FISHERIES OF WHISKEY.—A fisherman out at Bedford, Me., who had a keg of whiskey the other day, which had been lying at the bottom of the river for a long time, according to appearance and taste. The wharf has been crowded with anxious anglers.

WAS ASHAMED OF HIMSELF.—Hans Bengtson, 32 years old, resident of Jersey City, committed suicide the other evening at his boarding house. He went home drunk, and because his landlady upbraided him he went up to his room, tied two handkerchiefs together and hanged himself from a clothes hook.

WASHER INTO THE RIVER.—A father who recently homesteaded on the Cheyenne River near Smithville, S. D., had just applied to the United States Land Office at Rapid City for permission to make entry on another forty acres of land, because, he says, the recent heavy rains had washed forty acres of his original entry into the river.

SCOTTISH GATHERING.—The successful competitors in the one mile and five mile bicycle races to be held in connection with the Scottish Gathering on the 31st July will be awarded gold medals instead of silver medals, as advertised in the programme of games. The gathering promises to be one of the most successful ever held under the auspices of the Caledonian Club.

OFF FOR DORCHESTER PENITENTIARY.—Sheriff McDonald, of King's County, and Jailer Logan, of King's County, will leave for Charlottetown this evening with McLaren, the convict from King's County, who will spend the next two years of his life in Dorchester Penitentiary for having indecently assaulted a little girl. McLaren was placed in Queen's County jail for the night and this morning started for Dorchester in charge of Sheriff McDonald and Jailer Logan.

COUNTY COURT.—The sittings of the County Court of Queen's County for the August term will be held as follows: 1st circuit at Eldon, Belfast, 1st August. 2nd circuit at Bonaventure, 4th August. 3rd circuit at Dunstaffnage, 13th August. 4th circuit at New Glasgow, 16th August. 5th circuit at Clifton, New London, 20th August. 6th circuit at Charlottetown, 27th August.

SATURDAY, 17th August, is the last day for serving writs of summons for the Charlottetown circuit.

AN ISLANDER KILLED.—James Vaughan, son of Mr James A. Vaughan, of North Boston, was accidentally killed at Fraser, Prince Edward Island, on the 17th inst. Vaughan was in the employ of the Long Distance Telephone Company, Providence, and it seems that the accident occurred while he was on a pole lowering wires. He lowered one wire all right, but the second, when slacked, fell on a live wire, and Mr Vaughan having the wire in his hand was instantly killed. Mr Vaughan was very popular with his fellow employees and every day his untimely death is deeply regretted. He left the Island about seven years ago.

THE ANNUAL TEA AT SCRIBES.—Go to the Souris Tea on the 24th instant, and get a mouthful of the purest and most invigorating air in America. The committee have gone to enormous pains and expense to give the visitors a good day's sport. Heckman's Band from Miscouche will discourse the music on the occasion, and visitors are expected from all parts of the parts of the island. The lottery is said to be on a grand scale, and every ticket gives an article. A copy of one of Raphael's paintings, Apollo, the original being in the Vatican Museum, will be disposed of. Your chance of this rare piece of art for 25 cents. You get double your money's worth in every department. Go to the Souris tea and don't forget it.

RETAIL MARKET PRICES.—Down stairs and outside today there was not a large attendance of either buyers or sellers, but upstairs the rush was great. There was any quantity of fruit and new vegetables on sale, and prices were fairly large. Cherries, by the quart, brought from 7 to 8c; blueberries and raspberries, 5 to 7c; black, red and white currants, 6 to 9c; garden strawberries, 18c; gooseberries, 6 to 8c. Celery, the first of the season, sold at 10c a head. Cauliflowers brought from 8 to 10c each, and cabbages from 3 to 5c each. Peas changed hands at from 12 to 14c a quart. New potatoes sold for \$1 a bushel; and new turnips and beets at 5c a bunch. Chickens brought from 35 to 40c a pair. Beef per lb by the quarter, sold at from 5 to 8c; beef (small) at from 6 to 12c. Lamb was 7c to 9c. Eggs brought from 9 to 11c. a doz. Butter, fresh, could be bought at from 16 to 18c, and the price for the tub was about the same. New hay sold at from 22 to 26c, and oats changed hands at 35c.

DESPERATE FIGHTING IN CUBA.—Further details of the recent battle of insurgents and government troops have been received at Havana. The fight took place between Manzanillo and Bayamo on July 16. 10,000 troops were engaged, and 2,000 insurgents were slain near Valencuela. The Spanish forces were under the actual command of Brigadier General Santocildes, military commander of the Manzanillo district. The Spanish troops fought bravely, and again and again repulsed the rebel charges of the rebels. It was thought the principal object of the attack was to capture General Campos. The troops formed a hollow square about him, thoroughly determined that he would not be taken, unless over their dead bodies. The battle lasted for seven hours. During one charge General Santocildes was killed, and General Campos took command of the troops, finally succeeding in defeating the rebels. The insurgents left 500 dead and wounded on the field. Among the dead were the leaders Rabi and Moncada. The government loss is 72 killed, including two officers, and a number wounded.

