

A RECONSTRUCTANT FOR WOMEN

Paine's Celery Compound

Rebuilds and Strengthens the Disease-Injured System.

It Bestows on Women What They Most Require.

Full Nervous Energy and Rich, Nourishing Blood

The System is Perfectly and Permanently Built Up.

The healthy, vigorous and ruddy-cheeked woman with bright and sparkling eyes is a joy to all around her.

The half-sick and invalid woman is a sad sight, and here presence chills the very atmosphere that surrounds her.

Backaches, headaches, neuralgia, nervous prostration, irregularities, rheumatism and liver and kidney complaints seem to be the peculiar misfortunes of women of every class.

To women who suffer from any of the ills mentioned, Paine's Celery Compound comes in as the great reconstructant, bringing to sick women the great essential of healthful nervous energy and rich, nourishing blood.

Thousands of testimonials from women establish the fact that when Paine's Celery Compound is used the nerves are braced, tissue is built up, poisons are expelled, the blood is made pure, the brain is clear and active, and the cloudless face and beaming eyes proclaim a condition of perfect health.

See that you get the genuine Paine's Celery Compound; see that the name "Paine's" and the Stock of Celery appear on the wrapper and bottle.

It Pays to Buy at Perkins'

Its a pleasure for us to show our goods will we will have a visit from you.

F. Perkins & Co

We anticipate a visit from you.

THE DAILY EXAMINER

FEBRUARY 10, 1900

FOUR MONTHS OPERATIONS.

Just four months ago, the Boers began the war. They were then all ready for the fight, and comparatively few British soldiers opposed their passage when they invaded Cape Colony and Natal, in force.

On the other hand, the British have so far made little headway towards the expulsion of the invaders. At first their force was inadequate; and then they began wrong. Now they must begin over again. We look for an advance across the Orange River in the course of a few days, and possibly a simultaneous advance at the Modder River; while the Boers before Ladysmith will, without doubt, be kept employed.

After all, four months is a comparatively short time in which to transport an army from Great Britain to South Africa and put it in fighting trim. The lessons that have been learned in the meantime, though costly, may prove to be useful in the end.

MR. CRABBE'S CARD.

The card of Mr. S. W. Crabbe to the electors must attract attention not only on account of the fact that he has been many years a councillor who has paid strict attention to civic business, but also because he announces that he has not made a personal canvass. Everyone says that personal canvassing is an occupation unworthy of a self-respecting man and that it is the fruitful cause of political and civic corruption.

There is another point to be noted in Mr. Crabbe's card. It is that he states definitely that he is opposed to any further addition to the civic debt "without first consulting the citizens at a public meeting called for the purpose." This statement is to be commended, not so much because it is undesirable that the burden of the debt should be increased, as because it is clear and decided. We know exactly where Mr. Crabbe stands in respect to a very important matter. It is to be hoped that other candidates will be equally clear, definite and outspoken.

"THE MINTO" IN THE ICE.

ADVICES from "The Minto," received from sources believed to be reliable, are to the effect that that "admirably adapted" vessel "stuck in the ice"—actually, stuck in the ice,—from nine o'clock on Thursday morning until seven and a half o'clock on Friday morning. After all the Liberal brag and bluster about this "unsurpassed" ice clearer, after the immense sums of money expended upon her, after the great expectations held out to the travelling public and our men of business, this report came to us like the news of Buller's first defeat. It was stunning. So quick upon the heels of the certificate of Messrs. Farquharson, Rogers and McKinnon that "The Minto" was "all right," it was the more remarkable. Charlottetown harbour, is all but open, and there is only a little floating ice in the bay and around our coasts. Bat's tug might go out any day. Has an iceberg floated down to Pictou from Greenland to stop the career of "The Minto," or what has happened?

A correspondent informs THE EXAMINER that a pro-Boer meeting held recently at Washington was attended by but one Senator (Mason) and two Congressmen (Sulzar, of New York, and Lantz, of Kentucky), while 240 Congressmen and 72 Senators were at the Capital. "Since the meeting, Senator Mason has been asked to resign from a large and influential society of which he was a member." These facts indicate that the balance of American sympathy is heavily in favor of the British cause.

REV. HENRY POPE, D. D.

THE announcement of the death of the Rev. Dr. Pope, of St. John, N.B., will be read with sincere regret by a very large circle of friends and relatives in Prince Edward Island. Mr. Pope was a son of the late Rev. Henry Pope, a minister of the conference of Eastern British America, and a nephew of the late Hon. Joseph Pope, Assistant Receiver General for the Province. Dr. Pope entered the ministry of the Methodist Church in 1844, and for many years held a prominent position filling some of the best circuits in the gift of Conference. He was recognized as one of the most effective and powerful preachers in the Maritime Provinces,—vigorous in intellect and cultured in taste. For twelve years Dr. Pope filled important circuits in this Province, closing with a full ministerial term in the pastorate of the First Methodist Church in Charlottetown. From here he removed to Centenary Church, St. John, N. B. In 1877 he published two volumes of sermons entitled "Draughts from the Living Fountain." These volumes have found a permanent place in many of the Methodist homes of New Brunswick and Prince Edward Island; and while they are prized for their intrinsic value they will also serve to perpetuate the memory of a loving and faithful pastor. Rev. Dr. Pope married a sister of our esteemed fellow citizen, Dr. Richard Johnson, who, with one son and two daughters, survives him.

