Common Council Proceedings.

At a meeting of the Common Council, 17th March, 1869,

PRESENT:

His Worship the Mayor, His Honor the Recorder
Councillors Morris, Mutch,
Beer, McNeill,
Laird, Allin,
Butcher, Hooper.

Police Court Sentences with hard Labour.—Grant in aid of the Fire Department. Grant for macadamizing the Roads leading into the City, &c. Necessity for the establishment of a Poor and Work House.

His Worship caused to be read the drafts of several communications intended to be addressed to the Executive Government, concerning certain matters therein mentioned.

On motion, Ordered that said communications be engrossed and afterwards transmitted to the Executive in the usual manner: to wit,

One respecting the necessity of better provision for carrying out sentences in the Police Court, of which hard labor is made a part.

One for a grant in aid of the Fire Department.

Another for a Grant for macadamizing the Roads leading into the city and repairing Black Sam's Bridge.

And a fourth, setting forth the necessity for the establishment of a Poor and Work House.

NEW WATER TANK.

Upon motion.—Ordered that instructions be given to Thomas Alley, Esq., Chief Engineer, to cause a Water Tank to be built near Pope's Wharf, Great George Street, at the opening of the Spring, to be composed of sound Hemlock three inch Plank.

TANK NEAR ST. PAUL'S CHURCH.

Ordered, That directions be given to the City Surveyor to cause the Tank near St. Paul's Church to be filled with clay as soon as the season will permit.

CITY WHARFS.

Ordered, That Queen Street Wharf and Pownal Street Wharf be retained under the management of the Wharf Committee for the ensuing year;

And that Joseph J. Pippy be appointed Wharfinger of both Wharfs, and be entitled to receive a commission of Fifteen per centum on the receipts for his services for the season.

CITY ACCOUNTS.

Read a Communication from the Auditor's appointed to audit the City Accounts for the past year.

Ordered, That the Treasurer's Accounts with the City, when signed by the Auditors, be published according to law.

BOXING THE WATER TANKS.

The Chief Engineer of the Fire Department being present, he was requested to state his opinion respecting the propriety or necessity of Boxing the openings of the Water Tanks; and that gentleman having expressed his opinion accordingly it was ordered that the matter be left wholly at the discretion of the Chief Engineer, to be done or left undone as he might see fit to determine.

Quarterly Meeting of the Council.

Saturday Evening, 3rd April, 1869.

PRESENT:

His Worship the Mayor, His Honor the Recorder
Councillors Morris, Mutch,
Reddin, Butcher,
Beer, Hooper,
Pollard, Laird.

Rates and Assessments for the current year.

William Shepherd, Collector, having reported the service of notices for the payment of Rates and Assessments for the current year, it was

Ordered That Wednesday, the 21st of April, instant, and the following day, be appointed for the Council to hear and determine Appeals from the Rates and Assessments levied under the Bylaws of the 4th February last, and that notice thereof be duly served on the respective appellants.

Councillor Pollard having suggested that it would greatly facilitate and expedite the hearing of the appeals, if an alphabetical list of the appellants were made out for each of the five Wards and so laid before the Council that the appeals from each Ward might be separately taken up and disposed of, before taking up those of another Ward, and the propriety of the suggestion having been admitted by the whole Council it was ordered accordingly.

Fish Market.

Read a communication from Wm. McGill, Esq., of the 1st April, instant, stating that from and after the first day of May next, he will require the sum of one pound per month rent for the land used as a Fish Market whilst occupied as such—possession to be given up on one months notice. The offer was deemed a very liberal one, and it was, therefore,

Ordered, that the terms offered by Mr. McGill be agreed to and noted accordingly.

HILLSBOROUGH SQUARE.

Read a letter from Benjamin Rogers, Esq., on behalf of a committee of gentlemen having charge of the ornamental grounds of Hillsborough Square, requesting a grant of money for the effecting of some certain repairs and improvements considered necessary for the ensuing season; and the application having been very favourably considered, on motion of Councillor Reddin, seconded by Councillor Pollard, it was

Ordered, that the City Surveyor be directed to cause the fence around Hillsborough Square and the gates thereof to be properly repaired forthwith.

ROCHFORD SQUARE.

His Worship stated, that it had been verbally represented to him by Mr. Douse that the resident householders around Rochford Square intend to enclose the same; and that gentleman had, at the same time, expressed a hope, on the part of himself and others having an immediate interest in the matter, that the Council would make them a grant in aid of the projected improvements similar to that which had been made by them towards the improvements severally made on King's and Hillsborough Squares. Assured of a grant of £10, Mr. Douse had said, the parties immediately concerned were prepared to undertake the accomplishment of the contemplated improvements forthwith. The project was one, to witness the accomplishment of which would afford him (His Worship) much pleasure; and, not doubting that all such projects or attempts for improving and ornamenting the squares of the City were contemplated with much satisfaction by the whole Council, he hoped some member thereof would make a motion for a grant in aid of that question. The desirableness of the said projected improvements was readily admitted by the whole Council, but still the general opinion appeared to be that a motion for a grant in aid of it before a written and formal application had been made to the Board for such a grant, would be premature; and therefore, the matter was allowed to drop.

Lighting the Streets.

