### City Council.

The regular monthly meeting of the City Council was held last evening, Mayor Haviland presiding. There was a full attendance of members.

After the transaction of routine business, His Worship read a letter from Alexander McKinnon, Esq., presenting the City with the fountain on Market Square. Mr. McKinnon was voted the thanks of the Board. A letter from W. W. Clarke, requesting that the dock at Queen's Wharf be dredged, and setting forth the advantages to be derived from such a proceeding, was next read by the Mayor. The matter was discussed at some length, and a committee of three was appointed to take matter into consideration, with power to have the east side of the dock dredged if considered advisable in the interests of the city.

His Worship called the attention of the Board to the great necessity of providing some more suitable quarters for the city horses.

Councillor Morris said it was contemplated to have the old Engine House on King Square moved and fitted up for stables.

Councillor Horn thought it would be better and cheaper to build new stables. The Engine House was wanted for storing carts, etc.

A committee of three was appointed to consider the advisability of moving the Engine Room building or erecting new stables.

Mayor Haviland called attention to the state of some of the street crossings, particularly after a rainfall, and suggested that the Surveyor have some of his men scrape or sweep them off.

His Worship also called attention to the dust nuisance, and asked if it was not possible for the Board and the Water Commissioners to make some arrangement for the using of the hydrants for watering the streets.

The throwing out of this idea gave rise to a good deal of discussion. Some of the Councillors intimated that the hydrants were not, in some respects, what it was intended to get and that the Commissioners were, therefore, afraid to allow them to be used more than was absolutely necessary.

Others told what they knew about the watering of the streets in other places, and suggested that similar arrangements be made here. But no action was taken.

Tenders were ordered to be called for the collecting of market tolls.

After some further discussion on the subject of streets and sidewalks the council adjourned.

### In the Interests of Fishermen.

OTTAWA, July 7.—Hon. Mr. Tupper has for some time given special consideration to the subject of improving the present modes of packing, curing and preparing for market the produce of Canadian herring fisheries so as to compete more successfully with similar products of other countries in the foreign market. With this in view he has recommended to the Government the appointment of two experts who shall at once proceed to visit the principal fishing centres in Scotland, Holland and other countries in order to obtain such information as required to place our fishermen in possession of the latest appliances and modes of catching, curing and packing the products of our herring fisheries, which, though naturally superior to those of any other country, are unfortunately at present unable to compete in the markets with products of countries where the fishermen possess superior appliances and improved methods. The experts appointed are M. G. McLeod of New Haven, Victoria County, Nova Scotia, and Wm. Gunn of Walkerton, Ont. The latter is said to have already made considerable examination of the subject, both in Canada and elsewhere. It is expected that on their return these experts will, in addition to making a full report to the government, visit the principal Canadian fishing stations and by means of public meetings impart the information which they have gained direct to those interested. The fishermen will by this method be enabled to obtain by personal queries more full and practical details than could possibly be given in a formal report.

### A Wonderful Flesh Producer.

This is the title given to Scott's Emulsion of Cod Liver Oil by many thousands who have taken it. It not only gives flesh and strength by virtue of its own nutritious properties, but creates an appetite for food. Use it, and try your weight. Scott's Emulsion is perfectly palatable. Sold by all druggists at 50c. and \$1.00.

### Services at Souris.

The sacrament of the Lord's Supper was administered at Bay Fortune church on Sunday last, the Rev. Mr. Mahon assisting the pastor at the services. In the evening the former preached in Souris, choosing for his text the 17th chapter of Matthew, 4th verse. At the close the Rev. Mr. Cameron made a few remarks with reference to the new bell that had been heard ringing in the tower of the church for the first time that evening. While thanking the several donors, especially the ladies who solicited subscriptions, he said that he considered it his duty to mention one name in particular—it was that of J. F. Campion, Esq., ex-M. L. C., formerly of Souris, and now of Leadville, Colorado, who had generously forwarded \$25 towards paying for the bell, accompanying his donation with a letter saying that he hoped "when the bell is placed in position, its silvery notes, ringing out upon the sea-born air of my native town, may be the means of bringing many of the children of men to a knowledge of Him whose right it is to reign."

