## Analyzing the Misrepresentations.

THE ROYAL BAKING POWDER CO. imply in their advertisements that the New York State Board of Health endorse their Powder as the only Pure Baking Powder in the market. The following copy of a letter sent them by direction of the New York State Board of Health explains itself.

FEBRUARY 6th, '85.

To the Manufacturers of Royal Baking Powder.

GENTLEMEN:—In numerous advertisements of your wares it is made to appear that this Board has declared your Powder to be pure—indeed the only pure Baking Powder in the market. Such a misrepresentation is wholly unwarranted by the report to which your advertisements refer, and if Dr. Love has given any certificate specifying the qualities of your product, it was in his private capacity and not as analyst of this Board. I have therefore, to request that you desist from connecting the State Board of Health with any pretended special advertisement of your Powder, and that if you publish Dr. Love's name you omit the title of analyst to this Board—a position he does not occupy.

I am your obedient servant,

ALFRED LUDLOW CARROLL, M. D., Sec. and Ex. Officer.

New York State Board of Health.

## Presentation and Address.

The following address and gift was presented to the Rev. J. Goodwill just as he was leaving the Manse, Kinross, by Messrs. Peter F. McDonald and Albert A. Jenkins, on the behalf of themselves and other members and adherents of the Church of Scotland, at Orwell Head, who have not entered the Union.

REVEREND AND DEAR SIR,—

During your unwearied and indefatigable pastorate of eleven years of arduous and devoted toils amongst us, in the most important and sacred of all vocations, the winning and training of souls for eternal life with our Divine Lord and Savior, who is Himself the Way, the Truth and the Life Eternal, we have learned to respect you sincerely for your manly truthfulness and energy—to love you fondly for your kindly friendship and virtues, and to sympathize with you in your trials and sufferings. How often have we ourselves felt the mighty power of Divine consolation from your words in the Lord's name when we were in trouble! How often have we felt the blessedness of your wholesome words of admonition and even reproof! Such smiling shall not kill, but cure; like the surgeon's skill that wounds to save. How often also have we found the value of your experience, energy and Christian influence; and those of your excellent wife and family! We cannot forget the many improvements made in buildings, and in organization since your arrival amongst us, and we trust the great day will declare that your spiritual labors have been very far from vain and fruitless in the Lord of the harvest!

We regret to think of your removal to a greater distance from us, but we hope the parting will not be without repeated reunions and sunny blinks of Christian fellowship, and we beg of you to accept as a small token of our love and reverence this Silver Tea and Coffee Service which we now offer you with best benisons and loving wishes and heartfelt prayers for the happiness of your dear wife and all your family, here and hereafter, as well as yourself, whom we never can forget.

REPLY.

To Messrs. Peter F. McDonald, Albert A. Jenkins, and other adherents of my charge at Kinross.

DEAR FRIENDS,—I accept with much pleasure this unlooked-for surprise, with the many other kindnesses and attentions both to myself and to Mrs. Goodwill during my incumbency among you.

You have spoken kindly of my labors among you for the past eleven years. I have endeavored to do what I could, and that was not much in a field so extensive. I am happy, at least, to see that there are some in this crooked generation who value truth and straightforwardness, and profit by well-meant reproof when called for; and, above all, I trust the good seed sown may be as bread cast upon the waters, gathered in time to come an abundant harvest.

I can well feel your regret at my removal to a greater distance from you, but distance will only lend enchantment to the view, as I trust by God's blessing we shall yet have much Christian fellowship and times of refreshment from the presence of the Lord in the good work of the kingdom.

I gratefully accept of this, your costly and beautiful present, and will always value it in remembrance of your loyal and steadfast course, and may the richest blessings of Heaven be yours in the heartfelt wish of your minister for you all.

Accept my hearty thanks for your kind reference to Mrs. Goodwill and the children.

Again I say, thank you one and all, my dear friends.

JOHN GOODWILL,  
Minister of the Church of Scotland.

Sept. 29, '86.

## A Rejected Lover's Revenge.

The residents of the hamlet of Napanoch, N. Y., have been in a state of great excitement during the past week over an alleged case of poisoning. Lucas K. Bush resides with his family one mile from the village. James Brodhead, aged twenty-three years, boarding with the Bush family, proposed marriage to the elder daughter. The parents favored his suit, but he was repulsed by the girl herself. Brodhead then transferred his attention to the younger sister, Emily, who appeared to reciprocate his affections. Here another obstacle presented itself, as the parents now opposed the match with the younger daughter. Brodhead, twice baffled, threatened that he would fix the whole family if they would not let him marry Emily. On Thursday of last week Emily was taken ill during the night with violent cramps and vomiting. The water in a pail from which she had drunk was examined, and it was discovered that it contained what was believed to be Paris green. Brodhead was suspected of poisoning the water, and was placed under arrest. He has been placed in jail to await the result of an official examination.

