WHERE DOES THE DOLLAR GO ?

Everyone likes to keep track of the money he earns.

At Imperial Oil, accountants keep **close tab** on every dollar the company receives. Auditors and government tax people **double check**. Of every dollar of Imperial's income last year...

About 52 cents went to purchase **raw materials** including crude oil (we pay freight charges out of this too).

Roughly 30 cents went in **operating** and administrative costs, including the wages of Imperial's 13,000 employees.

10 cents went in **taxes** to federal, provincial and municipal governments. (This did **not** include provincial road taxes.)

About 4 cents went back into the business to help **replace** worn-out equipment and provide for future needs.

About 4 cents went in **dividends** to the company's shareholders.