### Orange Tea.

The King's County Loyal Orange Tea will be held at Glen William, Friday next. It is declared a general holiday for that section of the country, everybody is going, and a real good time they will have!

### The Clan-na-Gael Again.

PROMINENT POSITION OF DR. McINERNEY—TWO MILLION DOLLARS SAID TO BE MISSING—CLAN-NA-GAEL MEN GREATLY EXCITED.

A recent despatch from New York says: Every day brings its own disclosures. It has come out that when the Clan-na-Gael "Triangle" was in full power, and the dynamite operations in England were frequent, Dr. J. McInerney and J. J. Maroney were entrusted with carrying them out. The "Triangle"—Sullivan, Boland and Feeley—was the Supreme Executive to decide the work to be done. McInerney was despatched to the scene of the proposed outrage, and, being an engineer as well as a chemist, he took plans of the premises of the structure, sized up how the work was to be done, and decided upon the amount of explosives it would be necessary to use. Maroney had charge of the financial end of the business, and as soon as the actual perpetrators had received their instructions from McInerney, Maroney equipped them and supplied them with money for their journey. When the bills for these expeditions began to come in, McInerney opened his eyes at the amounts asked for. This was in 1883 or 1884, and was the keynote of the fight afterwards taken up and waged by Cronin, McCahey and others.

It was said to-day by some of McInerney's friends that fully \$2,000,000 had passed into the hands of the Sullivan faction. The Clan-na-Gael has been in existence for twenty years, and the contributions were hoarded until Sullivan, by reason of his acquired power, called for 25 per cent. This was followed by a demand for 50 per cent., and a third call absorbed the remainder. When vouchers were called for concerning the expenditure of this money, Sullivan freely announced that all vouchers had been destroyed because they would implicate prominent men in English and Irish politics. The anti-Sullivanites here now believe these vouchers never existed, and the knowledge possessed by McInerney concerning the disposition of these funds made him a mark for hatred.

The Limerick men in the Clan-na-Gael camps in the city and in Brooklyn, are greatly excited and loud in their threats against leaders of the inner circle. Several of them want to start to-day for Chicago to shoot those they suspect of complicity in McInerney's murder. It took the persuasive power of two leaders to calm them.

### Telegraphic Odds and Ends.

COLOGNE, July 6.—Through the blunder of a switchman the Frankfurt express, while going at a high rate of speed, ran into an open switch near Roehmoos to-day, and dashed into an empty train standing on a side track. Eight persons were instantly killed and 11 others injured.

LONDON, July 7.—The freedom of Cardiff was presented to Gladstone on Saturday. In an address he complimented America.

DULUTH, Minn., July 7.—A collision between street employes on strike and the police occurred Saturday afternoon. A pitched battle with rifles and revolvers ensued for over an hour. Two strikers were killed, and at least 35 wounded on both sides. The militia were called out. After the Riot Act was read by the mayor, the crowd dispersed at the point of the bayonet. Five strikers were arrested as ringleaders.

DULUTH, Minn., July 7.—Later—There is little fear of further trouble. Contractors will resume work to-morrow morning under police protection at former rate of wages. It is thought 25 are wounded; not positively known that more than one is dead. The sheriff swore in 30 extra deputies to-night.

WINDSOR, Ont., July 6.—James T. Sloan, of Mersea, about three weeks ago sent to a leading drug store for salts, but was given saltpetre instead, and took a tablespoonful. For two weeks his sufferings were intense, and finally ended in his death on Thursday.

ST. LOUIS, Mo., July 6.—Charles Eggers, a wealthy brewer, committed suicide last night by hanging. Domestic troubles are said to be the cause. Eggers left his wife, saying, "In order that all recollection of me may be wiped out, have my body cremated, and scatter the ashes to the winds."

### Boston Markets.

BOSTON, July 5.

POTATOES.—Receipts of new potatoes have been large for the past week by both steamer and rail. Prices dropped on Monday to \$2.50 for the best Norfolk stock, and since then have ruled heavy with a good fair demand. This morning the market is irregular on account of the bad condition of the stock arriving. The arrivals by rail are in better condition, but some are more or less affected. Choice sound stock is in very good demand at \$2.50 and \$2.75, and some extra marks are bringing \$3.00. Poor stock has to be sold for what it will bring.

