

The Daily Examiner

NOVEMBER 28, 1885.

The New Time Table.

By reference to the winter arrangement for the running of trains on the Prince Edward Island Railway, to be found in another column, it will be seen that a new departure has been taken, so far at least as the running of the Tignish train is concerned. In other years, a cause for complaint on the part of through passengers from Tignish, Alberton and other western points, was the length of time it occupied to travel to and from Charlottetown. The force of this objection has been recognized by the Railway authorities, and an effort has been made to remove the cause. This has been accomplished to as great an extent as is possible, with the train service now at the Superintendent's disposal, as our readers will see. Between Charlottetown and Summerside, and vice versa, the Tignish Through Train will be run as nearly as can be done in the winter season on Express Train time, thus reducing the running time between these points to a minimum. The train leaving Tignish at 6.47 a. m., local time, will reach Charlottetown at 3.17 p. m., local time, remaining one hour at Summerside. This is, we believe, the quickest time made by train, under the winter arrangement, between Tignish and Charlottetown since the road was opened; and we have no doubt, the change will be duly appreciated by the travelling public. Owing to the fact that it is necessary to give parties west of Summerside, coming by train to that town, time in which to transact business and return home on the same day, the run from Charlottetown to Tignish cannot be made in the same time as the run inward. Under these circumstances, the delay of the outgoing train at Summerside, which to some may appear unnecessary, is unavoidable. Between here and Summerside this train will, we understand, do as little freighting as possible. The great bulk of the freight work between these points will, during the winter, be done by the Summerside train.

The speed of the Eastern trains is also somewhat increased. It will thus be seen that on no part of the road will more time be occupied in running the trains than will be absolutely necessary to perform the work required to be done. Another commendable feature of the time table under consideration is, that passengers from the west for points east of Royalty Junction can reach their destination on the same day.

Editorial Notes.

Referring to the result of the last St. John election, the Hamilton Spectator says:—"Once more the reformers have gained a great moral victory in St. John. The Conservative candidate will have all the substantial rewards of success. He will sit in the House of Commons, draw his indemnity and vote with the Government. The reform candidate has the proud satisfaction of knowing that he would have been elected had a greater number of people voted for him. He will also have the advantage of being able to give his undivided attention to his private business."

The true inwardness of the Premier's mission across the blue water has been discovered by our lively contemporary, the New York World, who thus "gives the whole thing away." "It has long been known," says our esteemed confrere, "that Sir John's power has been waning; accordingly he has proceeded to England to secure an appointment which he has long coveted, the Governorship of the West Indies, and an ultimate peerage, with an official standing as one of the Queen's advisers."

The Spirit of the Press

MOWAT'S ANNUAL DEFICIT.

Last year Mowat had a deficit of \$300,000, and this year he will meet Parliament with a very much larger one. The Grit papers will please publish this announcement in capital letters.

DEDICATED TO THE GRIT PARTY.

There are some people, calling themselves Liberals, who seem to be under the impression that they have found the materials of a new party in the discards they have so unpatriotically evoked. The bare idea that a party based on race hatred should have the stable support of both races seems absurd. Its foundation would be as unstable as it would be discreditable. Is Mr. Blake, the pronouncer of the murdered Scott's funeral oration in Parliament, going to lead a party based on sympathy with Riel?

RIEL'S WORK IN THE NORTHWEST.

Mgr. Grandin, bishop of Prince Albert, officiated at the service in the Roman Catholic cathedral yesterday, and delivered an eloquent sermon on the work of the Catholic missionaries in the Northwest, and spoke of how the work had been interrupted by a half-breed chieftain with extravagant notions, who had urged the people into rebellion, and told them not to pay any heed to their priests, who, though they were authorities on religion, did not understand politics. The preacher went on to depict the ravages caused by the war, and spoke in feeling terms of the two noble missionaries whose lives had been sacrificed by the rebels. The missionaries in the Northwest had been most devoted in their work, and had been the means of bringing wild, barbarous tribes of Indians within the pale of Christianity.

THE PUBLIC HEALTH.

NEW CASES.

Last evening attention was first called to the case of Rosa Wood, in the house of Mr. McCloskey, Pownal Street. The Health Officer believes that there was no intentional concealment of this case, and the reports about town are unfounded. No new cases to-day.

CONDITION OF PATIENTS.

