BRIGHT'S DISEASE CONQUERED.
Enterprise, April 13.
Gentlemen,—Five years ago I fell with a
bag of grain, which caused weakness in my
back, and also brought on an attack of
Bright's disease, and which caused me to lose
considerable in weight. After wearing your
Pad for six weeks, I gained 13 pounds. All
pain and weakness has left me. I would
have been yet in the doctor's hands, had it
not been for my using your Kidney Pad.
Signed, W. FENWICK, Miller.
THE ONLY PERMANENT CURE.
Tamworth, April 13.
Gentlemen,—I was troubled with painful
back, and could not retain my urinal secre-
tion, from painful inflammation of the bladder.
I have been treated by a dozen physi-
cians to no purpose, but have worn your
Special Pad six weeks. The pain, swelling
and inflammation are gone and I am well.
Your Pad is the only cure for kidney disease.

ALL PRAISE THEM HIGHLY.
Tamworth, April 13.
Gentlemen,—An accident 12 years ago
wrenched my back. I could hardly walk, and
never lifted anything. The Pad purchased
from Mr. Jas. Aylsworth has nearly made me
as strong as I ever was. I know of several
being used, and all praise them highly.

Temperance.

To the Editor of the Examiner.
DEAR SIR,—Through the medium of your valuable EXAMINER, you handsomely make known the status and progress of our young Islanders when they leave home and make their mark for good in the land of their adoption.

Joseph R. McLean, the writer of the enclosed letter, a native, born at Cardigan River, was a young man serving his time as an apprentice to the late Mr. McDonald, who was Superintendent of Public Works for King's County. When induced him to join the "Diamond of the Desert" Division of the Sons of Temperance in Georgetown. He was faithful to his obligations and rose to the highest honor in the Division, and left a good and true Son of Temperance.

I will feel thankful by your granting his letter a place in THE WEEKLY EXAMINER, as it may be an inducement to others to follow his example.
Your very truly,
W. SANDERSON.

OFFICE OF THE GRAND SCRIBE,
No. 1621 O'FARRELL STREET,
SAN FRANCISCO, Feb. 19, 1883.

William Sanderson, Esq.

DEAR SIR AND BROTHER,—I have received the Journal of your G. D., and I find that you are still living and that the old "Diamond of the Desert" Division, No. 9, is yet at her post. I thought it was my duty to drop you a line, and I am still a Son of Temperance, that I have maintained my pledge which I took in your Division and maintained my honor and am now for three years the G. S. of California. I have stood by our old Order, and expect to do so as long as I live. I have seen much of the world since I last met you, and have never failed to raise my voice in favor of humanity. I wish I could go back and look at the old lights and speak a word or two to all that I might meet. When you receive this, you speak a word for me to all the old members. Tell them that I took an obligation in that old Hall when but a boy, to promote the harmony, advance the interests, and preserve unimpaired the reputation of the Sons of Temperance, that I have maintained that obligation and have never lost it, and I am here in this Golden State working for temperance and humanity, although I am thousands of miles away, that there is need of temperance work. If I only could tell you one-half the good I have done; the many homes I have made glad; the many miserable victims I have restored to manhood; you would certainly say with me that I may feel proud that I became a Son of Temperance, and if I may never be spared to meet you, I have many times thought of you, and you have my never-ending praises for being the instrument to have me a temperance man.
I remain, yours fraternally,
Jos. R. McLEAN
G. S. of Cal.

Temperance in King's County.

To the Editor of the Examiner.

DEAR SIR,—The Vigilance Committee met in Red Point School on March 24, to unite themselves into a compact body with determination to uphold the cause they had taken in hands. No doubt it will be a hard battle, but nothing great is gained without trying for it, and the victory then is more gratifying. Soberly may talk and say that it is no use to try to suppress liquor, for it has gone too far. It is a vice that is so well established that it appears at first sight to be an almost useless undertaking to uproot it. Well, we do not say, nor boast that it can be entirely exterminated, but a great check can be put to it. If it only could be suppressed so long that even those who drink it to excess could see how much better they were without it. That would, in itself, be a worthy point gained. We have always taken notice that when a law is passed in civilized countries that it is generally followed, and people obey it without a murmur. But here we have the Scott Act, an act sanctioned by the people, their Representatives and the Privy Council in England, and still some have the audacity to say that it is not lawful. If it be not lawful, then it follows that there is not a legal act on our Statute books. The sum total of the affair is this, that people lack the energy to carry it out and enforce it properly. If all true friends of temperance would rally together with both might and right on their side, the liquor evil would soon dwindle away and become a dark thing of the past.

