THE ENGINEER'S PAGE

The Gospel According to St. Cranston
BOOK I: ORIGINS

In the beginning, God created the Campus, and saw that it was good. "But lo," He said into himself, "The Campus doth need something Else." And he did realize that he needeth Buildings. The thought didst not occur to Him that He did not know what Buildings were.

And so it came to pass that on the second day, He didst create Engineers to design His Buildings. And they didst create the Buildings before the Second day was over, and indeed it was good.

And on the Third day, the Engineers were thirsty, and thus did God create Brew, for He was grateful. And the Engineers didst drug the Brew for it was good.

On the Fourth Day, when the Buildings hadst been built, and Brew hadst been chugged, and the Engineer's heads didst ache, God realized that the Campus needed more. He created Nurses and thus, Reproduction came to pass.

And on the Fifth Day, God didst see that the Engineers need leadership, and thus He passed His Revelations unto the humble Cranston Snord, who didst become Saint Cranston.

After Five Days of Hard Work, He was extremely weary. And thus on the Sixth Day, He came to commit a grievous error. Instead of creating High Life Forms, He breathed life into stinking excretions of cattle, and Biologists, Business Students, and Artsies came into being. Lo and behold, He had made his first Mistake.

And on the Seventh Day, to repent for His

Mistake, he didst create a Party, and the people rejoiced. And since He was on a Roll, he didst Party with the People, and it, too, was good.

Good Jokes

What ended the leper card game? One leper threw his hand in and the rest of them laughed their heads off.

What stopped the leper hockey game? There was a face off in the corner.

BAD JOKES

What do you do with a dog that has no legs? Take it for a drag.

1st Kid: "Let's go catch some frogs."

2nd Kid: "Where will we get the money to go to Quebec?"

What's the only part of a vegetable you can't eat? The Wheelchair.

What do you call a dog with no legs? You don't call him anything, he wouldn't come anyway.

Kids - Can Johnny come out and play baseball?

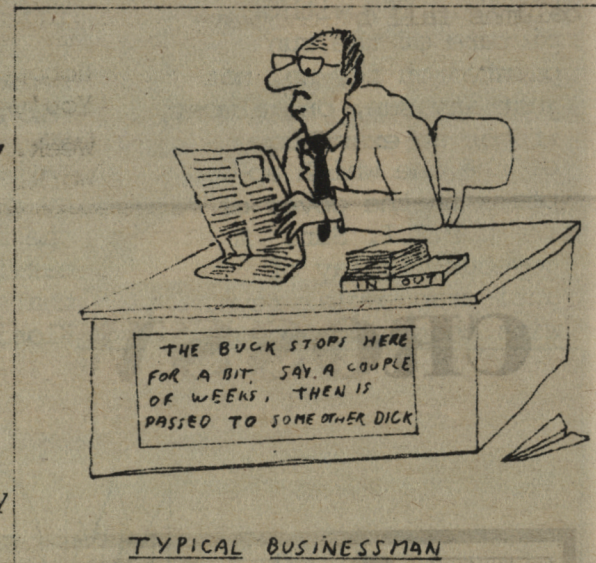

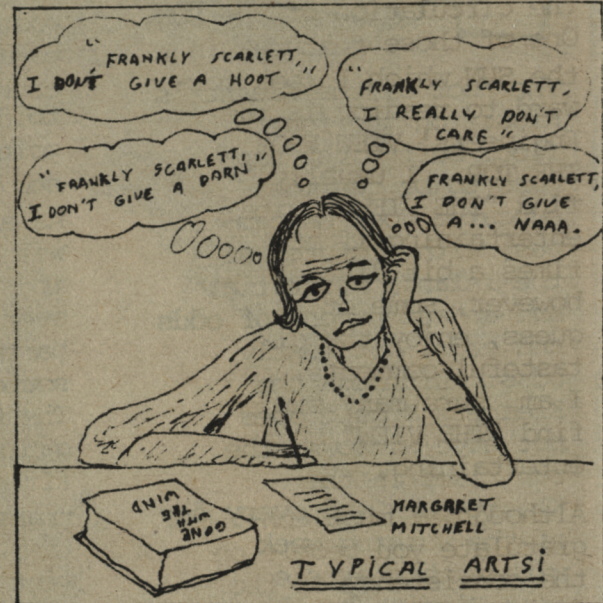

Mother - But Johnny doesn't have any arms and legs.

Kids - That's okay, we want him for first base.

GUIDO COMMENTS ON DIZZY BUSINESS ZOO.

It has come to my attention that there is an Artsie masquerading as an Engineer over at the Business society (if you can call it that). Obviously this person is wishing that he be a somebody. We at the top find this amusing to know that the little minds over there can

be so easily fooled by this imposter. I believe his name is Carlos de Wetback. A few comments about this Business society. The whole bunch of you must be quite stupid. You elect a close relative to the Cow family as your president, and we all know the mental capability of Moose is surely nothing to brag about. The vice-president is another joke, elect a criminal! and he's reportedly related to the fowl family. (notably the chicken). Your Junior class rep. is a fuzzy-headed little midget. Sounds like the Muppet show. Where's Miss Piggy, you knobbers? This bleary eyed, drunken Engineer would like to congratulate you on your "original" test. It's all been done before and it belongs not on these pages but in the garbage. It's been rumoured that the Dizzy Business society is the runaway favorite again this year for the Brown-nosing honours. Take a good sniff because it's your brains you're smelling.
