## G.TOWN WITHOUT CANDIDATES

# Civic Elections Assured In Borden And Montague

Of the province's six incorporated towns, only Borden and Montague were assured of a civic election when nominations for civic office closed yesterday at 4:00 p.m. Complete slates of civic officials were returned by acclamation in Kensington and Souris and Georgetown was without single candidate. In Alberton, nomination day this year is January 24.

With the town clerk reporting that no candidates had nominated before the 4:00 p.m. deadline, Georgetown's citizens now find themselves facing the possibility of being governed by an administration appointed by the Crown.

Under the Town Act provisions, a new nomination day will be set sometime between February 3 and thirty days thereafter. Should citizens still fail to nominate, or nominate in insufficient numbers, vacancies on the council will be filled by the provincial Attorney General.

Three nominations for the office of mayor were made at Borden yesterday, including two members of the former council, F. W. Westhaver and Bernard Fleming. The third candidate for mayor is Gilbert Bell.

Three members of the former council renominated, and four other names were also added making a total of seven nominations for the six council seats, thus assuring a civic election in Borden both for mayor and for councillors.

This was a definite contrast to the last civic election in Borden when less than the required six councillors nominated, resulting in a by-election to fill the vacancies.

Former councillors who renominated yesterday were: Reginald McAleer, A. P. Cereiti, and Russell Deighan.

The four new candidates for office were John Melanson, Chester Lake, Harold Palmer, and Everett McKenna.

One member of the former council, Edgar Campbell, did not renominate.

Willard Leard who served as

3 Canadians Said Arrested By Egyptians

CAIRO (Reuters)—The Middle East news agency reported from Gaza Tuesday that three Canadian soldiers belonging to the United Nations emergency force had been arrested by the Egyptian authorities at a villa there.

The Egyptian government-sponsored agency added that three Israeli girls, brought from Tel Aviv across the frontier into Egypt had been arrested with them.

The UNEF was sent to the Gaza Strip to police the border between Egypt and Israel following the 1956 Suez campaign. The force includes contingents from Canada, Norway and India.

The strip is a part of Egypt, about 10 miles wide bordered on two sides by Israel.

The agency said that Gaza police two months ago suspected that illegal border crossings by Israeli girls were being organized and watched the movements of a Canadian soldier.

Monday, the soldier and two others drove to Israel in a UNEF car and returned to Gaza with three Israeli girls from Tel Aviv, the agency added.

The three soldiers and the three girls were asleep when police arrested them, the agency said.

KIDNAPPING CHARGE NEW YORK (AP)—A grand jury indicted Mrs. Jean Iavarone, 43, Tuesday on kidnapping charges in the abduction of newborn Lisa Rose Chionchio from a hospital Jan. 2. Judge Nathan R. Sobel ordered her committed for mental examination.

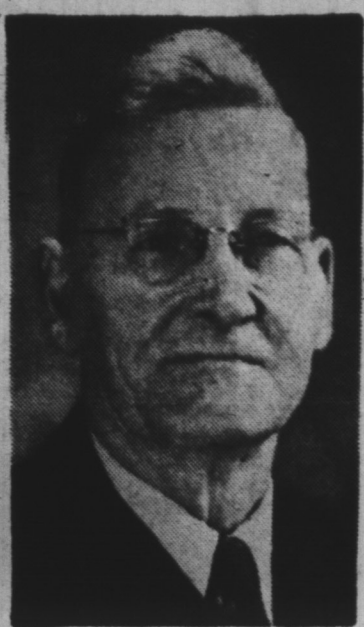

Guilty Of Manslaughter Plea Is Taken In Fire Deaths Case

OTTAWA (CP)—Two men pleaded guilty Tuesday to a reduced charge of manslaughter in connection with a fire that claimed the lives of seven persons here Sept. 13.

BRUCE H. YEO

Borden's Mayor for 20 of his 76 years, retired from civic politics.

