Montague Town Council Discusses Police Problem

MONTAGUE BUREAU OF THE GUARDIAN
The engaging of the RCMP, a new fire truck, a new furnace, an increase in population, R. R. Beck confirmed as Fire Chief, Dr. A. E. Ings appointed chairman of the Montague Centennial Committee, an engineer to be sought for the fire department, a meeting with the hospital board, were all matters dealt with during the regular monthly meeting of the Montague Town Council.

To have the RCMP police the town has been under consideration for some time and now that the present policeman is to take on the job of sheriff has forced the issue. The town has been served by a policeman and an assistant part time man for the past few years. This policeman was a jack of all trades, collecting taxes, looking after sewage problems and many other jobs and will not doubt have to be replaced at least by a part time man. It was the opinion of the council that the RCMP were professional police and as they have an office here it would be an ideal situation so they are to be engaged as soon as possible. Mr. Downe who will remain in the town for several months will assist, but would like to be relieved of the policing duties.

The new fire truck costing approximately \$10,000 for use in the town and for out of town fires will cost the town about \$3,000, the brigade will pay \$1,500 \$2,000 which was granted to the town for fire protection with the balance of \$3,500 to be paid by the town and repaid by the brigade at the rate of \$1,000 per year.

Two Boxers Suspended Indefinitely

GLASGOW (AP)—The Scottish Amateur Boxing Association announced Monday that two boxers, sent home in disgrace from the Commonwealth Games in Jamaica, have been suspended indefinitely.

The sentences were handed out to Andy Peace, 21-year-old welterweight who won a bronze medal at the games, and John Kellie, 20-year-old flyweight who weighed in overweight and did not box.

John Henderson, association secretary, said the suspensions would not prevent either boxer from turning professional, though the board would report the facts to the professional body.

Several managers have said they are interested in signing up the two men as professionals, despite the trouble in Jamaica.

The association, in addition, censured Jim Stevenson, trainer of the Scottish boxing team, and Willie Mason, the team manager. Both were held responsible for not keeping vigilance over Kellie and allowing him to weigh in overweight.

Dave Boswell Addresses Charlottetown Rotarians

Dave Boswell, director of physical education and alcoholic studies, was guest speaker at the weekly luncheon of the Charlottetown Rotary Club held yesterday at the Charlottetown Hotel.

Mr. Boswell spoke on his recent trip to Kingston, Jamaica where he was an official at the eight British Empire and Commonwealth Games held from August 3 to 14.

The speaker outlined how he came to be there and his duties, the general organization of the Games, the competition with particular reference to the performance of the Canadian team and a bit about the Canadian way of life.

In commenting on the organization of the games Mr. Boswell mentioned that Jamaica just recently received its independence and this was most apparent in the organization of the Games.

"Unfortunately, the chief responsibility for organizing the games was assigned to one or two quite high ranking military personnel who did not have the technical sports knowledge required for competition of this magnitude," he stated.

He went on to say that "Had it not been for one or two extremely competent professional Englishmen working in Jamaica it would have been a disaster."

Despite the loose organization and heat the Games were a tremendous success in terms of performances. There were many Commonwealth and World records broken," Mr. Boswell told the meeting.

CANADA'S PERFORMANCE
Mr. Boswell remarked on the outstanding performance of the Canadian team and noted that it was the best since the early thirties.

"Canada won a total of 13 gold, 23 silver and 27 bronze medals. Canadian's did particularly well in the swimming and for the first time Australia was very concerned with the performance of Canadian swimmers."

"In track and field Canada did extremely well in both the track and field events. Of the 34 Canadian athletes in track and field 31 of them qualified for the finals."

Rotary guests were Antoine Normand, director of Information and public relations for Winter Games, Quebec, Hon. Gordon Bennett, minister of education; Guy Rousseau, director of Winter Games Quebec City.

Visiting rotarians were Daa W. Gault, Toronto; Cam MacDonald, Summerside and Hap Wendin, New York.

The meeting was chaired by Ralph Manning and co-chaired by Ray Nelson.

Two Campers Find Wanted Kidnaper

OSLO, Norway (Reuters) — Two West German campers ended a three-week international manhunt Monday when they spotted a man suspected of kidnapping a four-year-old Canadian girl in West Berlin.

The suspected kidnaper, 22-year-old West Berliner Juergen Henschel, was arrested in a parking lot outside the Oslo city hall.

A magistrate's court remanded him until Oct. 3 after he pleaded not guilty to a charge of kidnapping Audrey Klewer of Montreal from her grandfather's West Berlin home last month.

Police, who caught Henschel as he returned to his car, were acting on a tip from campers Michael Hamann, 21, and Juergen Bagmann, 23.

The two had grown suspicious of their neighbor at a nearby camp site after seeing an article on the kidnapping in a West German illustrated magazine.

The licence plates on his car tallied with the magazine description and the campers succeeded where Interpol, the international police organization, had failed.

On Aug. 26, four days after she disappeared, Audrey was found asleep in a garden shed in West Berlin lightly doped, but unharmed.

She and her mother have returned to Montreal.

