

An interesting account of a visit to the little Republic of San Marino, in August. It says:— "It is especially singular that this little Territory, containing only about eight thousand inhabitants, should have remained intact for more than fifteen centuries, and that now, while all its powerful neighbors have become merged into one great state, they have not only preserved their independence, but also their separate autonomy. It was founded by San Marino, who was a native of Dalmatia, and came over and settled in Rimini. ..."

"When about six miles from the mountain we crossed a little stream, and my driver told me that we were now in the Republic of San Marino. ... The mountain, or ergo, as it should be rather called, rising nearly in its centre. The ground is very fertile and well cultivated, and its value is estimated at about \$1,000,000. ..."

"In old times affairs were administered by a grand council, composed of the heads of all the families in the Republic. ... In 1847 a council was substituted of sixty members—twenty nobles, twenty citizens and twenty farmers or peasants—who were chosen by the old assembly. ..."

CONFEDERATION.

"Important Information received from the Secretary of State for the Colonies. \$800,000 TO BE GIVEN TO PRINCE EDWARD ISLAND, IN ORDER THAT THE LEASEHOLD TENURES MAY BE EXTINGUISHED. A MISSTATEMENT CORRECTED. WE COPY THE FOLLOWING PARAGRAPH FROM THE PATRIOT OF SATURDAY LAST:—"

"We have been informed on good authority, that the statement in the Islander of yesterday, that the Legislature would be called in a short time is not correct. ..."

"The Delegates now representing Nova Scotia and New Brunswick, at the Colonial Office, recently took into consideration the position of Prince Edward Island, as regards the proposed Confederation of the British North American Colonies, and with a view of doing away with the objections heretofore entertained by the Island against Confederation, they unanimously resolved to advocate the proposition, that the Confederation should, in addition to the terms offered by the Quebec Report, give the Island 'JOINT HUNDRED THOUSAND DOLLARS, for the purpose of extinguishing the Leasehold tenures.' ..."

"The Government, considering the circumstances of the Island, felt it their duty to advise His Excellency that the question of sending delegates to England, with authority to agree, on behalf of the Island, to a Confederation, in pursuance of the Act of Confederation, in course of preparation by Her Majesty's Imperial Government, upon the terms proposed by the representatives of Nova Scotia and New Brunswick, was one which they were prepared to entertain, and upon which they would eventually take the opinion of the people at the polls. ..."

"Should the Island enter the Confederation upon the terms now proposed, its Government would receive a FREE GIFT, in cash of EIGHT HUNDRED THOUSAND DOLLARS, to be expended for the redemption of the tenures, and for the purchase of all the leased lands in the Island—free the tenants from all arrears of rent, and allow them to possess their lands in fee, at prices in no case exceeding ten shillings an acre, and in many cases at two or three shillings an acre—and would enable the Government to hold the tenures in fee, for the whole, or the arrears due by the poorer tenants, on the Worel, Selkirk and other Estates, hitherto purchased from the Proprietors. ..."

"We are glad to see, in conclusion, for the information of the Patriot, that the call of the Legislature was positively decided upon at a meeting of the Executive Council on Tuesday last. ..."

that the fire was arrested at Hare Point, and the wharf and a large number of logs which were in fire extinguished.

THE FIRE BRIGADE AND THE FIREMEN.

The fire brigade for their number, did as much as it was possible for men to do. They were on the spot very soon after the first alarm was given, but for want of a sufficient supply of water, their efforts at the beginning were rendered almost useless. Captain Ferguson, the chief of the department, informed us that about half past twelve, he received a communication which told him that a fire had broken out in the neighborhood of the wharf, in four different places. It is a misfortune that the perpetrators of so flagrant an act was not arrested on the spot. The Sapeurs Hook and Ladder Company, and the Volunteers were also present and did what they could. The fire department is, however, in its safety, and the fire has been extinguished by the use of a useful fire engine which will have to be established in its ranks.

LOSS OF LIFE.

The body of a man buried almost to a crisp was dragged out of the ruins of a house in St. Sauveur, near Valier street. It could not be recognized, and there were none of its kindred present to identify it. The body lay covered with a sheet, on the side-path until after dark. We also heard that a woman who was lying sick in one of the houses in the same neighborhood was burnt to death, but we could gather nothing further in relation to her. A coroner's inquest to-day will probably give us the true facts as to the number who lost their lives.

THE EXTENT OF THE CONFLAGRATION.

It was impossible to reach an exact estimate of the number of houses burnt. All is mere conjecture. By some the total is set down at 2,000, by others at 1,500. The latter figure will not reach over 1,100. For part, we are inclined to think it exceeds that of the great St. Roch's fire of 1845, which consumed 1645 houses—at least it covers a larger area of ground. An idea of its extent may be gathered by looking at the space which the burnt district occupies. It reaches from Crown street to the river, and extends to the river side in length, and from Arago street to the river side, about three quarters of a mile in breadth. Nearly all the houses were constructed of wood, and these offered an easy prey to the devouring element. If we set down the number of houses at 1,500, and the total number of persons at 20,000, it will be less than 12,500, or not far outside the mark.

INSURANCE LOSSES.

There was no possibility of fixing out the extent of the losses to the insurance offices. There were very few buildings insured compared with the total number of houses. The only company which will probably be the heaviest loser, we have no means of ascertaining the amount.

INCIDENTS, DEEDS OF VALOR AND HUMANITY.

Various incidents occurred during the conflagration which are worth mentioning. As early as six o'clock in the morning before day light, when the fire had assumed a threatening appearance, all the furniture carts in the city were drafted into requisition, to assist in removing furniture from the doomed district. (Grocers' wagons were used to remove the furniture.) Whole rows of these filled with every article of household furniture lined all the avenues leading toward the city. Among the number so employed was Mr. Butler, grocer of St. John street without, who with his own horse and wagon, did great service all day long. (Grocers' wagons were used to remove the furniture.)