PRACTICAL SYMPATHY.

FRUITS of justice and liberty, enjoyed under British rule, are found at this juncture in all parts of the English-speaking world—in India and the United States as well as in Canada and Australia; and the people's appreciation is being shown by offers of assistance in the war against Boer tyranny, as exemplified in the Transvaal. The patriotic offers of help that have come from the United States are particularly gratifying. One of these we mention because the gentleman who made the offer is known in this Province. The following letters tell the whole story:

COLONIAL OFFICE, 26th January, 1900.

SIR,—Mr. Chamberlain desires me to acknowledge the receipt of your letter of the 3rd instant, and to express to you his cordial thanks for your offer to raise a regiment for service in South Africa. Mr. Chamberlain desires me to say that your offer could not be accepted, as it is impossible for Her Majesty's Government to avail themselves of the services of any but British subjects.

I am, Your obedient servant, G. GRINDLE. James A. Maskell, Esq.

OTTAWA, 5th January, 1900.

DEAR SIR,—I beg to acknowledge the receipt of your favour of the 3rd instant, which I refer to the Minister of Militia, the Hon. F. W. Borden, for his consideration. Yours very sincerely, WILFRID LAURIER.

Jas. A. Maskell, Esq. A gentleman resident in the States writing to THE EXAMINER says that "the heart of America beats loyally to the Mother country and wishes her God speed. The pro-Boer meetings are meaningless, and are shunned by the better classes of our people." This testimony of one who resides in the midst of one of the great cities of the United States is gratifying and reassuring.

NOTES AND COMMENTS.

—May this be termed "the February thaw"?

—Vancouver City Council has donated \$1,000 to the Canadian Patriotic fund.

—Surely it cannot be true that "The Minto" was stuck in the ice—after that certificate!

—Read the report of Lord Rosebery's splendid speech published in THE EXAMINER to-day.

—Lord Robert's reply to Presidents Kruger and Steyn has created a good impression in London.

—A gentleman who has reached London from South Africa says he has received information that the Boer losses total \$3,000.

—Captain Finlayson ought to beg Farquharson, Rogers, McKinnon & Co. never to give another certificate to "The Minto." Something more serious than sticking in the ice may happen next time.

—What would Briato's downfall mean? The Empire answers that "it would mean the slavery of India under the tyranny of Russia, the revival of the African slave trade, the unchecked crusade of Mussulmans against the Christians of Asia Minor, the relapsing of Egypt into darkness and misgovernment under the maladministration of a corrupt policy, the constant menace to the whole population of South Africa of an unrestrained and barbarous black majority. As far as Canada is concerned, it would mean the total obliteration under the rule of the United States of all the special rights and privileges in language, law and religion, which French-Canadians now enjoy."

A COMMON CASE.

"What's the trouble, old man,—sick?" "Oh, I don't know." "Do you feel sick?" "No, not exactly sick. I feel what is vulgarly called rotten." "Where do you feel it?" "All over." "Been that way long?" "Started about three months ago. Been getting worse ever since." "What are your symptoms?" "Oh, I have headaches and poor appetite, low spirits, and half a dozen little things like that." "Sounds suspiciously like dyspepsia." "Yes, I have indigestion too." "Oh, well, there you are then. You know what you want for that sort of thing?" "I've tried about a hundred remedies, it seems to me, already." "You've never tried Dodd's Dyspepsia Tablets." "No, can't say that I have tried them." "That explains." "Explains what?" "Why you never got cured. Why Dodd's Dyspepsia Tablets are the only dead certainty of the lot." "Come now, come." "Well, you say yourself that you tried about everything else to no avail." "Pretty nearly." "Well, so did my wife." "Dodd's Dyspepsia Tablets cured her?" "Yes, sir." "And she tried other remedies too?" "We wasted more money than I like to think of trying to cure her without 'em." "What are Dodd's Dyspepsia Tablets, do you know? What's in 'em?" "Pepsin and diastase." "Is that all?" "And sugar." "Simple enough." "They couldn't hurt a baby. But they are the most dangerous enemies dyspepsia ever had." "I'll have to try them on this case of mine." "A trial is the best argument when it comes to Dodd's Dyspepsia Tablets."

LOCAL NOTICES.

Ladies cut out Paton & Co's big page ad as today will be the last time it will appear. We will sell all goods as advertised until they are sold out, so bring along the ad. Jas Paton & Co.

Shorthand class at 7.30 and penmanship at 8.30 at the C B C tonight. Students will please attend.
