

POLITENESS HELPS

MONTREAL—(CP)—Lachine's Police Chief Frank Pitre says Lachine's safety campaign is showing good results. "Instead of parking tickets, we are handing out courtesy notices, requesting cooperation from motorists in cutting down accidents."

FLOWERS FOR HEALTH

MONTREAL—(CP)—Flowers not only add to the beauty of the city, but may actually improve health conditions, says Health Director Dr. Adelaard Groulx. He explained flowers and grass aid in purifying the air because they have a dust-abating effect.

A Hearing Aid is priceless ... but it is often overpriced!

Usually, the more you pay for something you buy, the better the quality. But this is not true when you buy a hearing aid! Prices range from about \$85—the price of a Zenith "Royal" or "Super Royal"—to \$200 or more for other instruments. Zenith believes that no hearing aid need sell for more than \$85. Even if Zenith—with its long and impressive 33-year background in electronics—wanted to build a hearing aid to sell at \$150 or \$200 or more, we could not manufacture a better instrument or obtain more efficient materials than now go into the \$85 Zenith! Yes, only one price, \$85; only one quality—Zenith's finest. (Bone Conduction Devices available at moderate extra cost.) Zenith says to you "Hear better or pay nothing" ... and backs it up with an unconditional, 10-day, money-back guarantee! Zenith Hearing Aids are accepted by the Council on Physical Medicine and Rehabilitation of the American Medical Association. And Zenith urges that you consult your physician before buying any hearing aid.

Send for Zenith's free book containing startling and valuable information about hearing aid claims. It's yours for the asking. Its title: "Frauds and Facts"—and it will be mailed, postpaid, in a plain envelope. Write today to Zenith Radio Corporation of Canada, Ltd., Dept. FD5-0, Canada Trust Bldg., Windsor, Ont., Canada.

Consult your classified telephone directory for local Zenith Hearing Aid dealer.

Eisenhower Names Big Issue For Election Campaign

By DON WHITEHEAD  
ABLENE, Kas., June 14—(CP)—Gen. Dwight D. Eisenhower broadened his free-swinging fight for the Republican presidential nomination today. He named the campaign issue as world peace and security.

At the end of 43 minutes of rapid-fire questions and answers, the retired General had let it be known where he stands on a wide range of subjects. It was a follow-up to his speech Wednesday in which he said the Democrats had been in office too long.

Eisenhower told the reporters and a radio and television audience:

1. The great issue of the campaign is peace and security in the world.

2. He thinks the States should handle the problem of fair employment practices rather than the Federal Government.

3. He believes everyone is entitled to decent medical care—but he's against socialization in medicine.

4. He is against legislation that would compel people to work and believes a way must be found to preserve labor's social gains in a climate of understanding between all groups.

5. He believes in wage-price controls in war time, but in the long run has more faith in the normal influences of supply and demand than in any direct controls by government.

6. He is in general accord with the principles of the Republican policy statement of Feb. 6, 1950, but certain specific details were a little different from what he would say.

7. The government needs a complete overhaul by someone who has not been obligated in the build-up during the last 20 years.

8. He believes if the United States permits Western Europe to fall to Communism, the cost to America will be back-breaking and the nation would be in mortal danger.

9. He has no political ties with the Democratic administration that would prevent him from making a hard-hitting campaign against the Democrats.

10. Because of the enemy build-up across the Yalu River, he does not believe the Allies can win victory on the ground in Korea. He thinks the Allies must stand firm and try to get a decent armistice.

11. He believes the Democrats as the party in power must take some responsibility for the loss of China to the Communists, which he called an "international disaster of the first magnitude."

12. He believes it would be dan-

Allies Claim Victory In Psychological War

By DON HUTH

TOKYO, June 14—(AP)—The Allies are winning the bloodless psychological war in Korea, headquarters said today in taking some of the wraps off leaflets and radio waves.

The Allies found their opponents' tactics clumsy and their propaganda so full of holes that the Communists' own people "are beginning to see through them."

A summary from Gen. Mark Clark's supreme headquarters said the Communists' germ-warfare propaganda "fell apart at the seams" because the Reds "piled lie upon lie until nothing they said was at all credible."

Col. Woodall Greens, head of the psychological warfare program, said the Allies were fighting the battle with "cold hard facts and the honest truth."

Headquarters said interrogations showed 80 per cent of prisoners who gave themselves up voluntarily said they were influenced by Allied psychological warfare.

In contrast, the surrender leaflets the Reds drop in Allied lines are unconvincing, and are so relatively few that they are in demand among Allied soldiers as collector's items.

Col. H. S. Harrison, intelligence chief, gave this summary of Communist tactics:

"Their radio work is mediocre; their leaflets are unconvincing, and their methods of dissemination are crude."

The Communists also set up loudspeakers that blast propaganda across the Korean front.

The Allied air force has blanketed North Korea with more than 1,500,000 leaflets. They contain simple messages and promises of safe conduct.

The Allies also bring loudspeakers up to the front line. The Korean Women's Corps files in planes equipped with loud speakers, broadcasting invitations to surrender along the front.