WILLARD LEARD

Horace Fraser, who will fill the vacancy created by former Town Councillor Arnold Vanderstine who two months ago resigned in protest of the police situation.

Only Ward Two will be contested as Dr. A. E. Ings makes his first try for civic office, contesting the Ward with former Councillors Gilbert R. Clements and John Hughes' and Frank L. Greene, another new nominee for the same ward

# Kings M.P. Will Press Causeway In Commons

OTTAWA, (Special)—A Prince Edward Island Conservative MP will renew his demand this session that the government give consideration to the advisability of starting construction of the proposed PEI-New Brunswick causeway.

John A. MacDonald, MP for Kings, has re-introduced a resolution he placed before the Commons last session calling up on Ottawa to take such action at an early date.

His resolution is 12th on the Commons order paper. He said he was "hopeful" it would come up for discussion before too long.

"The project is of tremendous importance to the Island and to all other Maritime Provinces to a lesser degree," he said.

COMPLETE SURVEY "Since both a bridge and tunnel, due to initial costs and high maintenance, have been discarded," he said, "the present government has undertaken a complete survey which was carried out last summer and fall.

"During that period I visited the area on several occasions and discussed the various aspects of the project with those actually working on it."

Mr. MacDonald said that although nothing final could be decided until the various data had been "meticulously compiled and the report carefully prepared," he was optimistic of the outcome.

There were many considerations besides the economic problems, he said. The chief of these was engineering which must be assessed in great detail.

Then there was the question of availability of proper material.

Ocean Vessel Reaches Quebec

QUEBEC (CP)—The first ocean-going vessel to call here from overseas during the winter is scheduled to arrive Feb. 11, it was announced Tuesday by the Industrial and Trade Bureau of Greater Quebec.

The 5,000-ton Scandinavian freighter is specially reinforced for winter navigation. Name of the vessel was not available.

She will load cargo here for the United Kingdom.

SEAWAY CRUISE. MONTREAL (CP)—Home Lines announced Tuesday the 2,000-ton yacht Stella Maris will inaugurate a new St. Lawrence Seaway cruise service between Montreal and Toronto, Hamilton and Rochester, N.Y., starting May 9,

## DOWN AT ARGENTIA

# Mikoyan Aircraft Lands With Two Engines Silent

## Argentina Walkout Smashed

By SAM SUMMERLIN BUENOS AIRES (AP)—The government of President Arturo Frondizi Tuesday apparently smashed a nationwide walkout called by Communists and followers of former dictator Juan D. Peron.

"It's all over," declared a spokesman emerging from a long conference in Casa Rosada, the government house.

An order putting transport workers of Buenos Aires under army jurisdiction and threatening them with court martial unless they returned to work appeared to have broken the back of the strike.

Drivers and motormen trudged back to work and buses and street cars began rolling again. Armed police and troops rode the cars and buses and guarded the stations. Rail and subway workers, already mobilized under previous orders, were at work as usual.

HER MAJESTY Queen Elizabeth II and His Royal Highness Prince Philip will spend 12 hours on the island when they arrive at Charlottetown by the Royal Yacht Britannia Wednesday, July 29th. The royal couple will arrive at 10 a.m. from Shediac, N.B., and leave for Imgonish, N.S., at 10 p.m. the same day.

Time of the visit to the Island was announced yesterday by Lieutenant Governor F. Walter Hyndman, who was notified by Lieutenant General H.D. Graham, commissioner for the Royal visit.

Expect Atlas To Burn Today

CAMBRIDGE, Mass. (AP)—Atlas, the satellite that broadcast President Eisenhower's Christmas message of peace, is expected to plunge to its death today. The artificial moon was launched from Cape Canaveral, Fla., Dec. 18.

Scientists predict it may fall in flames between 8 and 10 a.m. EST, possibly near the Hawaiian Islands.

## Queen Will See Remote Spots And Busy Cities

OTTAWA (CP)—Queen Elizabeth, making her third visit to Canada, will see out-of-the-way places as well as bustling cities in her meet-the-people tour of Canada this summer.

