## Dissolution of Partnership

THIS is to certify that the partnership heretofore existing between the undersigned, carrying on business under the style and firm of DODD & ROGERS, has this fourteenth day of May, A. D. 1892, been dissolved by mutual consent, and by the retirement of the senior partner. Dated this 14th day of May, A. D. 1892. THOMAS W. DODD, BENJ. ROGERS.

Referring to the above notice, the undersigned begs to intimate that he will continue the business in future under the same name and style of DODD & ROGERS. All liabilities of the late firm will be discharged by him, and all parties indebted to the said late firm, whether by promissory note, book account or otherwise, will be required to make payment of their respective amounts at the place of business of Dodd & Rogers. BENJAMIN ROGERS. Charlottetown, May 14, 1892—Im cod

## "How are you?" "Nicely, Thank You." "Thank Who?"

Why the inventor of SCOTT'S EMULSION

## WHICH CURED ME OF CONSUMPTION.

Give thanks for its discovery. That it does not make you sick when you take it. Give thanks. That it is three times as efficacious as the old-fashioned cod liver oil. Give thanks. That it is such a wonderful flesh producer. Give thanks. That it is the best remedy for Consumption, Scrofula, Bronchitis, Wasting Diseases, Coughs and Colds. Be sure you get the genuine in Salmon cod wrapper; sold by all Druggists, at 50c. and \$1.00. SCOTT & BOWNE, Belleville.

## TO LET.

THE eastern half of House situated on King Street, opposite Judge Beedley's residence. This House consists of eight good rooms, besides pantries, and is in good order. Possession given immediately. Apply to the owner at Southport, Lower Queen Street, or to the owner at Southport. EDWARD KELLY.

## WOODILL'S GERMAN BAKING POWDER

MAKES FLESH AND BLOOD.—When the system is all run down and there seems to be no hope of obtaining nourishment for the body by the ordinary process of food supply and digestion, when the body is sinking fast, there is the time to use Miller's Emulsion of pure Norwegian Cod Liver Oil. It always works wonders, because it is a flesh and blood maker and contains all the constituents for nourishment found in wheat, in fact, Miller's Emulsion is a perfect "staff of life," and has saved and cured thousands. In big bottles 50c, and \$1 at Charlottetown drug stores.

FOR SALE.—One new light Track Sulky, best stock and workmanship, second to none in the Province, worth two imported ones: no expense spared in building it. Also, one Track Sulky, very good and light, only used a few times; best of stock in it. Both sold less than cost for cash. Also, a light set of rubber mounted oak tan harness, to be seen at W. C. Tinsley's next door to Fish Market, Grafton Street. ap30—3 (sat 1st fri) pd

## Horse Notes

The young Proceptor mare Olive, which her owner, Mr. Benjamin Heartz, sent away to be bred last season to Alcantara, 2.23, dropped a filly foal not long since at Highlawn Farm, Lee, Mass., by this celebrated son of George Wilkes and Alma Mater. Olive is only three years old, and her first foal, by one of the greatest sires of the day, should be valuable, as the Wilkes-Nutwood cross is proving to be one of the most successful in the production of sensational performers at an early age. The fastest performer by Nutwood is Manager with a three-year-old pacing record of 2.11, and his dam is Carrie, 2.29, by George Wilkes, 2.22. Of other performers by Nutwood, inheriting Wilkes blood through their dams, I may mention Aegon, three-year-old record 2.16, out of a daughter of Alcantara, son of George Wilkes (Glenview Belle (3 years) 2.20), is out of Melrose, daughter of George Wilkes (Wilkeswood, 2.24, foaled in 1884 (sire of Fleety Wilkeswood, record at 3 years 2.28) is out of a George Wilkes dam. Nutwood sired other performers out of Wilkes dams which I do not recall just now. Then, again, daughters of Nutwood have produced performers of high merit by sires of Wilkes blood. Macley, that took a record last season as a two-year-old of 2.22, was sired by Sable Wilkes, 2.18, the great son of Guy Wilkes, 2.15, brother to William L., sire of Axtell (3 years) 2.12. The dam of Macley is a Nutwood mare. Vida Wilkes, 2.18, and Nutwood Wilkes (3 years) 2.20, by Guy Wilkes, had Nutwood dams. Some of these are on the string of John Goldsmith, now on the eastern circuit, and are expected to capture the heavy end of some of the big stakes. The science of breeding would indeed be at fault if early and extreme speed did not come from a combination of blood of the Wilkes and Nutwood lines.