Dr. Jenkins reports that Mrs. Forrest is still very low, but holds her own; Miss Somers and Miss Carver are also very ill; the other women are progressing very favorably. In the men's ward, William Allen is very low, but exhibits a slight improvement. John Crockett is also very low, but the improvement in him is more marked; Music had a rather restless night but seems better; Way is also very low, but shows signs of improvement. All the others are progressing favorably. Miss Power is very low and cannot long survive. The patients in town, viz.: Misses McLean, Walsh, Callaghan and McPherson, Dr. Cox's child and Tynan's child, young Thompson, Mr. Redmond, and Mr. J. W. Mitchell are all reported "doing well." In those cases, with one exception, the power of vaccination is apparent. Mr. B. Dawson slept last night, and is rather better to-day.

DEATHS.

Mr. Duncan's child—a little girl aged about twelve years—died last evening. Miss Kate Dunn died this morning. Dr. Jenkins reports that she had been very low for some time, and her throat, which was affected, closed, and she died asphyxiated.

DONATIONS.

Miss Carroll, Queen Street, one barrel apples; Edward Robson, late Belfast, mending blankets, sheets, pillows, and pro serves; ladies, Park Corner, per A. C. McLeod, underclothing and old linen.

THE CHURCHES.

Service will be held in Zion Church tomorrow, at the usual hours. The Rev. Dr. Fitzgerald will hold service in St. Paul's Church, to-morrow, Sunday, morning at the usual hour, 11 o'clock. There will be no evening service and no Sunday School.

A meeting of the Protestant Clergy of the city was held at the residence of the Rev. Job Shepton this (Saturday) morning.

The Rev. Mr. O'Meara having notified the meeting that, owing to the inability of Dr. Fitzgerald to do regular duty on account of ill health and the fact that by the rubrics of the Church of England he (Rev. Mr. O'Meara) was unable to avail himself of the kind and Christian offers of assistance made him by his brother clergymen throughout the city, St. Paul's Church would have to be closed if he continued to visit regularly the smallpox patients.

It was moved by the Rev. Mr. Rice and seconded by the Rev. Mr. Whitman, and carried unanimously:

That as it is now hoped that the disease is well under control, we notify the Health Officer that each Protestant Minister is ready to attend to his own parishioners when called upon to do so.

All services, morning and evening, in all churches will be held as usual to-morrow, with the exception of St. Paul's, in which there will only be morning service, at 11 a. m., by the Rev. Dr. Fitzgerald. The Sunday Schools continue closed for to-morrow.

Preaching in the Baptist Church, Prince Street, to-morrow morning at 11 o'clock, and in the evening at 6.30. Subject in the morning: "Our late experiences, and the lessons they teach us." In the evening: "Our mercies greater than our miseries, or some reasons for thankfulness."

Service will be held in Prince Street Brick Church and Upper Prince Street Church to-morrow morning and evening, but there will be no Sabbath School.

PRECAUTIONS FOR LOTS 33 AND 34.

At a meeting of the Board of Health for Townships No. 33 and 34, at Brackley Point Road, Nov. 24th. Present—Abraham Gill, Esq., Chairman; Henry C. Lawson, Ralph Mabon, Alexander Scott and J. McWilliams. It was

Resolved, That all Churches, Schools, and all other gatherings of the public be suspended in said Townships until Wednesday, the 7th of December next.

Resolved, That the house and premises of Mr. McEwen's, on Brackley Point Road, formerly occupied by the widow of the late Robt. Stewart, be quarantined, and that a person be appointed to keep watch that there be neither ingress nor egress to said premises.

Further Resolved, That Mr. Wm. Roberts continue said watch, and that Mr. Scott apprise him of such appointment.

Further Resolved, That in case Mr. Roberts refuse to act, that Mr. Scott shall have the authority of this Board to engage another. J. McWILLIAMS, Secretary.

A FAVORABLE REPORT FROM VICTORIA.

A correspondent at Victoria writes: "The patient, Neil Pemphrease, under the care of Dr. J. F. Covey, Health Officer, is doing well. So far, he is isolated in his own house. The rest of the houses flagged were all relieved to-day. Great hopes are entertained that we will be able to confine the disease to the house of Pemphrease. The Board of Health have bought a house and are fitting it up as quick as it possibly can be done. I see the Patriot says Pemphrease caught the disease at the wake. Such a report is not the case. He got it in the Rocklin House where he slept, and no other place. Great sympathy is felt for Mr. Pemphrease and family. He is a very industrious man, and no doubt being laid up at this time of the year will fret him considerably, and make his trouble bear harder on him. The want of nurses is very much felt. None have been procured as yet. Hon. W. W. Sullivan deserves the thanks of the people of this part of the country for the manner in which he responded to the calls of the Board of Health of Victoria."

ONE OF THE QUARANTINED.