July 16—10 wks

## Rough on Wiggins.

Our esteemed contemporary, the Louisville Times, mildly suggested that if Crank Wiggins' programme for the 29th ult. was not carried out "he ought to be swung up to the nearest limb." Of course, this extreme view is to be deprecated. How is the prophecy business to thrive if everybody who has ordered earthquakes which he can't deliver is to be suspended forthwith? We fear the South doesn't comprehend the Wigginsesque method. Wiggins is to be interpreted by contraries. In the dialect of the wicked, he is to be "coppered." When Wiggins says "Big storm," why, then's the time to cut hay, dry clothes, and go on picnics. When Wiggins says "Cyclones, Earthquakes, Hail, Rain and Wind," put on your straw hat and go a fishing. There is no need of haing the Seer of Ottawa to a tree. He's always up a tree, after his prophetic time table fails to work.—N. Y. Sun.

## A Sioux Enterprise.

A NOVEL FRONTIER MAIL AND TRANSPORTATION SCHEME.

CHICAGO, Sept. 24.—A despatch from Ellendale, Dak., says that the northern Sioux have under headway an enterprise which is at once novel and important. It has been determined by the councilmen of the Sioux nation, as well as by general assent among the people, to establish mail and transportation routes throughout the frontier region which shall be conducted exclusively as an Indian enterprise. The principal part of the work will be done by the young men of the nation, while the older ones will counsel and manage.

All the labor connected with the transportation of mail, passengers and freight will be performed on foot, and athletic young Indians are now in training for their part of the enterprise. The mail carriers will travel by twos and the freight and passenger carriers by fours. It is intended to have the routes embrace every place that is considered a frontier town. Several hundred Indians will be employed, and all must be men of sobriety and honesty. The loads for mail teams will be limited to 200 pounds, and those for freight and passenger teams to 1000 pounds. The mail will be transported according to government specifications the same as at present—daily, tri-weekly, semi-weekly, or weekly.

The mail carriers will travel at the rate of eight miles per hour net; the passenger carriers at the rate of seven miles, and the freight carriers at the rate of five miles. The men will be harnessed to strong but light vehicles, made especially for the work described. Boarding stations will be established every 25 miles and this distance is to constitute a day's travel for each team. Every runner will be required to make three trips per week, a total of 75 miles in seven days.

A term of 90 days is to be the limit of a year's work for one individual. At the expiration of each term the Indians who have been in service are to return to their reservations and their places will be filled by a fresh lot.

The whole business is to be conducted on the co-operative principle. Every member of the Sioux nation will receive a percentage of the earnings after the men who perform the work have been paid their salaries and all operating expenses have been settled. If there are no profits there will be no dividends. There is no doubt as to the ability of those engaged in the project to earn their operating expenses.

## Trade Pointers.

The Gazette points out that the customs receipts at Montreal for the month of September, show a marked increase of over 62 per cent., or \$346,346 over those of the same month in 1885. This indicates a very great development in the important trade of the country, two-thirds of which is handled at that port, and shows that the merchants anticipate a largely increased business during the coming season. There are well grounded reasons for this. Since the beginning of the year the volume of wholesale trade has shown a steady development. The harvest, the Dominion over has been an average one, and has been secured in fine condition. The prices of agricultural produce are not unsatisfactory; those of cheese and butter are fair, if not good, and the falling off in the cattle export trade promises to be more than compensated by the greatly enhanced shipments of sheep, the prices of which, too, in Great Britain, have been steadily on the rise for some time. The export trade throughout is in a flourishing condition. The returns for August, the date of the latest report, show an increase in the month over last year of within a fraction of a million of dollars, \$827,633 being in goods, the produce of Canada. It therefore appears that the country is in a good position to pay for the increased volume of imported goods.

The collections at the port of Montreal for the first quarter of the fiscal year have been as follows:—

	1886	1885.
July	\$947,804	\$834,549
August	735,305	628,777
September	569,945	550,599

\$2,576,056 \$1,983,945

Showing a total increase of \$592,110.

## An International Question.