The dam of Olive is Maud, by All Right, and is owned by Mr. Heartz. Alcantara, 2.23, is a son of George Wilkes, 2.22, foaled in 1876. He is the sire of 38 performers from 2.14 to 2.30, and grand sire of 7 including Prince Regent, 2.16 at five years, whose dam and granddam were both of Wilkes blood. The dam of Alcantara is the great brood mare All Water, still in the breeding ranks on the ranches of W. S. Hobart, California. She is the dam of 5.20 performers, including Arbitrator, 2.23, by Administrator, 3.57, and the full brothers Alycove, 2.27, and Alcantara, 2.23. Her sire was Mambrino Patchen, 3.5, a son of Mambrino Chief, 11. Alcantara Patchen was full brother to the famous Lady Thorn, 2.14, that earned a name which shall live long in the annals of the trotting turf. She trotted 106 recorded heats under 2.30. Her brother, Mambrino Patchen, although never a star of the race course, has won a name no less distinguished as a sire as his sons and daughters have fully demonstrated his breeding-on capacity. Fifty-two of his daughters have produced sixty-two performers in 2.30 list. And such performers as Guy Wilkes, 2.15; Ralph Wilkes, (2 years) 2.15; Baron Wilkes, 2.18; Rosa Wilkes, 2.18; Hour, 2.17; Red Cherry, (2 years) 2.29; &c.

As I have not seen lately by the rules of the standard published in the Island papers, their publication may be appreciated by those readers of THE EXAMINER whose interest is becoming awakened in the breeding and development of the trotting horse, which is yearly becoming a respectable occupation. The following are the rules of the trotting standard:—

- In order to define what constitutes a standard-bred trotting horse, and to establish a breed of trotters on a more intelligent basis, the following rules are adopted to control the requirements of admission and is duly registered, it shall be accepted as a standard-bred trotting animal.
- 1st. Any trotting stallion that has a record of two minutes and thirty seconds (2.30), or better; provided any of his get has a record of 2.35 trotting, or better; or provided his sire or dam is already a standard trotting animal.
- 2d. Any mare or gelding that has a trotting record of 2.30, or better.
- 3d. Any horse that is the sire of two trotters with records of 2.30, or better.
- 4th. Any horse that is the sire of one trotter with a record of 2.30, or better, provided he has either of the following additional qualifications: 1. A trotting record of 2.35, or better. 2. Is the sire of two other animals with trotting records of 2.35. 3. Has a sire or dam that is already a standard trotting animal.
- 5th. Any mare that has produced a trotter with a record of 2.30.
- 6th. The progeny of a standard trotting horse when out of a standard trotting mare.
- 7th. The female progeny of a standard trotting horse when out of a mare by a standard trotting horse.
- 8th. The female progeny of a standard trotting horse when out of a mare whose sire is a standard trotting horse.
- 9th. Any mare that has a trotting record of 2.35, or better, whose sire or dam is a standard trotting animal.

There is also a standard for pacing bred horses similar to the above except that pacing records must be in five seconds better time in all cases than a record under the trotting standard. John H. Steiner, Chicago, is the Registrar of the American Trotting Register Association. His salary is \$5000 per annum. SHAWMUT.

## Obituary.

The people of Lower Montague and vicinity were greatly shocked to hear of the death of William Meggett, Esq., which sad event took place on Wednesday morning, June 1st, at the age of 46 years. Mr. Meggett was a native of Dumfriesshire, Scotland, and emigrated to this Island about five years ago, having accompanied C. C. Gardiner, Esq., on the voyage across the Atlantic. On arrival he was employed as farmer for Benj. Heartz, Esq., at his farm in Charlottetown R. Valley, and subsequently filled a similar position with Dr. Beer, thereby making himself acquainted with the capitalists of this province. Finding the result satisfactory, Mr. Meggett purchased the splendid farm at Lower Montague, formerly owned by Mr. James Phillips, and for the past two years has been successfully working on that place. During his short residence among the people of Lower Montague the deceased showed his many excellent qualities, and last winter was elected President of the Lower Montague branch of the Farmers Trading Association. The fatal illness only began on Friday last and was a violent form of pneumonia, with other complications. The funeral ceremonies at the residence were conducted by the Rev. Mr. Spencer, of Montague, who made a feeling address on the merits of the deceased and the bereavement of the widow and two daughters, who in so short a time have been left to mourn. Rev. Mr. Opie, of Montague, conducted the service at the Methodist cemetery at Lower Montague. After the neighbors and friends had performed the last sad duties at the grave, Geo. B. Aitken, Esq., called on those present to adjourn to the Hall in the vicinity for the purpose of organizing to assist the widow in completing the planting that had been so sadly interrupted; and arrangements were subsequently made for that purpose. Mrs. Meggett and her daughters, who have no relatives in this Province, have the sincere sympathy of all the people of Montague, to which we respectfully add the condolence of THE EXAMINER.

## LETTERS TO THE EDITOR.

Football. SIR,—In last evening's EXAMINER there appeared an article on football signed by "Spectator," who wastes almost a quarter of a column of your valuable paper in endeavoring to show the public, and more particularly footballists, his ignorance of the game. Does Mr. Spectator understand plain English, or is he ignorant of that also? Did he not see that in my quoting of that sentence it was to show the conditional use of "should" which, I think, was very fairly explained. Was I wrong when I asserted that the P. W. C. team asked the ball to centre field? Was it not by a vigorous scrimmage that the ball was exposed for the F. W. C. quarter, who quickly passed to the half-back, thus enabling him to carry the leather to centre field? Nor did the forwards loiter at their goal-line while this was being done; but quickly followed up.

