## THE DAILY EXAMINER.

MAY 23, 1879.

### The New Time Table.

For the first time a passenger may travel the whole length of the Railway from Souris to Tignish, and from Tignish to Souris, or to or from any intermediate station, on the same day. For the first time a passenger may travel from Tignish, or any intermediate station west of Summerside, to St. John on the same day. For the first time the public east of Charlottetown are to receive the railway accommodation to which they are entitled.

A passenger leaving Souris at 6.15 a. m., arrives at Mount Stewart at 8.25; at Royalty Junction at 9.38. There he takes the train from Charlottetown at 10.05, arrives at Summerside at 1.50 p. m., at Alberton at 6.40, and at Tignish at 7.40. If he wishes to go to Charlottetown he will arrive at 9.55 a. m. There he may stay all day till 4.30 p. m., and be returned to his home at 8.05 p. m.

A passenger leaving Tignish at 5.15 a. m. may take the steamer at Summerside at 8.45 and go to Shediac and St. John; or he may proceed east—leaving Summerside at 12.40 p. m., arriving at Royalty Junction at 3.50 and at Charlottetown at 4.15. Then, if he wishes to go on to Souris, he leaves Charlottetown at 4.30 p. m., or Royalty Junction at 4.49 p. m., and arrives at his destination at 9.05 p. m. Or, if he desires to stay at Summerside, he can stay there about six hours and return to his home in Tignish in the evening.

A mixed train leaves Charlottetown for Georgetown and Souris at 6.50 every morning, arriving at Georgetown at 10.45 and at Souris at 11.35. This will be a great advantage to business men of the east, for they will get their freight, etc., delivered on the day it is dispatched, and avoid the night work which was before necessitated. A passenger in this train may stay in Souris upwards of three hours, or in Georgetown four hours, and return to Charlottetown the same evening at 7.40.

Express trains run between Charlottetown and Summerside—connecting with the steamer at Summerside.

A mixed train leaves Tignish at 6.20 a. m., arrives at Summerside at 12.05 p. m., and at Charlottetown at 4.15 p. m. It seems strange that two trains should leave Tignish within an hour and five minutes; and there will doubtless be some complaint on the part of people at the west, on account of the long space of time intervening before the next train leaves. But it is said that if the first train were a mixed one for the accommodation of both passengers and freight, it could not reach Summerside in time to connect with the Shediac steamer, unless it left Tignish at an unduly early hour; and if the last train left Tignish later in the day, it could not make the necessary connections with the eastern trains. It will thus be seen that this could not very well be avoided.

On the whole, the "new arrangement" is far the best we have yet had. It gives an opportunity to stay a good while at the principal centres of trade during business hours. It enables passengers to go over the whole length of the line in a day. A through passage to the mainland is daily afforded those who reside west of Summerside. Much work that before had to be done in the dark will now be done by daylight. We congratulate Mr. McNab upon these improvements; and we feel sure they will be appreciated by the people of the Island.

We hope that as soon as Mr. McNab has made himself sufficiently well acquainted with the Island, he will devote some attention to the improvement of the freight tariff. The present one gives rise to a great deal of complaint; and we think a tariff might be devised which would suit the people better, without materially, or for any length of time, diminishing the receipts. The mistake of the former management was the application of the tariffs of other railways to the entirely different conditions which exist here.

QUEEN VICTORIA'S youngest son—Prince Leopold—has proposed marriage to his cousin, Princess Marie, of Hanover.

## Abolition of the Legislative Council

Those of the Legislative Councilors who wish to hold on to their little emoluments at a cost to the country of \$7000 a year—those who deign to come down to the region of reality—contend that the electoral lists show that there are only eight property holders to twelve non-property holders; and that, therefore, the property holders—being in the minority—need special protection.

Now, let us see what special protection these Solons offer to property-holders. Instead of the requirement of a five years residence on the part of the voter, and a property qualification of the value of \$600 on the part of the representative, they propose that—

"The Legislative Council and House of Assembly of this Province shall be abolished from and after the coming into force of this Act.

"In lieu and in place of the said Legislative Council and House of Assembly, there shall be established a Legislative Assembly.

"The said Legislative Assembly shall be composed of twenty-two Members—fifteen of whom shall be elected by the Electoral Districts of the existing House of Assembly, and so that each District shall elect one representative instead of two as at present, and seven of whom shall be elected by the Electoral Districts of the existing Legislative Council by the voters qualified to vote for Members of the existing Legislative Council, and so that each District shall elect one Member only."

In short, they propose to have a hermaphroditic Legislature, in which seven members shall be of the property-holding gender and fifteen members of the non-property holding gender!