Accompanied by Prince Philip, her escort on her two previous trips in 1951 and 1957, the Queen will spend some time in every province, an itinerary showed Tuesday.

The royal couple will also visit the Yukon and Northwest Territories.

Much of the six-week tour starting June 18 will be spent cruising the St. Lawrence and Great Lakes waterways from the east coast into the heart of the continent.

They will depend also on rail, air and highway transport as they move from Newfoundland's lonely shores across the country to Vancouver Island into the Northern Territories.

ARRIVE AT TORBAY Flying from London, the Queen and Philip will arrive at Torbay Airport, St. John's, Nfld., Thursday, June 18. They will leave for

home by air from Halifax Saturday, Aug. 1.

Their itinerary, issued by royal tour officials, left still to be decided the arrangements and actual location for the official opening of the St. Lawrence Seaway, main reason for the visit.

The ceremonies are to take place June 26 and 27 at Montreal, Cornwall, Ont., or both. A special announcement later is to be made concerning the seaway portion of the visit.

The royal couple will visit 78 Canadian centres and Chicago in the U.S. They will visit Quebec's Knob Lake and Gaspere areas, cruise the St. Lawrence with stops at Quebec City, Trois-Rivieres and Montreal and sail the Great Lakes from Kingston to Toronto, Chicago, Sault Ste. Marie, Ont., and the Lakehead.

CROSS PRAIRIES By train, plane and car, they will cross the prairies and the mountains of B.C., with a two-day stop in the Kamloops area for a holiday.

Returning eastward after visits to Vancouver, Victoria and other B.C. points, they will fly north at least to Whitehorse in the Yukon.

The tour will end with a visit to Cape Breton Island in Nova Scotia, before the flight from Halifax back home.

11 Men Quit Burning Plane, Land Safely

OLATHE, Kan. (AP)—Eleven U.S. Navy men bailed out of a burning patrol bomber in a snowstorm Tuesday and landed safely.

Less than two hours after they took to their parachutes, the 11 were accounted for. Officials at the Olathe naval air station said none suffered severe injury.

The men landed mostly on farms near small towns in extreme eastern Kansas. The burning craft—a P-2V Neptune—crashed snow afterward near Olathe, Kan.

BRITAIN THAWS OUT LONDON (Reuters)—As of Britain had abnormally mild but wet weather Tuesday with temperatures nearing 50 degrees in some areas, including London.

McClung snow and rain caused flooding in some rural areas.

## Emergency Landing Is Made In Snow Without Incident

ARGENTIA, Nfld. (CP)—A Scandinavian Airlines System plane carrying Anastas Mikoyan, Russia's deputy premier, home to Europe made a forced landing here Tuesday night with one engine burned out and another out of service.

The big four-engine DC-7C came down at 9:04 p.m. AST. It was escorted for the last 20 minutes by an RCAF rescue plane from Torbay, Nfld., and a London-bound Pan American World Airways plane.

Fire developed in one engine over the Atlantic south of Newfoundland.

The airline said the flight commander was Capt. A. Schultzberg of Stockholm, Sweden. Shore stations received a radio message about 8 p.m. that the pilot was declaring an emergency and heading for Argentina, a United States naval base. He said he was 200 miles south of Argentina.

The plane had left New York for Copenhagen, where it was due this morning.

LANDS IN SNOW All emergency equipment and crash trucks were on the field when the crippled airliner landed. It was snowing at the time but the pilot came in without difficulty after a ground-controlled approach.

Passengers said they did not know their plane was in trouble until they were about five minutes from the field. There were 26 passengers aboard in addition to Mikoyan and his party of five.

Elias Chabin, a New York fur-buyer who was a passenger, said "we were not at all perturbed. It was announced over the plane's loudspeaker that one engine had burned out and trouble had developed in another and the pilot decided to land at Argentina."