Labor Board Has Hearings

The Labor Relations Board held hearings last evening to consider two applications for certification, from Local 1511 United Packinghouse Food and Allied Workers with Gulf Garden Foods Ltd., Georgetown, and Local 721 Plumbers and Pipefitters with W.L. McKenna Co., Ltd., S. Nelson Good, Palmer Electric Ltd., H.B. Mitchell and Chalmers-Newton.

The board received representations from the parties concerned and is expected to announce its decision in the near future.

Counsel for Gulf Garden Food was Allan K. Scales and the Packinghouse workers were represented by union attorney D. Frank Sigsworth.

Mr. Sigsworth also represented the plumber's union in their five applications. None of the employers were represented by counsel before the board.

Charlottetown Council Requests Federal Action

Charlottetown City Council at their regular monthly meeting yesterday afternoon, passed a resolution asking the government of Canada by legislation or otherwise to take steps to insure that future strike involving the personnel engaged in the operation of the car ferries will not result in the non-operation of the car ferries, but that a car ferry service with the mainland of Canada will remain and be continued.

Mayor Walter Cox commenting on the recent rail strike said the situation that involved the ferries being tied up resulted in financial loss and personal inconvenience not only to people in Charlottetown, but the province in general.

Commenting further on the resolution, Mayor Cox said that this situation has developed twice now, once in 1950 and again recently, and under the terms of Confederation the service to the mainland was expressed to be a continuous service.

Mayor Cox chaired yesterday's three-hour meeting.

A. W. Gaudet former mayor of Charlottetown, was appointed chairman of a citizen's committee of council to look after planning for the city's participation in the 1967 Canadian Centennial celebrations. Other members of the committee will be Judge George J. Tweedy, Kenneth A. Parker, Walter Hyndman, Frank Curtis, Jack MacAndrew, Frank MacDonald, John Butler, Mayor Cox, Ralph Manning, W. J. Hancox, Charles Moffett, Dorothy Corrigan and John P. Nicholson.

Commenting on the formation of the committee, Mayor Cox noted that Charlottetown, being the birthplace of Confederation, should be particularly interested in the coming centennial and should be prepared to take part in the celebrations. He said the committee would plan and arrange special centennial events in the city, but, he added, anything involving any expenditure of money would be brought to council for approval. He added that it would be necessary for the committee to have much of the planning work done this fall so that any special centennial year expenditures could be included in the 1967 civic budget.

BAND PROJECT
Dealing with the city's centennial band project, Mayor Cox asked that council for approval to give the "go ahead" signal to the superintendent of city schools, Dr. C. A. Parker, so that work on the formation of the three school bands Queen Charlotte, Birchwood and Col. Gray highs could begin at once.

The council discussed this project which will cost an estimated \$36,000 with 1/3 coming from each of the civic, provincial and federal governments, and felt that the city should not commit themselves to their \$12,000 share of the money until final approval came from the federal level.

Several councillors pointed out that if the go ahead was given and the federal government turned down the proposal, the city and the provincial government would then be committed to \$18,000 each, instead of \$12,000.

Mayor Cox commenting further on this, said that he gathered from conversations with centennial officials that federal approval was received before proceeding with the project. He added that he felt there was some ground work that could be done without involving any expenditure of money and said that he realized that time was important if these bands were to be a realization by Centennial year.

RESOLUTION PASSED
A proposal brought to Council in July by Council Louis Johnson aimed at streamlining the civic administration and the function of the city council, was brought to a climax yesterday when four resolutions with this aim in mind were passed by the council.

Councillor Johnson's proposals after being presented at the July meeting were discussed by the council, sitting as a committee as a whole, in a four hour meeting last month, in which the whole system of civic administration was reviewed.

Councillor Dorothy Corrigan, who chaired the committee meeting, said yesterday that after discussing the problems of the city it was generally felt that things were being well handled. She concurred with Councilor Johnson that one area that needed improvement was in the field of communication between the council committees and three of the resolutions presented by Councilor Johnson last night dealt with this problem.

One resolution was that a committee of council committees meet with agendas to be given to each member of council three days before the meeting is to take place, and another provided that minutes from every council committee meeting be distributed to all councillors to keep them aware of what is going on in committees. The third resolution on communication was that the financial statement of expenditures of the budgetary allotments for the separate departments would be furnished to each councillor along with the monthly council meeting notices.

The fourth resolution presented by Councilor Johnson dealt with the purchasing practices of the city. It provided that all purchasing would continue to be done by the city comptroller under a formula laid down in the resolution outlining where quotations, public tenders, telephone quotations and so on would be required.

RECORDER RESIGNS
Two resignations were received by Council yesterday. K. M. Martin resigned his position as City Recorder a post which he held for many years, for reason of health. Mr. Martin's resignation was accepted with regret by the Council members, who expressed their gratitude for the years of service given by Mr. Martin.

Gerald R. Foster, who has been acting Recorder for the past year, will assume the permanent duties of this position.

The resignation of Hon. Gordon Bennett as chairman of the Charlottetown Recreation Council was also received with regret. Mr. Bennett, who has served in this capacity since the formation of the council, found it necessary to resign since assuming the duties of minister of education for the province.