Sir,—During the excitement arising from the presence of smallpox in our midst for the past two weeks, every possible effort has been put forth by our medical men and the Board of Health to check the disease and allay the fears of the people. Too much praise cannot be awarded to those who voluntarily gave their services to the interests of the public at this critical period, and the care taken to trace out and isolate every suspected case. Although at first sight it appeared rather an arbitrary act to flag dwellings and place a guard upon them, yet the precautions adopted have been of the greatest utility in checking the

epidemic, by preventing that thoughtless intercourse which would tend naturally to spread the disease. To those watchmen in charge of the suspected houses we would award the credit of faithfully discharging their duties, while always ready to do whatever lay in their power to supply the wants of the isolated, the cheerful call at the midnight hours of "All is well," gave a sense of security and peace. We have great reason to be thankful that this terrific scourge has been to a large extent stopped, and if proper care is taken by each family to use common caution in disinfecting their dwellings and out-buildings, and remaining at their own homes until all danger is past, the disease will be stamped out.

Thanking you for granting a space in your journal to express my thankfulness,

I remain,
ONE OF THE QUARANTINED.
Ch'town, Nov. 28, 1885.

ORWELL BOARD OF HEALTH.

A meeting of the newly constituted Board of Health for Lots 49 and 50 will be held at Seal River schoolhouse on Monday, 30th November, inst., at 3 o'clock, p. m.

The Montreal Gazette has a despatch which says: "There are now about one hundred cases on the Island. Ex-Mayor Dawson is down with the disease." Our esteemed contemporary has, we are glad to say, been misinformed.

Private advices say that the smallpox is spreading greatly in Sydney, and that the health officers are keeping things quiet.

VACCINATION.

Dr. T. Garceau, of Boston, says: "One thing which should be followed closely is vaccination, for I regard that as the preventive against the disease. It is not a sure preventive against the disease, but it always serves to make the disease of a much milder type. Universal vaccination is, however, a sure and certain preventive against epidemics of smallpox. Where smallpox breaks out and finds victims whose conditions are highly favorable to the disease, it is bound to spread, and will go on doing so, if all the cases are not isolated, until the two tidal waves—that of the disease and that of vaccination—meet. This opinion is based on the past experience of epidemic in cities throughout the world."

"There are several very good vaccine 'firms,' chief among them being that of the New England Vaccine Company, of Boston, who have been continuously engaged in the propagation of pure and reliable bovine vaccine virus for the past fifteen years, and are thus enabled to maintain an even standard in the quality of their production which can only be acquired by careful observation and study of the subject, combined with actual experience in all its details. Beginning in a small way, when the use of Non-Humanized vaccine lymph was comparatively unknown, their patronage has steadily increased from year to year until now they can justly claim the most extensive business of the kind in the world, having among their patrons the Boards of Health in many of the largest cities in the United States and Canada, together with the War Department of the United States, whose entire requisitions for vaccine virus they have received for the past eight years."

NOTES.

Michael Bourke, the patient at the Quarantine Hospital, is doing well. The crew of the Lucy Pope are all well.

The Mrs. Smith mentioned as one of the patients in the Smallpox Hospital, in Mrs. Hugh Smith, of Pownal Street, and no connection of Mr. H. B. Smith, of the Dominion House.

It has been currently reported on the streets that Miss Rosa Wood, the patient removed to the Hospital last evening, was not recently, a servant at Mr. Theo. L. Chappelle's residence. This is untrue, as the girl has not been in Mr. Chappelle's employ for some weeks.

It is pleasing to know that the Churches are to be opened to-morrow; but it is hoped that those who live in the infected districts and houses, and those who are unvaccinated, will have the good sense to stay away.

Jumps to Her Death

The most dreadful accident which has occurred in Woodstock, N. B., for some time, happened on the 25th inst. Mrs. R. B. Jones was thrown from a sleigh and instantly killed. Mr. Jones is manager of the Manchester House, and both he and Mrs. Jones are well and favorably known. A deep feeling of sorrow over her tragic and sudden death is expressed by the whole community. It appears that Willie Albert, a colored boy, was driving Mrs. Jones to evening service, about 7 o'clock. When coming down the street towards the bridge, the horse, which was not a particularly unmanageable animal, started to run away. Mrs. Jones, evidently fearing an accident, jumped out. The boy, who soon had the horse under control, turned and went back. The town marshal, who witnessed the mishap, was immediately on hand. The unfortunate woman was taken up and carried into Mr. Sprague's office, but by that time—though only a minute or two elapsed—life was extinct. She never uttered a word nor showed a sign of consciousness after the accident. She was young and active, and her death will leave a blank in a very wide circle of friends and relatives, and her loss to her little children will be irreparable.—Tel.

SHIP NEWS.

OTHER PORTS.