Light rains have fallen in some portions of England, but the country is suffering from drought. Farmers of all sections have one story of ruined crops and chances of a scant harvest. The wheat, barley and oat crops are failures. The reason is pronounced one of the worst in fifty years. Portions of the midland counties and some districts in Scotland have been favored with rains, but the country is looking burned and seared. The water in nearly all large towns is also very low. The weather has been fine for tourists, but they are missing some of the best landscape effects. The meadows, college lawns and gardens of Oxford are not as beautiful as they usually are, and the London parks are brown rather than green.

"STILL WATERS RUN DEEP."

Neville & Darley and their English Dramatic Company made their first appearance at the Masonic Opera House last evening, in "Still Waters Run Deep." The play is a capital one, and it was capitally played. All the parts were well taken, and upon the whole, the interpretation was forcible and sympathetic. Mr. George Neville, who, as Mr. Potter, resembles strongly a well-known and respected gentleman, was irresistible in all the funny situations, while Bryan Darley acted the villain of the play in a manner which left nothing to be desired. The acting of Miss Marion Gerald and Mr. Daniel Gilfeather was well sustained and admirable throughout, while Miss Viola Miles acted well the simpler part of Mrs. Midway. We think that THE EXAMINER voices the opinion of those present in pronouncing the Neville-Darley Company decidedly the best that has ever appeared at the Opera House, and in recommending it to the patronage of the public of Charlottetown.

In this connection we ought not to omit mention of the pianoforte playing by Mr. H. J. Hamilton. It was a treat to many in the audience. We hope that his classical selections will be continued notwithstanding the bad conduct last evening of a few of the gamins.

It is worthy of remark that the two plays for which the highest number of votes were given last evening were those previously selected by the management for this evening and to-morrow. The "Two Orphans" will be put upon the boards this evening; and Mr. Will C. Whitlock, of this city, will take the part of "Mother Proctor." We anticipate a bumper house.

The voting of the audience last evening resulted as follows:

The Day After the Wedding, and O'Callaghan on His Last Legs, 26
Two Orphans, 33
Hazel Kirke, 24
Still Waters, 24
Our Boys, 18
Caste, 12
Runaway Wife, 12
Don Cesar, 9
London Assurance, 7
Hermione, 2

The popular thing for gentlemen this evening seems to be the "Tylee" regatta. Almost every tailor has a demand, but before buying see that the Registered Trade Mark "Tylee" is stamped every 2 1/2 yards. None other is genuine.

LONDON, July 21.—It has developed that a police raid was made upon the Palace club on Thursday. A number of prominent Americans were caught in the raid. The club is one of the sociable fashionable night clubs in London where the demimonde resort. It opens at midnight and closes at 6 a. m. Lately the palace has been very quiet. The club is elegantly appointed, having twenty-five men servants and a band playing nightly. A hundred men and women, all in evening dress, were captured. Among them was a United States senator, a congressman, a prominent law officer of an eastern state and an American police official. All save the proprietor and servants of the club were released. They were remanded.

GENERAL TELEGRAPHIC NEWS.

LONDON, July 20.—The Times' Hong Kong advices says that the Japanese are abandoning the sea expedition to the southern part of the island of Formosa because the monsoon makes landing impossible. They must march two hundred miles inland, despite the rainy season and floods. The army at Tamsui is awaiting reinforcements from Japan. Ever and dysentery are rife. The Japanese vanguard at Tu Chan has been repeatedly harassed. Out of thirty-two Japanese attacked at Tokoham only four escaped; the rest having been killed or committed suicide, fearing torture.

LONDON, July 18.—A despatch to the Times from Hong Kong says that reports of serious fighting between the Japanese and Black Flags in Formosa have been received from Amoy. The fighting took place sixty miles south of Tai-Peh. The Black Flags were in almost overwhelming numbers and fought with the utmost bravery and stubbornness and only the shells from the heavy guns of the Japanese saved the latter from dire disaster. As it was the Japanese were compelled to retreat to the north-west. The Black Flag, according to the report, are now advancing upon Teckham, fifty miles west of Tokoham, where renewed fighting is imminent.

MONTREAL, July 19.—A special meeting of the directors of the Banque du Peuple has been called for this afternoon to try and unravel the tangle into which they have placed themselves. It is reported on the street that several shareholders intend to sue the directors for malfeasance in office.

WACO, Texas, July 21.—A tragedy occurred at Mart, a small village near here this morning, in which five negroes were killed. Some time ago, as a result of a feud, A. Phillips, colored and H. Arnold, white, were killed. This morning the town was aroused by a loud report and people found the house of Mrs. Phillips the widow of the negro killed, in flames. A stick of dynamite had been thrown into the building blowing it to pieces and setting fire to the wreck. There were five negroes in the building at the time, 3 being killed. One person escaped but it is thought he will die of injuries.