"He made a beautiful landing," Chabin said he could speak Russian and talked with Mikoyan and members of his party.

"Mr. Mikoyan remained very calm," he said. "After he got off the plane he strolled around the airport buildings and then

watched some bowlers having a game in a bowling alley at the base."

"Mr. Mikoyan told me he was going to have dinner on the base at the bachelor officers quarters although he had a meal on the plane just before the trouble developed."

TO DINE AT BASE The Russian deputy premier and his party of five were to spend the night in the bachelor officers club, a plush 10-story dormitory with hotel-like accommodations.

A navy base spokesman said the plane made "a routine emergency landing" on two engines. The No. 1 engine was burned out and the No. 4 engine feathered, that is, not in operation.

Scandinavian Airlines said another plane would go to Argentina to pick up the passengers early today.

## Wrong Slant In Lobster Cases Seen

OTTAWA (CP)—Prosecution and fines are the wrong way to go about preventing illegal lobster fishing in New Brunswick, H. J. Robichaud (L—Gloucester) said Tuesday.

The solution is to educate fishermen in conservation practices, he said in the Commons throne speech debate.

"More good can be accomplished by a friendly chat on the wharf or in the country store than by this game of hide-and-seek (by fisheries inspectors)."

Mr. Robichaud urged the fisheries department to divert one per cent of its budget for the fisheries protection branch to the education branch.

If the department persisted in "its rough-tough practices" the problem of illegal lobster fishing and packing would continue and grow worse.

No War In 'Near Future' Mikoyan Declares In N.Y.

NEW YORK (AP)—Anastas Mikoyan ended his two-weeks visit to the United States Tuesday, saying that he did not foresee war in the near future.

Before he left by plane for Moscow to report to the Kremlin on his U.S. tour, he declared: "I do not see any war in the near future."

Before he boarded a Scandinavian Airlines System DC-7C at Idlewild Airport, the Soviet first deputy premier received a telegram from State Secretary Dulles urging friendship of the American and Russian people.

Travelling with Mikoyan was a party of five, including his son, Sergio.

In his parting telegram, Dulles told Mikoyan he was acting on behalf of President Eisenhower, himself and other U.S. officials the Soviet No. 2 man met.

They hoped, Dulles said, that Mikoyan's visit had been of value and that he would give to the Soviet people "an expression of the sincere desire of the people of the United States for friendship with them."

Dulles also hoped that Mikoyan could report to Premier Nikita Khrushchev that Americans desire peace and that they believe, "irrespective of their political party, in the right of people to determine their own form of government."

## Philip To Make New Delhi First Stop On World Tour

NEW DELHI (Reuters)—A Comet IV. airliner carrying Prince Philip here on a two-weeks visit to India Tuesday was diverted to a landing field at Agra, 100 miles south of here because of fog.

He will fly on to New Delhi when the fog clears. His Indian visit was the first leg of a 100-day world tour.

The Queen, looking a little wistful, waved goodbye to her 37-year-old husband as the British Overseas Airways Corporation plane left on the flight due to land here today.

Philip is the first member of the Royal Family to visit India since it gained independence in 1947.

His two-week Indian tour has been mentioned here as the likely prelude to an eventual visit by the Queen. Usually reliable sources forecast that if he is well received Elizabeth will pay a ceremonial visit in the winter of 1960-61.

PACIFIC CRUISE Philip, due back in London on April 30, also will visit Pakistan and cruise the Pacific in the royal yacht Britannia, which he will board in Burma Feb. 18.

The yacht will carry him through the Panama Canal to Nassau, Bahamas, from where he will fly home via Bermuda.

But the travel-loving duke, now on his third round-the-world tour in five years, will have only six weeks in Britain before he and the Queen go to Canada for the opening of the St. Lawrence Seaway. They are due at St. John's, Nfld., by air June 18 and join the Britannia June 20 at Sept. Res. Que.