The Board having taken into consideration that the Contract for lighting the Streets with Gas will expire on the 1st day of June next, it was

Ordered, that a Committee, to consist of three members of the Board, be appointed to ascertain the terms on which the Gas Light Company, is willing to enter into a fresh contract with the City for lighting the Street Lamps with Gas light, for a term of years, from the 1st June next; and that the said Committee be composed of Councillors Reddin, Pollard and Morris.

The City Supply of Pure Water Question.

The following Letter, received by His Honor the Recorder, in answer to one addressed by him, at the request of His Worship the Mayor, to Mr. Woodward, of Fredericton, New Brunswick, and requesting the favor of any information which he (Mr. Woodward) could afford concerning the operation of boring for water, was, at His Worship's request, read to the Board.

"The water raised by boring or rather driving a pipe, has been done by several persons in the country near the city, in sand and loam, and have obtained water at different depths, say from 10 to 20 feet. In Fredericton they have sunk a great many, without any failure — the soil is all sand. The pipe is about 1½ inches in diameter, costs $½ per foot, and a pump $1½.

"The person lives above Fredericton who has a patent for the invention, who goes round the country when he has orders. I will send your queries to him, and he will, of course, give all the information.

"Yours truly,

"J. WOODWARD."

J. LAWSON, Esqr.

March 22nd, 1869."

Monthly Appropriation for the payment of Small Accounts.

On motion of Councillor Beer,

Ordered, that the sum of Twenty pounds (£20) be placed in the hands of the City Clerk, each month, to be disbursed in payment of small accounts, and that a return of such disbursement be made at every subsequent monthly meeting of the Board.

Attendance of the Treasurer on City Business at his own private office, twice a week.

On motion of Councillor Laird,

Ordered, that the Treasurer be respectfully requested to make it convenient to be present in his own private office, on Tuesdays and Fridays, in each week, between the hours of eleven and one, to transact City business.

City Accounts.

On motion of Councillor Laird,

Ordered, that a Special Committee be appointed on the subject of the Accounts and other matters connected therewith, with power, should it be considered necessary, to engage the services of an experienced and proper accountant. Councillors Laird, Reddin, and Morris, were then appointed a Special Committee accordingly.

Accounts passed and ordered to be paid

ON DIT.—That "Rufus" was so delighted with Tonalt's cartoon upon the Leader and other members of the Government, under which he holds office, that he immediately ordered a dozen photographs for general distribution; that he was exhibiting it for the merriment of his pupils in the Normal School, thereby bringing Mr. Hensley into contempt; that Rufus might safely be dismissed from office without loss to the party which he seeks to ridicule and destroy, and without detriment to the cause of education; that he is a humbug, and a treacherous customer to boot and that he will soon be played out. Few tears will be shed for him.

☞ IN to-day's issue we finish the Story entitled the "Smuggler of St. Jean." In a week or two—after we get through some matter now on our hands—we shall commence another very interesting Story. Now is the time to subscribe for the EXAMINER. As we do not issue more papers than will suffice for our subscribers, it will be impossible to get back numbers.

The following gentlemen have been appointed Sheriffs for the current year:—

Queen's County—William McGill, Esq.
Prince County—William Hunt, Esq.
King's County—William S. McGowan, Esq.

Mr. Brown, Agent for Messrs. Colford Bros. Halifax, has arrived in this City. He represents one of the largest Tobacco and Cigar Establishments in the Dominion, being a branch of the business carried on by the firm in the United States and Havana. Mr Brown will call upon our merchants to receive their orders for the above articles, and as none but the genuine are kept in stock, we feel confident that any business transacted with Messrs Colford Bros. will prove satisfactory. We beg to refer again to advertisement in another column.

Next week we will attend to "Alex. McRae," Master of the Summerside Grammar School.

THE Government, it is said, have entered into arrangements with the Steam Navigation Company to run the *Princess of Wales* to Georgetown, Souris and Pictou and the *Heather Belle* to Mount Stewart, Crapaud and Orwell Bay.

Y. M. C. A. Literary Class.

On Wednesday evening last, the question, "Has this Island been benefited by the agitation of the Land Question?" was discussed. After a prolonged and animated debate, the question was decided in the affirmative. Subject for discussion on Wednesday evening next. "Whether is a Limited Monarchy or a Republic the best form of Government?" Debate to commence at 8 o'clock. A punctual attendance requested.

W. LAWSON COTTON, Sec'y, pro tem.

Holloway's Ointment and Pills.—In all sores, wounds, bad legs, and sprains of any kind this Ointment is the most efficient application. It at once gives ease by allaying inflammation and moderating the flow of blood to the part. Whenever the malady has been of long standing the Ointment should be assisted by Holloway's purifying Pills, which act upon the stomach and liver, guarding digestion from falling into that disordered state which the pain, restlessness and fever attending these ailments is apt to produce, and which much retards recovery, and sometimes even makes serious the slightest case. No mother or nurse should be without these noble remedies; they are equally applicable to all ages and constitutions. They purify the blood, regulate its circulation, renew diseased structures, and invigorate the system.

We have seldom seen a finer display of ladies Dress Materials than that exhibited by our friend Robert Young. They consist of an almost endless variety of fancy Dresses, from 10½ per yard upwards, Coburgs, in almost every shade and quality, Winseys, good and heavy, from 11d per yard, French Merinoes, in all the leading colors, very cheap, Prints from 8d per yard very good, and nice Ginghams from 9d. Ladies would do well to take a note of this.