EGGS.—Receipts for the week 33 boxes, 356 bbls., 14,168 cases; last week, 60 boxes, 80 bbls., 13,922 cases. Receipts of most kinds have been heavy for the past week and demand unexpectedly light. Eastern extras are still in limited supply and sell at about former prices. P. E. Island, Nova Scotia and New Brunswick have been dragging for the past day or two at 15c. and at the close are hardly quotable at over 14c.

FISH.—While the arrivals of mackerel are still moderate, some new fish are being received, although as yet most of the arrivals have been from the Provinces. Canned lobsters are steady. No canned mackerel. No. 2 mackerel bring \$20; No. 3 (large rimmed) \$16, and No. 3 (plain) \$16. Canned lobsters sell at \$1.05 per 1-lb tin, new.

### About Horses.

Mr. W. L. Ellwood, of DeKalb, Ill., has returned from France, having purchased about 200 pure-bred Percherons and 100 of the choicest of French coaches money could buy.

Mr. George A. Slingerly, of Philadelphia, the successful newspaper man and trotting-horse breeder, has an excellent mare in Katherine S. On June 5 she beat a field of four at Belmont Park in straight heats, the time of the last heat being 2.26.

The wonderful California filly Sunol, that made a record of 2.18 last fall as a two-year-old, and that was reported to have broken down, is now said to be all right and doing her work well. This will be gratifying news to the admirers of this remarkable mare, who confidently expect her to reduce the 2.08 of Maud S., when she has attained proper age.

Yolo Maid, with a three-year-old pacing record of 2.14, has been sold by her owner to B. C. Holly, of Vallejo, Cal., at the reported price of \$9,000. The same gentleman has also bought San Diego, pacing record, 2.21.

Donovan, winner of the English Derby, has won so far this season \$193,675, and will win considerably more before going to winter quarters. The amount is said to be larger already than was ever before won by one horse in a year.

The Duke of Portland's Donovan, the winner of the Derby, is a bay horse without white except the star on his forehead. He stands over sixteen hands in height and is furnished all over like a five-year old. He is full of muscle on the back and thighs, and his body indicates a good constitution. His forelegs measure more than eight inches round the smallest part below the knee, and though slightly inclined to be crooked the fore legs look like standing any amount of work. The hind legs measure about nine inches, and the hocks are strong and good. A hunting man might think Donovan a plain horse with good points, but racing men think him the beau ideal of a race horse.

HALIFAX, July 7.—The house and store of Mr. Bird at East Chezzetocook was burned Saturday at midnight. The fire originated below, and cut off escape from the sleeping occupants. Bird jumped out of the window to get a ladder. Meanwhile Mrs. Bird came to the window with her two children in her arms. One she dropped out through the window, and was caught by people below. Then she fainted or was overcome by smoke. The child fell into the burning building and was cremated. Mrs. Bird was finally rescued, but terribly burned, and will not likely survive. The house and store were destroyed.

### Inman Line.

CITY OF NEW YORK, 10,400 Tons  
CITY OF PARIS, 10,400 tons.  
CITY OF BERLIN, 5,491 Tons.  
CITY OF CHICAGO, 5,202 Tons.  
CITY OF CHESTER, 4,770 Tons.  
CITY OF RICHMOND, 4,789 Tons.

These magnificent steamers are amongst the largest and fastest in the world, and are well known for the regularity and rapidity of their passages across the Atlantic.

The Saloons and Staterooms are amidships, where least motion is felt. Ladies' and Gentlemen's Sitting and Smoking Rooms, Pianos, Libraries, Barber Shop, Bathrooms, etc., provided. All these Steamers are fitted with the Electric Light.

The difference in fares applies to location of Berths or Staterooms. All enjoy equal privileges in Saloon.

Second Cabin Passengers are berthed in rooms holding a small number in each. A liberal table and everything necessary for the voyage is furnished by the Company.
