## MORE COMPLAINTS FROM SAVAGE HARBOR.

Sir—The new road through this settlement is a disgrace to the Government and the public officials. The old road is obstructed, and the new road is more like a crazy quilt than a road, as it has been done in patches. Some of those patches are not even passable, as the light of a match is not sufficient after night to show up rocks and roots. There is no getting in or out without endangering property. Who is paying for the opening of the said road—the Government or the Supervisor? If the former, why not do their own whining and barking about the cost of it? If the latter, that accounts for his whining and barking. Or were there any grant allowed for the opening of this unfinished road, which was to be opened the first of this month to the public. If all the petitions prayed for at the last session for the opening of new roads are obstructed as this one has been for the last five years I sympathize with the parties in question. I hope that every honest-minded Liberal will discover their mistake before the coming election as I think the country needs a change of officials as four years is ample and sufficient to sport a boiled collar and government coat; a longer term might deprive them of the memory of the dear old homespun jackets.

Many thanks to THE EXAMINER for space in its precious columns in turning the search-light on the neglect that is monopolized by the officials in the finishing of the road, and also the neglect of the annual work to our public roads, thus depriving the people of their rights to the most beautiful spot in the province. When Bridget was asked to make an apology she said, "How can I make it, ma'am, without butter or eggs to make it?" Not so with this road. There is neither butter or eggs or an apology wanted, as there are plenty men ready with lots of material to do the work, and do it well, if paid for their services.
