When you add it all up...

WHEN you consider the men, women and money needed to operate 3,700 branches—you see what is involved in looking after the greatly increased demands made by busy Canadians upon their chartered banks.

In ten years... with bigger staffs and higher wages, payrolls have jumped from \$40 million a year to \$102 million... taxes, federal, provincial and municipal, have risen from \$9.5 million to \$20.7 million a year... interest paid to depositors has increased from \$22 million to \$57.8 million a year.

And these are only three of many expense items. Yes, today more than ever, it costs money to run a bank.