The Allied radio war goes on around the clock. The Allied command, working with the Korean broadcasting system, operates 12 transmitters in Korea by day. Nineteen other stations in Japan carry on the campaign by night.

Presbyterian Church To Formulate Plan For Lay Preachers

TORONTO, June 14—(CP)—The Presbyterian Church in Canada will determine the place in the church of catechists or lay preachers and discuss regulations to govern them, the 78th General Assembly decided Tuesday.

Rev. F. Scott MacKenzie, chairman of the education committee, which recommended such a scheme, said that four overtures received from Presbyteries indicated concern over the situation. Men were being used as catechists but there was no definition of their posts.

"Some of these men are doing we ought to find some plan, since we desperately need them, where-by we can use them without shooting holes in our education standards," he said.

The commissioners approved in principle a plan whereby permission might be given by the assembly to the general board of missions to appoint to mission fields or other charges under the supervision of the board, men who would be called catechists.

This status would be given them only on application by a Presbytery and after consideration of each case by the board of education and the assembly.

A board recommendation that it work out with the general board of missions details involved in such a plan and report to the next general assembly was approved.

Canadian Pilots And Jet Planes Going To Korea

By DOUGLAS HOW

OTTAWA, June 14—(CP)—Although Canada has decided against sending fighter squadrons to Korea, both Canadian pilots and jet planes are being sent there to help fight the Communists.

The pace of stocking R. C. A. F. squadrons with new jets has been slowed moderately, so 60 F-86 Sabres at Montreal could be sent to United States forces in Korea who have been reported inefficiently to be losing Sabres about as fast as they are being produced in the U. S.

Production Minister Howe recently disclosed dispatch of the 60 planes. He said in the commons "those planes now are in Korea, planes we thought were to equip the Canadian Air Force."

In addition, the Defence Department has reached an agreement with the U.S.A.F. to send a fighter pilot a month up to a maximum of five to Korea to help the R. C. A. F. build a pool of pilots skilled in jet warfare.

Diversion of the 60 Sabres to Korea would eat up roughly two months' production at the Canadian plant outside Montreal.

R.C.A.F. authorities say this has not slowed their program of forming a new squadron every two months. But it will slow the pace at which the squadrons get their complement of fighters.

Canada is turning out Sabre airframes for the U. S., Britain and Canada.

There are two R.C.A.F. pilots in Korea now under the one-a-month scheme, a third is on his way and a fourth will go soon.

It is government policy not to send Canadian jet squadrons to Korea as a unit because of the prior commitment to have 12 of them in Europe by 1945 for the Atlantic Pact alliance.

The two airmen now in Korea are FO. W. G. Nixon of Hanna, Alta., and FO. S. E. Fleming of Hull, Que., and Montreal.

On his way is Fit. Lt. J. C. A. Lafrance of Quebec City. FO. E. A. Glover of Leaside, Ont., is next to go.

One flier is on exchange with a U. S. squadron. He is Fit. Lt. L. E. Spurr of Middleton, N. S.

U. S. Boosts Price Of Copper, Brass

WASHINGTON, June 14—(AP)—The Office of Price Stabilization has decided on a 3.84 cents-a-pound increase for copper and brass products because of the higher cost of foreign copper.

An O.P.S. spokesman said today that the new regulation probably will be issued early next week, to become effective July 1.

The boost was authorized by acting mobilization director John R. Steelman, to encourage resumption of copper imports which have been halted since May 8 when Chile raised its price on United States shipments.

The adjustment is based on the Chilean price of 25½ cents a pound, plus one cent freight cost. This totals 26½ cents above the domestic price of 24½ cents.

Maritime Hospital Ass'n Convention

ST. ANDREWS, N. B., June 14—Ruth Cook Wilson, Moncton, executive director of the Maritime Hospital Service Association, reviewed last year's operation in a report given at the Blue Cross session of the 10th annual convention of the Maritime Hospital Association.

Miss Wilson said that plans now are well advanced for the introduction of a new Blue Cross-Blue Shield subscriber contract which will go into effect in the Atlantic Provinces on August 1. While she did not give any details of the new contract, she said all hospitals would be fully briefed before the introduction date.

The meeting was held under the chairmanship of Neil D. MacLean, Charlottetown, president of the Maritime Hospital Association, and was attended by many of the convention delegates. Among reports given was that of Dr. J. A. McMullan, Charlottetown, chairman of the Maritime Blue Cross. Dr. McMullan's greetings were given in the form of a recording as he is at present attending a Canadian medical convention in Banff.

Dr. O. C. Macintosh, Antigonish, N. S., first vice-president of the Maritime Hospital Association and a member of the Blue Cross board, in his address, emphasized the equal participation of subscriber, hospital and medical representatives on the Blue Cross board of trustees. W. W. B. Dick, C. A., Moncton, spoke of the auditor's report. A. J. A. MacDougall, Saint John, a member of the plan's executive board, also referred to the forthcoming new Blue Cross-Blue Shield contract, pointing out it was the result of careful actuarial study. Donald Downing and T. Ledwell Doyle, associate directors of Maritime Blue Cross, Moncton, briefly addressed the meeting.
