene. The Hillsborough, however passed up before the May Queen got out. Captain Paoli mistook her for the Jacques Cartier, and thinking that the boat struck was the Elfin he hurried out to the scene with all speed and made every search for her. The May Queen was the only steamer that went out.

THE WORLD OF SPORT.

The Wheel.

A surveyor is measuring the track this afternoon, in accordance with the C. W. A. rules.

Some of the Summerside flyers will probably arrive by the Northumberland this evening.

There will be two prizes for the slow race. A foot pump has been donated by Mr. E. R. Brow as second prize.

Mr. Quirk is hard at work preparing to cater to the big crowd on Labor Day at city prices. He will fulfil his part of the programme.

Lorne Unsworth has received permission to compete in the races on Labor Day. He is entered in all the races, and will positively start.

The medals for the Labor Day sports will be on exhibition in the show window of Johnson & Johnson's Queen street Drug Store to night. They are worth seeing.

Harley Davidson will try to break the maritime mile record, flying start, now held by Nat Butler, on the association grounds at Windsor, on Monday next.

Buy your tickets this afternoon or Monday morning for the bicycle races from the Committee, or at Reddin's Drugstore, and save the rush at the gate and grand stand.

Wheelmen are requested to be at the C. A. C. C. rooms, opposite the Queen Hotel, at 11.30, sharp, on Monday morning. Every wheelman in the city is invited to take part in the parade.

M. S. Brown & Co., Halifax, have offered a special prize, to be competed for at the Wanderer's sports, for the best record breaking achievement, by a maritime province man, in any bicycle event.

The gold medals won by our young flyer, Mr. Lorne Unsworth, in the half and five mile Bicycle Races at the Scottish Gathering, are on exhibition in the show window of Johnson & Johnson's up-town Drug Store. They will be taken away on Monday morning, so those wishing to see them had better call up to-night.

Harley Davidson rode a mile on the Wanderers track, Halifax, on Thursday evening, in 2.06 4-5. This, of course will not be officially received as a record, as the time was not made at regular sports, or in competition. The official world's record for one mile on a four lap unbanked track, is 2.08½, made by Nat Butler a week ago at the Rambler's sports.

The committee of management, at their last meeting, decided to leave the entries for the bicycle races open until last evening. Their doing so has met with good results, as the following entries have been made from Summerside: A. D. Caldwell, Creel McArthur, A. C. Saunders and H. H. Grady. They have entered in the following events: one mile novice, quarter mile champion, half mile champion, one mile, two mile, three mile and five mile championship races, and also in the handicap and in the Morgan & Wright races.

"It's wonderful how the ladies hum along on those bicycles," remarked Alderman Blizzard, to a representative of the St. John Telegraph as he walked down through King square, and watched a well-known young lady spin down Sydney street on her wheel. "Why, I don't know how far we would have walked 45 years ago to see such a sight," continued the alderman. "I remember distinctly going with others to Lily lake to see a young lady skate. Her name was Miss Lyons and she hailed from Kingston, Kent county. "Oh, yes; she created quite a sensation," said the alderman laughing. "You can imagine what a sensation a lady on a bicycle would have caused in those days."

The Turf.

Hamlet easily won the 2.45 race at Calais, Me., on Thursday. He did the trick in straight heats.

The managers of the O'Leary trotting Park are endeavoring to arrange another race meeting at that place about the last of September.

At Cornish, Me., recently Salando, b g, by Hernando, 2891, won the 2.27 class, in which there were six starters, in 2.28¾, 2.31¼, 2.33½, the first heat being won by Ned Allan, 2.31½.

There will be races at Moosepath, St. John on Monday next. The programme will include a free-for-all, a 2.45 class and a 2.30 class. There are two trotters and three pacers entered for the free-for-all with records as follows: Arclight, 2.19½; Hamlet, 2.24½; Katrina, 2.24½; Clayson 2.26 Sir William, 2.26.

Advices from Lexington, Ky., state that an agent of the German government has bought of Mike Bowerman the great mare Martha Wilkes, 2.08, twelve years old, by Alcyon, dam Ella, by Clark Chief. He is also negotiating for the purchase of a number of other brood mares in foal to Red Wilkes and other leading sires. The Kentucky trotting horse market is improving owing to the many inquiries from abroad.

Baseball.

SIR,—In your issue of the 21st inst. there appeared a peculiar specimen of jingoism entitled "A Correction," and purporting to be signed by one of the Charlottetown Baseball Team in which "Scribo's" notes of the 17th inst. anent baseball are said to have been false.

Your city correspondent admits they were challenged, but says that, instead of declining to accept, as stated, they did accept the challenge, that they claimed the right to name the ground; that Charlottetown as the place of meeting; and finally that we backed out of the contest.

These assertions which he calls facts we are in justice to ourselves compelled to brand as falsehoods, and shall prove them so from the reply of their own Secretary to our challenge, which reply reads as follows: "We are sorry we cannot go to meet you at Mount Stewart on the 10th, but if your team could come to Charlottetown on the 17th we will try and give you as good a game as possible. We have not had any practice since we played the Tracadie team." It certainly requires quite a stretch of the imagination to interpret this as claiming a right to name the ground, or as accepting our challenge. No such right was claimed, because their Secretary well knew they had not the right, but that instead, that privilege rested with us, as the Home Team in the case. Had they taken the initiative and issued a challenge to us it would have been otherwise. Neither had we any assurance that if went to Charlottetown our opponent would meet us there. The "Secretary" says: "We will try, etc.," "we are not in practice," in other words: "Stay at home Pisquid we are not prepared to meet you at present."

One of the team speaks of the "grand laurals of the day at Mount Stewart" and says farther they would like to meet a stronger team than Pisquid can send forth. We would ask are they frightened to risk those "laurels" on a fair field against the Pisquid "Boys"; or why did they not challenge us as we fully expected they would from earlier correspondence between the teams?

Now we wish to say that we do not believe the writer of "A Correction" to be one of the Charlottetown team at all, at least, not one of those who behaved so gentlemanly at Mt. Stewart. Such expressions as, "who has the right to squeal," and "come on McDuff" savor more of the street-corner than the Base Ball field and are quite in accordance with the impudent assertion that the greater part of "Scribo's" account was absolutely false.

Should the Charlottetown team really desire to take up our challenge at any future time we would be most happy to arrange a convenient date; but we will take no further notice whatever of any other anonymous scribbler who may choose to air his opinion of this matter in your columns.

Yours etc.,
B. B. MCLEAN.
