Bible Mysteries Subject Of Sermon By Evangelist

Another interesting theme was presented by Evangelist F. W. Johnston in the Brighton Club rooms Sunday night when he dealt with "The Seven Great Mysteries of the Bible." He opened his remarks by showing that the people of God had a right to delve into the great mysteries of the scriptures for as he read in Matt. 13:11 where Christ in speaking to his people said "Unto you is given to know the mysteries of the kingdom, but to others it was not given." He then raised the question as to what were those mysteries which were to be understood by the people of God.

The first of these mysteries he said was that of Creation, and according to Heb. 11:3 he said that human reason was out of place in the understanding of this great fact; for in this scripture he read that it was by faith that carnal human reasoning usually begins with doubt, and their eventual belief in anything is based on investigation. But human reason alone unaided by divine enlightenment is a very unsafe method. He read from Romans 1:18, 21-23 interpreting these passages to mean that human reason had led the heathen and the evolutionist to trace his ancestry back to the brute instead of believing that God created man in his own image. Relying solely on his own human reason he grovels in the mud and among reptiles to find his ancestry. Christian reasoning however begins in simple faith and accepts the Bible statement that by the word of God was everything made. Ps. 33:6-9. He said Creation is fundamental; for belief in Creation naturally leads to belief in a Creator which Mr. Johnston pointed out was none other than Christ. Col. 1:14, 16. But the one who believes in Creation and a Creator naturally believes in his laws which he said brings us to the consideration of the second great mystery; for the mystery of iniquity mentioned in 2 Thess. 2:7 is due to the violation of the Creator's laws. Sin he read was a violation of Gods law. 1 John 3:4.

The results that have come from sin brings us to the consideration of the third great mystery of the Bible, the flood in the days of Noah, and even though many deny it, yet he said the Flood was the key to the understanding of the geological irregularities that are seen the world over. The burial of great forests, the sudden burial of great herds of elephants, and other tropical animals away up in the Arctic circle, and the marvellous preservation of their frozen flesh, the finding in their stomachs green grass even in their mouths in semichewed condition all are accounted for only by a sudden cataclysm such as was brought about by the flood.

But the remedy for sin as well as sin and its results is just as great a mystery; for who can understand the incarnation of Christ the Godhead itself becoming incarnate in human flesh. John 1:14. What a marvellous mystery and is called such by Paul in 1 Tim. 3:16. But the fifth great mystery he said was the new birth, a mystery indeed to Nicodemus. John 3:3-9 being born again of the incorruptible seed of the word of God. 1 Peter 1:23. And all these mysteries he said were inseparably connected. A disbelief in one leads to a disbelief in another; for who can believe in the new birth who does not believe in Creation; for conversion is an act of creation. Ps 51:10. The sixth mystery he said was the future resurrection which Paul calls a mystery in 1 Cor. 15:51-54. No human reason can ever figure out how one can be raised from death to life. The seventh great mystery is the future and its reward for either faithfulness or unfaithfulness. No one aided by human reason alone could ever believe in a future and it would be an unsolved mystery apart from divine revelation.
