"THE EXAMINER" TAKING NOTES.

THE grounds and buildings on the rising ground in the eastern suburbs of the town, are to-day the scene of busy preparation for the first Provincial Exhibition under the auspices of the Charlottetown Exhibition and Driving Park Association.

The well-known apostle of aestheticism, when lecturing in our Market Hall some years ago, lamented that we sadly lacked a taste for decorative art.

The interior of the building has been made very pleasing to look upon, not by works of art so much as by the simple products of nature under the influences of good taste.

Directly opposite the eastern entrance is a small arch covered by natural grasses, picked and chosen by our Island naturalist, Mr. Francis Bain.

OUR NATIVE GRASSES.

Prince Edward Island was originally a land of the forest, where bright foliaged birches and maples, and dark-cloaked spruces, spread rich umbrage over all its swells.

Some of our merchants, manufacturers, and dealers have shown commendable enterprise in the display of their goods.

Messrs. Beer & Goff, also have a nicely decorated section, in which they, with a prudent regard for the coming winter weather, show two thousand dollars worth of furs.

Foremost among our native grasses stands the June grass, or Kentucky blue grass. This grass does not flourish on poor soils, but on rich lands, as soon as the first breath of spring starts any vegetation, it throws up a rich mat of dark green linear foliage, affording a herbage of the most nutritious and delicate character.

Messrs. Robertson & Co. also show an assortment of interesting agricultural machines.

Mr. Stevenson shows an extensive assortment of hardware and buggy tops; also one of the McLaughlin road carts.

The Charlottetown Woollen Factory are able (notwithstanding the fire) to show about eighty different patterns of cloths of their own manufacture.

Messrs. Beer & Goff make a very noticeable exhibit of teas, flour, canned goods, essences, etc.

Messrs. Plutcher, Miller Bros., and the Willis Piano and Organ Company each exhibit fine pianos and organs.

Messrs. Connolly Bros. show a fine assortment of lamps.

much more productive than they are at present. Wet runs are usually occupied by a thick matted herbage of the prostrate growth of thin grass.

Drop-seed grass—makes a tall growth of coarse herbage on damp lands, affording abundant forage for browsing cattle where the most delicate grasses fail.

Blue-joint Grass—is a broad leaved grass that, on damp rich soils, grows taller than a man's head, affording a dense growth of succulent herbage overtopped by the waving plumes of its delicate, silky panicles.

Canary Grass—crowds the borders of ponds with its broad rich foliage and tall white spikes of useful seeds.

Then the Marsh Grasses—fill the muddy bottoms of tidal streams with heavy growths of harsh foliage, useful as litter, and also for a change of feed in winter.

Our native grasses are valuable for their hardiness. Unscathed by the frosts of winter or burning heat of summer, they spread perennial beauty over every wild, and struggle against every vicissitude to afford nutritious forage wherever earth is hard for their growth.

Even in midwinter the bed of a stream will be green with a fresh carpet of the succulent *Poa perennans*, when all nature besides is locked in icy fetters.

PRODUCTS OF THE SOIL. The flowers and fruits have a prominent place in the middle of the building, directly opposite the entry on either side.

Of roots and vegetables there is an exceedingly fine show, extending all along the eastern side of the building.

There are about two hundred entries of horses, and a hundred and sixty entries of cattle.

Dr. Baynes Successful.

Some time ago we informed readers of THE EXAMINER that Dr. Geo. A. Baynes' application for registration in Nova Scotia was opposed on the ground of his advertising "consultations free," and so being guilty of scandalous conduct in professional respect.

"The Provincial Medical Board of the Province of Nova Scotia to the writ of mandamus bearing date the 28th day of June, 1890, and addressed to the said Board, doth humbly certify and return to our Sovereign lady the Queen at the time and place in the said writ mentioned, that the said Board has on the 15th day of August 1890, registered the name of George Aylmer Baynes; in the Book of Registry of the Provincial Medical Board aforesaid, and has thereby granted a license to practice, phisic, surgery and midwifery to said George Aylmer Baynes, as by the said writ the said Provincial Medical Board is commanded.

In testimony whereof the President and the Registrar of the said Provincial Medical Board have respectively herewith set their hands this 17th day of August, A. D. 1890.

(Sgd.) A. C. PAGE, M. D., President. M. B. (Sgd.) A. W. H. LINDSAY, M. D., Registrar P. M. B.

This decision of the Nova Scotia Board was, we have no doubt, the result of careful enquiry; and it might be as well for the Medical Board of this Province to follow suit.