Our first meeting, sir, as you are aware, was held about the middle of February, and it was then decided to proceed at once with the prosecutions, but the local J. P.'s not being very well posted in the intricacies of the act, the committee decided that in case of a failure it would be better to have legal advice. Accordingly, a deputation was sent to Georgetown where the court was being held, and E. J. Hodgson, Esq., kindly consented to furnish all necessary documents after his return to Charlottetown. This necessitated a delay in the proceedings, but finally the papers arrived, when it was found that special constables would have to be appointed. Everything is now accomplished, and all that has got to be done is to serve the papers and proceed with business. War has been declared, not against the liquor sellers, but against the curse to mankind—the curse that gradually but surely destroys morality, makes children homeless and forces them to curse those who brought them into the world—the greatest evil that exists, and the primary cause of almost every other evil. How many of us will stand idly by and not lend a helping hand in this worthy undertaking? I venture to say there are not many, and any who are so wrapped up in their own selfishness deserves to be simply "boycotted."
It was decided at the meeting in Red Point, that in the next report the names of the Committee be published in the papers.

The names of the Committees are as follows:

- Little Harbor—John Foley, Andrew Mooney, A. A. Campbell, Luke Power, Jos. McLellan, Malcolm O'Hendly—6.
- Chepatow—Jos. A. McDonald, John Cummins, Patrick McDonald, Allan H. McDonald, Dan. Nolan—5.
- Greenvale—Michael Mooney, George Mooney, R. R. McDonald, Donald A. Campbell, Hugh McDonald—5.
- Red Point—D. M. Campbell, A. M. Campbell, John D. McDonald, John Robertson, Thos. Robertson, Isaac Stewart—6.
- West River—A. Robertson, Alex. Spitt, Sr., Alex. Scott, Jr., J. M. McLeod, A. W. Bruce—5.

Yours, &c.,
FRED. F. HARRY,
Secretary.

DOMINION PARLIAMENT

NOTES OF THE SESSION.

ADVANCE IN STOCKS.

Since the delivery of the Finance Minister's budget speech on Friday evening last there has been an appreciable advance in stocks, which for the week previous held a steady downward tendency.

REPORT OF DEPARTMENT OF THE INTERIOR.

The report of the Department of the Interior was laid on the table to-night, and shows that the condition of the entire population under jurisdiction of Lieut.-Governor and council of Northwest continues to be satisfactory. Probably one of the most striking indications of rapid settlement of Northwest is to be found in the augmentation of the business of the department. In 1881 the number of letters received and handled by the department was 29,434, while during 1882 the number reached 55,800. Still more striking is the summary of returns from various land agencies. While in 1881 the number of entries was 5,819, making up 1,057,519 acres, those totals last year had increased to 16,740 entries, and 2,699,145 acres. The receipts from lands in 1882 were \$16,183.66, which compared with receipts of previous year shows an increase of \$1,266,366. To this has been added the sum of \$547,711 derived in 1882 from sale of colonization lands, and \$6,780 derived from miscellaneous sources, the total increase of a annual receipts in 1882 over 1881 will actually amount to \$1,819,857. In addition to the area of land thus shown as disposed of, three million acres have been granted to colonization companies. It is also worthy of remark that while the income from Dominion lands since the establishment of Interior Department to close of 1881 amounted in all to \$820,000 the sum realized during the past year alone was \$1,350,000 more than for all previous years put together.

MANUFACTURE OF SPIRITS.

The total quantity of spirits manufactured in Canada from 1868 to 1882, both years inclusive, was 54,993,866 gallons, paying a duty of \$47,445,679. The number of gallons of spirits imported for consumption during the same period was 49,743,240, upon which \$42,130,423 duty was paid. The total quantity of malt liquor produced in the country since Confederation was 28,495,494 gallons, upon which \$226,342 excise duty were collected. The total quantity of grain entering into the manufacture of spirits in fifteen years was 1,063,925,006 pounds; molasses, 74,965 gallons; sugar, 2,201,629 pounds. Quantity of malt used, 399,927,788 pounds; sugar and other substances, 1,785,819 pounds. The production of spirits in 1882 was greater than in any year since 1874, while the production of malt liquor was larger by over two million gallons than in any previous year. The following table shows the quantity of spirits imported and manufactured and malt liquor produced in Canada each year since 1867.
