**Electrical Storm Causes Power Blackout At Montague**

Residents of the Montague area were without electrical power during part of Monday night and early Tuesday morning when a transformer in Lower Montague burned out during the electrical storm that hit the province. Officials of Maritime Electric said yesterday that power had been restored to the area early Tuesday morning when maintenance crews rigged a temporary hookup. Late yesterday afternoon, line maintenance men rushed another transformer to the district and electrical facilities were expected to be back to normal this morning. There was also considerable trouble with telephones in the Montague area yesterday. Linemen were busy most of the day running down trouble.

**BRISTOL**

Friends of Mr. Louis Drake, will be sorry to learn of his serious illness in the P.E.I. Hospital. **Early Prorogation Of The Legislature Is Possibility**

The possibility of an early prorogation of the Legislature is foreseen in the remarks of Premier Matheson just before the Legislature recessed at six o'clock. Some thirteen bills received second reading yesterday afternoon when the Legislature met after Easter recess and the Premier noted that at the present rate of going, the balance of the bills on the order paper might be cleared up by this afternoon. He warned members who anticipated speaking on the budget debate to be prepared otherwise they might find the debate concluded. Chief among the bills passed yesterday was an act to amend the Education (Department) Act. Hon. Keir Clark, the Minister of Education explained that the act was to protect the standard of teachers' licenses and to give the teachers representation on the Board. It was being introduced in answer to a request made by the Teachers' Federation, he said.

Legislation endorsing the increase in payment to Old Age Assistance and disabled persons was passed. The payments which are increase from \$46 to \$55 are retroactive to November 1. Premier Matheson said the increased payments have been going out to pensioners all along.

**CHANGE NAME**  
The Prince Edward Island Innkeepers Association from henceforth will be known as the P.E.I. Tourist Association. Strong exception to having the name changed was voiced by M.M. Bell (Liberal 5th Prince).

He said there was nothing in the bill to indicate that the organization seeking a change in name had any intention of establishing

or maintaining a tourist bureau. He said no proof had been submitted why the change should be made, neither could he see why the change was justified.

Mr. Bell moved an amendment to the effect that the organization become known as "The Prince Edward Island Innkeepers and Tourist Association."

A.A. MacIsaac (Liberal 5th Queens) who promoted the bill in the absence of the original promoter F.A. Large (Liberal 1st Queens) explained that only on the Island was the organization known by a name other than the Tourist Association. He said also

that the national organization was known as the Canadian Tourist Association and the change of name was a move to bring the local organization in line with similar organizations across the country.

Premier Matheson said he had no objection to the bill. He recalled that when the same bill was introduced in the House, he had opposed it but since it had now been made clear why the Association was making its request, he could find no cause to oppose it.

Hon. Dougald MacKinnon said the Tourist Association would

Government. Mr. Bell's amendment was defeated after he himself registered the only vote on behalf thereof. The bill was still in committee when the House recessed but all that is required now is second reading.

The Federation of Agriculture will present its annual brief to the Legislature this afternoon at 1:30.