Here, again, "Spectator" becomes terribly vexed. Oh, how hazy are his notions of football! Or were his eyes serving him well? Perhaps that run was too much for his organs of sight. At all events, did he not know that when the ball was secured from the scrimmage and kicked, or rather dribbled, down over the goal line by the P. W. C., that they had seventy-five yards of the field to their backs, the scrimmage having taken place at the twenty-five of their opponents' territory. Now who ever heard of a captain ordering not to pass at their opponents' twenty-five, or of kicking under similar circumstances, as the P. W. C. did. None, I would venture to say, except "Spectator." Further, "Old Rugby" never said the ball was "kicked into touch and there touched down," which the "Spectator" accuses him of saying. Does "Spectator" not know the ball is dead when in touch? Does he not know that it is only behind the goal line, and not inside the touch line, that the ball can be touched down. In conclusion, I would strongly advise "Spectator" to furnish himself with the necessary football apparel and repair to the Campus Martius as often as possible in order that he might learn some of the fine points of that noble game before again attempting to dictate concerning it through the press. OLD RUGBY.

DAMAGE BY LIGHTNING.—On Thursday afternoon lightning visited the farm of Major Tucker, on the Sand Cove Road, about three miles from St. John, and did considerable damage. About three o'clock, says the Telegraph, the farm hand was engaged at work about 100 yards from the barn, when he heard a crash, and looking up, saw that the lightning had struck and ripped open the roof of the building which had also taken fire. He immediately rushed to the barn and found that of the major's herd of six registered Jersey cattle, five had been killed, and not one of the others of the herd. The cattle were all lying on their sides, facing in one direction, and had apparently been killed instantly. The man at once, in some way which he cannot now explain, rolled the injured cow out of the barn, and it is hoped that she will be saved. There were two horses in the building and they jumped when the roof was shattered and escaped through the open door. The barn burned fiercely and very rapidly, and though the neighbors hastened to the spot and worked vigorously, it was impossible to save more than some of the smaller buildings connected with the main barn. SHILOH'S CURE will immediately relieve cough, whooping cough and Bronchitis.—Reddin Bros. nov1dy

World's Columbian Exposition, Chicago, 1893.

THE Government of the Dominion of Canada has accepted the invitation of the Government of the United States to take part in the World's Columbian Exposition, to be held in Chicago from 1st May to 31st October, 1893. As it is important that a very full display of Canadian products be made on that occasion, a general invitation is extended to Canadian producers, agriculturists, horticulturists, miners, manufacturers, etc., etc., to assist in bringing together such a display of the natural resources and industrial products of Canada as will be credit to the country. An Executive Commissioner for Canada has been appointed, who will have the general charge of the exhibits and the allotment of space, and the several Provincial Governments have been invited to co-operate with the view of making the exhibition as complete and satisfactory as possible. The Dominion Government will pay the transport of exhibits going and returning, and for the printing of articles sent. Entries must be made not later than 31st July. Descriptions of articles at the Exhibition building will be furnished on 1st November, 1892, and all exhibitors, except Live Stock, must be in place by 1st April, 1893. Forms of application for space and general information can be obtained on applying by letter post free, to the undersigned. W. M. SAUNDERS, Executive Commissioner for Canada, Department of Agriculture, Ottawa, 26th April, 1892. may19

FRANK C. MORAN.

## "I Itched Intensely!" A TERRIBLE SKIN DISEASE

"OF Eight Years' Standing" "PERFECTLY CURED" BY Skoda's Ointment and Discovery. LESTER, ME. GENTS—I wish to inform the suffering through you that SKODA'S GERMAN OINTMENT and SKODA'S DISCOVERY will cure the worst skin disease to be found. This statement may seem strong, but I think a true statement of my own case, will convince the most skeptical. For some eight years I have had a terrible skin disease from which I have suffered untold misery. I have tried Physicians of repute and about all the so-called "skin cures," but the result was failure. My body was covered with white scales, I itched intensely, and when I would rub or scratch the scales off, a burning THAN sensation such as only those afflicted as I was may know, tormented me. My skin was so dry that my elbows, knees, hands, etc., would crack open so badly that they would bleed freely. My scalp was so that I could not comb my hair, and had to keep it clipped close to my head. I have now used a half dozen bottles of SKODA'S DISCOVERY and about eight ounces of SKODA'S GOLD OINTMENT. The result is that I am PERFECTLY CURED. My skin is as soft as an infant's. Instead of tormenting I have sweet sleep at night, and a good head of hair. FRANK C. MORAN.

Guarantee with Every 6 Bottles. SKODA'S OINTMENT, the Great German Skin Cure and Discovery, is sold in 3 ounce tubes. Price, 50 cts. Try a tube. SKODA DISCOVERY CO., Wolfville, N.S.