ATTENDS SCIENCE MEET The main purpose of Philip's current trip to India is to attend the annual session of the Indian Science Congress at Delhi University. But he is expected to tour major cities.

Philip is scheduled to receive a doctorate of letters degree from Delhi University and address a convocation there. He leaves for Pakistan Feb. 4.

The trip began with the Queen, Princess Anne and Princess Margaret waving from a doorway of London airport's royal lounge as the Comet IV taxied away in pouring rain. Prince Charles, 18, was at boarding school.

## PM's Tour Cost \$50,000, Claim

TORONTO (CP)—The Star says in an Ottawa story it has learned Prime Minister Diefenbaker's seven-week world trip last fall cost upwards of \$50,000.

It says most of the cost was for operation of the four-engine C-5 which carried the prime minister's party of 14 plus 14 RCAF crew members on the 30,000-mile tour.

The story adds that Elmer Diefenbaker, the prime minister's brother, two newspaper men and a photographer paid their own way although it was understood the prime minister had provided his brother with \$1,600 to cover the cost.

## WORKED IN SUMMERSIDE

# Missing Airmen Found Safe In N.B. Tuesday

FREDERICTON (CP)—Student pilot Leslie McGinnis returned to Fredericton Tuesday night none the worse for a night in the open after landing his light aircraft on a frozen lake 35 miles northwest of Newcastle.

He was hungry, but uninjured. The 25-year-old construction worker from Red Bank, near Chipman, disappeared Monday afternoon while heading from Saint John for Fredericton on a solo training flight.

He said he had found his fuel supply running dangerously low and decided to come down on the lake 70 miles north of Fredericton. He landed safely and the plane was undamaged. The young airman kept a fire going until his rescue.

(McGinnis is a part time employee of the M. F. Schurman Co. in Summerside. He was working on the Hillcrest housing development in the Prince County town until just before Christmas when work shut down temporarily because of cold weather.)

The area was searched after

Expect Atlas To Burn Today

## Opposition Charges Jobs Program 'Drop In Bucket'

OTTAWA (CP)—The federal government's winter works program, designed to create jobs during the slack winter months, is producing meagre results, Liberal Opposition members charged Tuesday in the Commons.

The question of mounting unemployment and the federal program to help municipalities create winter jobs got the big play during the second day of the 10-day throne speech debate.

Hubert Badanal (L—Fort William), for eight years mayor of the lakehead city, said the government should do more for municipalities than its current program.

The federal assistance—amounting to half the labor costs involved in special municipal projects that would not normally be undertaken in winter—had in fact given work to only 120 men in Fort William, he said.

Mr. Badanal said the govern-

ment should make loans to municipalities at low interest rates. This would enable them to finance public works projects.

Meanwhile, H. J. Robichaud (L—Gloucester) said only about two per cent of the unemployed would get work from the government's highly publicized winter works program. That was only a drop in the bucket and another example of the government's lack of foresight.

Meanwhile, the government issued figures Tuesday showing that at mid-December there were an estimated 440,000 unemployed, 79,000 more than in mid-November and 48,000 more than at the corresponding time a year previous.

OTHER DEVELOPMENTS Other Commons developments Tuesday: House Leader Hazen Argue suggested emergency action on unemployment, such as

reducing the qualifications for drawing seasonal unemployment insurance benefits. Labor Minister Starr replied that such action has not been considered, adding that the special municipal works program will make "quite an improvement."

2. Health Minister Monteith announced he has received a report from Lt.-Gen. Howard D. Graham on Canada's civil defence setup and that he expects to make an announcement in a few days, after cabinet study of the document commissioned last year.

3. Lionel Chevrier (L—Montreal Laurier), former St. Lawrence Seaway Authority president, proposed that Queen Elizabeth officiate at two ceremonies opening the seaway—one at Montreal and another in the waterway's international section near Cornwall, Ont. Prime Minister Diefenbaker said the suggestion would be studied.

McClung snow and rain caused flooding in some rural areas.
