CONT'D FROM PAGE 4.

ourselves with no outside help. We didn't need people from away to make us buy 20 million bucks worth of booze every year. And P.F.A. didn't make us drink it either. And you thought I was crazy. Look at yourselves!

Trebor

Dear Disgruntled,

With regards to your comments on Radio CIMN's coverage of the hockey Panthers, I take special reference to several of your accusations. Firstly if every "goddam" time you turn on your radio, there is a hockey broadcast, you are listening to Radio 700 on weekends only and during a 2 and a half hour span on each of these days (exception being Wed. Nov. 9).

I also do not like being called an idiot. I take my job seriously and so does my partner, Gus Gaudet. Just because you don't like the most widely played sport in our country, don't call those who do, idiots. It is far from nonsense. It is a wonderful game, played by dedicated athletes. This

is not a jock school nor is it a music school. It has a good cross-section and for that we should be thankful.

I know for a fact that we have a good number of listeners, including the residences.

If you are truly upset by the fact that we broadcast hockey, then you should come to the next council meeting.

John Neville

Sir:

Here we are once again immersed and plunged, like it or not, in the seasonal ball games; baseball, football, etc. At other times it is golf balls, basketballs, not counting the upcoming hockey balls (pucks), all this interlaced and interwoven with tennis balls and ping-pong balls.

Big balls, small balls, hard balls, soft balls, or other kind of projectiles to be thrown, shoved, plowed or pushed towards all kinds of receptacles by hands or feet or with the help of all kinds of contraptions or combinations of instruments.

It seems that our pleasure-loving advanced

civilization demands the adoration of the movement of a small or large ball or similar object, and its placement in all kinds of containers or predisposed geometrical and geographical configurations.

This kind of recreation is naturally milder compared to the expectations of our Roman ancestors even if at times some of the results would make us wonder.

However, for some of us it means that we have to be pre-empted of other optional recreational programs which we must admit, as most TV viewing, are not overwhelmingly educational or inspirational but at least generally of a mild, relaxing content, and most of all, of relatively short duration.

Far from our mind to imply that these games are not respectable or do not in themselves involve great skill as well as endurance, or are of less importance than jumping, running, swimming, sky-diving, conquering a certain amount of obstacles by oneself or elegantly mounted on one of our animal brothers. But please give us a break and cut down the dose.

"La plus belle femme au monde ne peut offrir que ce qu'elle a et rarement plait a tout le monde."

Sincerely,  
C.F.T.E.D.

(The Committee for Fair Television Entertainment Distribution)

Dear Editor,  
I am writing this to complain about the terrible reception of CIMN radio on the Island Cablevision system. The sound is distorted, and the words printed on the

screen are barely readable. When I phoned the station to complain, I was informed that the reception problem is caused during transmission between UPEI and Island Cablevision, and not by any equipment owned or operated by the university radio station.

Apparently, there is a bad connection somewhere that is causing another station to interfere with CIMN, resulting in the audio and video distortion. I wish that someone would put pressure on Island Cablevision to correct this problem immediately, so that university students living in Charlottetown can continue to enjoy the music which is available on CIMN Radio.

Yours truly,  
A. Student.

Dear U.P.E.I. S.U.N:

I'm a prison inmate incarcerated for 5 to 8 years. A good buddy put me on to your paper. Said you might be willing to run a free Classified Ad for me. And they said that the free lunch program had been axed!!

It sure gets pretty lonely in here and I'd love to be able to write to one of your readers, especially a woman. I am very much interested in corresponding with someone who wouldn't think of me as a corrupt individual. But rather as one who has made a mistake of which I am now paying for and am truly sorry about.

So... hoping you just might find the space to squeeze this ad into your columns, I'll say "many thanks" and be forever grateful.