Mayor Cox said that he would be calling a meeting of the Recreation Council next week to appoint a new chairman. Mayor Cox also commented that in recent months some controversy has arisen about the function of the Recreation Council in conjunction with the City Council. He noted that he hoped at next week's meeting to be able to clear up this matter. He added that the Recreation Council was a very important aspect of the civic administration and recreation was continuing to play an ever greater part in community life.

Dr. Wendell MacDonald, the city health officer, in his report commented that the problem of odour on lower Grafton Street was not severe this past summer. Dr. MacDonald added that this was no doubt because of the strike at Canada Packers Ltd. and said that it was now evident that it was at this plant that the problem originated.

Residents of Pleasant Street, in a letter to Council, asked that this street be made one way in view of a number of factors. This matter was turned over to the police committee for consideration.

Dr. Doug MacDonald, chairman of the town planning committee, said that the rezoning by-laws now being typewritten, and would be in the hands of the councillors by the end of the week. He said that it was hoped that these by-laws could be passed by council within the next month.

Mayor Cox noted that the annual meeting of the P.E.I. Federation of Mayors and Municipalities was being held in Summerside later this month. He said that a new system of holding one two-day meetings annually instead of two one-day affairs as in previous years was being tried. He urged that all members of council try to attend the meeting.

ASKS APPROVAL
Councillor Frank Zakem in presenting the report of the street committee, asked for council's approval of a plan to present to the annual meeting of the P.E.I. Federation of Mayors, concerning a "Clean Up" campaign that would involve the whole province. He said that the proposal would need the support of the provincial government and all the municipal governments. He added that it would be largely a public education campaign.

In the public report report, Councilor Arthur Wright noted that repairs work on City Hall was about 95 per cent completed and the expenditure for the works was well within the \$20,000 budget for it.

In the Police Committee report Councilor Arthur Gormley noted that the provincial electrical inspector was still unable to pass the electrical work involved in the installation of the traffic light system at the Queen and Grafton Street intersection. Councilor Gormley said that he felt a letter should go from Council to the company from whom the lights are to be purchased informing them that unless these are brought up to the required standard in a given time, they will not be purchased.

Council agreed with Councilor Gormley that it was necessary to get some final action on this matter, which has been hanging for three years.

WESTERN FUNERALS

DELANEY FUNERAL — The funeral for the late Emerson Delaney was held from the Davison Funeral Home to Long River United Church where Requiem Mass was celebrated by Rev. W.A. Paterson. trical inspector was still unable to pass the electrical work involved in the installation of the traffic light system at the Queen and Grafton Street intersection. Councilor Gormley said that he felt a letter should go from Council to the company from whom the lights are to be purchased informing them that unless these are brought up to the required standard in a given time, they will not be purchased.

Council agreed with Councilor Gormley that it was necessary to get some final action on this matter, which has been hanging for three years.

Haughton Entry Is The Favorite

YONKERS, N.Y. (AP)—The Billy Haughton-trained three-horse entry of Romulus Hanover, Nardin's Byrd and Tudor Hanover was made the 2-to-1 choice Monday to take Thursday night's renewal of the \$100,000 Lawrence B. Shepard Pace; the United States' richest racing stakes for two-year-olds, at Yonkers raceway.

The Sheppard attracted a field of 10 with Romulus Hanover, owned by John Froehlich of Brockville, N.Y., drawing the No. 7 post position. Haughton is expected to be up behind Romulus Hanover, who has paced one mile in world record time of 2:00.25 for a two-year-old over a one-half-mile track.

Nardin's Byrd is owned by Arthur Nardin of North Bay Village, Fla., the Tudor Hanover over races for Kenneth J. Beekman of Hornell, N.Y., Tudor Hanover will start from No. 2 post and Nardin's Byrd from No. 3.

Best of All, winner of six of his seven races in the last two months and owned by Samuel Huttenbauer, is rated the best of the others. He'll go from No. 5 with Jim Hackett driving.

Others entered were Mighty Ad, Red Wave, King Omaha, Toledo Hanover, Honest Story and Coral Ridge.

IS PATIENT SUFFERS INJURY

IS PATIENT
Gordon MacWilliams, Cape Traverse had undergone surgery in the Prince County Hospital.

SUFFERS INJURY
Ten-year-old John Foley suffered a fractured left arm on Saturday when he fell from a tree while playing at his home in Alberton. He is a son of Mr. and Mrs. Howard Foley.

Farm Chemicals Said Essential

LAKE OF BAYS, Ont. (CP)—Disaster would follow if Canada stopped using agricultural chemicals, says Al Habard, retiring president of the Canadian Agricultural Chemicals Association.

"If we discontinued using chemicals for pest control, it would be a catastrophe. We wouldn't be able to grow and preserve enough food for our present needs and the cost of food would probably double," he said.

Mr. Habard told delegates to the association's annual three-day meeting that without agricultural chemicals, Canada would need a third more acreage to feed its population and meet its export commitments.

E. G. Law of Montreal was elected president of the association.