Now, suppose a question to come up in this Legislature in which the interests of the property-holding and non-property holding classes clash. What would be the result? Why—if the premises of those who favor this scheme be true—seven representatives would vote for the property holders and fifteen representatives would vote for the non-property holders! The majority would, of course, carry the day. The property holders would be no where!!

This is the kind of "Protection" these gentlemen would afford by a hermaphroditic Legislature, such as does not exist in the world to-day. This is the scheme to protect farmers against their sons, merchants against their clerks and book-keepers, master mechanics against their journeymen and assistants. This is the scheme to place clergymen, editors, schoolmasters—the most intelligent men—everyone above the money grubbing professions—under a disability. If it were adopted, the Island would be the laughing stock for the universe. Such a scheme might properly be proposed in Punch or Grip. But, to think of grave legislators entertaining it and pressing for its adoption! We hope our legislative Councilors are not going to make fools of themselves by carrying this matter further.

### Another Successful Islander.

The success which uniformly attends upon young Islanders when they go abroad has, we are pleased to learn, followed the collegiate efforts of our young friend Mr. John A. McKinnon, son of Mr. Daniel McKinnon, of the firm of McKinnon, Fraser & Co. He has been attending Trinity College, Toronto, and he is the winner of the Silver Medal and two honorary certificates for proficiency in the study of medicine and surgery. He came very near obtaining the Gold Medal—a young man who had been much longer at college than he only beating him by a few marks. The percentage made by Mr. McKinnon, in the various subjects connected with the profession, is as follows:—

Anatomy	95 per cent.
Physiology	94 "
Chemistry	90 "
Materia Medica	89 "
Botany	71 "
Midwifery	85 "
Surgery	80 "
Medicine	80 "
Practical Chemistry	77 "
Jurisprudence	75 "

We have much pleasure in recording this result of Mr. McKinnon's labors; and we wish him every success in the profession he has chosen for his life work. Mr. McKinnon was a student in the Prince of Wales College.

We clip the following creditable record of the sailing achievements of an Island ship and master from the North Sydney Herald. We hear, from land to land, the passage was only 12 days. The J. F. Robertson having called here, is now on her way to Souris to load. Whatever speed, consistent with safety, is in the ship, Capt. Ronald McMillan will carefully take out of her:—

"A QUICK PASSAGE.—The Barque John F. Robertson, Capt. McMillan, of Summerside, P. E. Island, made the passage from O'Porto, Portugal, to Sydney, in 14 days. This is one of the quickest passages on record. Very few vessels have such a well-sustained reputation for fast sailing as the John F. Robertson."

INTERESTING.—NEW ENGLISH BONNETS, French and English Flowers, Ostrich and Fancy Feathers, Wings and Birds, Hats and Straw Goods, Ornaments, Laces, Illusion Ribbons, and all kinds New Millinery Goods. Ladies' Hats and Bonnets made to order, and Millinery tastefully executed by first-class Milliners. sat Thur sat 2w. W. A. WEEKS & Co.

## Glass. Glass. Glass.

300 BOXES, all sizes, VERY CHEAP. BEER & SONS. May 22, 1879.

## AROMATIC MONTSERRAT QUININE CORDIAL,

which is a combination of Pure Quinine, with Lime Fruit Juice, cordialised by the addition of Aromatics, but ENTIRELY FREE FROM ALCOHOL. Upon the medicinal virtues of Lime Juice and Quinine it is unnecessary to dilate. The combination of two agents of such universally acknowledged value, in at once a palatable and innocuous form, has been a desideratum long sought, but only now successfully accomplished; for although the Tonic qualities of Quinine have been popularised in the form of QUININE WINES, it is well known these combinations have been attended with serious evils consequent upon the Alcoholic Stimulants they all contain, at once prejudicial to health and demoralising in their tendency. Aromatic Montserrat Quinine Cordial is guaranteed to contain one grain of Quinine in each wineglassful, and to be entirely free from alcohol, being prepared solely from the Montserrat Lime Fruit Juice combined with Aromatics. Sold at Apothecaries' Hall, DesBrisay's Corner. Ch'town, May 21—2w eod

## Aperient Fruit Lozenges!

Prepared From the Bark of the Rhamnus Franguia. A MEDICINE which has been described, on high authority, as "the only real aperient we have"; all others usually classed under that name being drastic in their operation, and often injurious in their after effect. These Lozenges are extremely palatable, and children take them readily as a sweet treat. Prepared by H. C. BALDWIN & SON, Edinburgh. Sold at APOTHECARIES' HALL, DesBrisay's Corner. Ch'town, May 9, '79—2w 2w