TORONTO, July 21.—The public school board has adopted a proposition that some of the school supporters shall not receive contracts for work on public schools.

LA SPEZIA, Italy, July 21.—The steamers Orizgia and Maria, collided at an early hour this morning. The latter was so badly damaged that she sank almost immediately, resulting in the loss of 148 lives out of a total number of 178 passengers, in addition to the crew. Most of the passengers were asleep at the time of the collision. The passengers were mostly emigrants bound from Naples to River Plate. The crew of Maria P. numbered seventeen, 14 were saved and 33 passengers saved. According to the statement of some of the survivors the Orizgia is to blame for the disaster.

LONDON, July 18.—Capt. Whitecross has been awarded the Victoria Cross for bravery during the siege of Chitral. Col. Kelly, who relieved the Chitral garrison, has been made a companion of the Bath, and appointed aide de camp to the Queen, with the rank of Brevet Colonel. The other officers who distinguished themselves during the Chitral campaign have received the Distinguished Service, and have been promoted.

MONTREAL, July 21.—Special cable from Waterford, Ireland, says: Judge Dugas is making good progress with the examination of the witnesses in the case of Shortis, the Valleyfield murderer. The commission appointed to take evidence here with reference to the sanity or insanity of the man has examined a large number of Waterford's leading citizens, and all agree that Shortis is insane. They go further and say he was known here as a regular madman. Shortis, it has been added, had many relatives who died insane in Clonmel asylum. The plea of insanity, the lawyers for the defence claim, is fully proved.

The fact that Mrs Leland Stanford, widow of the California senator, will dispose of 1,000,000 gallons of brandy from her ranch for the benefit of the Stanford University is not pleasing to the clergy of Chicago. "Her excuse that it will be used for medicinal purposes is a mask," declared the Rev G. E. Mitchell, of Calvary Presbyterian church. "A nice college, indeed, to send young men to! Do you think any professor would dare advocate temperance here? I most certainly would oppose sending any Christian youth to a college supported by the sale of liquor." The matter was discussed at the ministers' meeting at Chicago, on Tuesday, and a resolution condemning Mrs. Stanford's course was adopted.

NEWS NOTES.
Black Flags in Formosa compelled the Japanese troops to retreat after a stubborn battle. About \$137,000 succession duties, fees, etc., have been levied on the \$1,500,000 left by the late Allan Moore, of Ottawa.

The Belgian Government is reported to purpose giving Canadian cattle another chance by authorizing some trial shipments.

The assassination of M. Stamuloff has given rise to a demand that Pringe Ferland shall abdicate. The murdered man's enemies say that his hand is long enough to reach them from the grave.

The announcement of the death of Dr Atkinson, of Carlton Co, N. B., was premature. He is still living, but is in poor health. The death of his 12 year old daughter from consumption on Friday was the cause of the false report.

A despatch from Lander, Wyo., says that Governor Richards has telegraphed General Sheldon to place his company under arms subject to orders at a moment's notice, for a campaign against the Indians in Jackson's hole, if necessary.

Iowa papers are printing an account of a poisoning case, wherein the motive for the crime was the victim's insurance money. It seems to be in order for a careful man to look over his policies and see who they are payable to. These be perilous times for indiscriminate insurers.

The Duke of Norfolk has given £10,000 towards the building of the new English Roman Catholic cathedral. Twenty-seven founders have each given £1,000 each, while Cardinal Vaughan has received from another donor the sum of £12,000 for the erection of one of the chapels in the cathedral.

Spain has 60,000 soldiers in Cuba and 6,000 more on the way. The Spanish navy force in Cuban waters consists of 15 vessels. Six additional vessels of light draught are now in process of construction in Spain, and the government is negotiating for the purchase of 19 vessels in England and on the continent.

Watts, of the Royal Scots, won the Daily Graphic cup at the Bisley rifle meet on the 19th inst. Sergeant McNeil, of the King's Own Scottish Borders, won the St. George's competition with 111. Among those who won National Rifle Association badges and 48 in the second stage of the St. George's competition were White and Mitchell, of the Canadian team. Spang, of the same team, won a badge and 45.

There was a scene in the Belgian Chamber of Deputies on Friday last. During the discussion of the new education bill, M. Burlet, the Premier, said that he placed parents who allowed their children to "swallow in the slough of atheism." This remark brought forth a torrent of invectives from the Socialists against the Ministers, and insulting expressions passed between them and the bench. In the heat of personal violence was only averted by the hurried adjournment of the session.

When Newfoundland finally comes into the Canadian union one of the first duties of the Government will be to put some good lighthouses and fog signals along the coast of the southeastern angle of the island. St. Shotts, where the steamship Sunrise went ashore on Thursday, is described in the gazetteers and atlases as a place noted for shipwrecks, and it is generally also, as ships from Canadian ports that meet their fate in the cul de sac on which it is situated, and which they run into instead of passing the eastern peninsula of the colony. It is not creditable that such a trap should be left unguarded.
