A WICKED DARKEY.—A humane lady in the west of Ohio, during the rush of contrabands thither, took pity on a poor ragged boy of decidedly dark complexion, and gave him a home in her family. After being decently clothed Jack was as happy as a rebel in a Union prison, and soon was as fat as a prize hog. The good woman was pleased with her success, and all went on swimmingly until one day she heard him use the Lord's name in anything but a reverent manner. Calling Jack to her, she proceeded to lecture him on the enormity of the deed, telling him that he would certainly go to Foplet unless he stopped swearing.

"What kind of a place am I at?" "It is a lake of fire and brimstone." "Fiar and brimstone, missus!" "Yes, and you will be put into it and burned for ever and ever." "But poor Jack burn all up, missus." "No, you won't, you'll keep burning, and never be consumed." "But I could never stand it." "You will have to stand it, replied the woman, wome what at a loss to make him understand her meaning. "Well," replied the juvenile contraband, "if I ken stand it I don't care a straw." And immediately began to whistle "Down in Dixie."

An Ohio editor has recently had a fine shirt collar presented to him and is now waiting for some one to give him a shirt so that he can put the collar to some use, saying "that at present it was a perfect superfluity." An exchange paper, under the head of "good advice," tells the young men to wrap themselves up in the future. "That would, in our opinion, be rather thin covering for some of the young men of our town. Alexander Dumas the elder, returning from a day's sport at the country seat of a friend with a perfectly empty game-bag, was asked: "Well Dumas, what have you killed?" "Time," was the quiet reply.

A promise should be made by the heart, and remembered by the head. Perfection is attained by slow degrees. Bear your cross worthily and it will turn to an anchor. Look before you leap. We can only know ourselves through the constant study how to govern ourselves. The mind is like a trunk. If well packed, it holds everything; if ill packed, next to nothing. A traveller coming up to an inn door, said to the landlord, who was standing on the porch, "Pray, friend, are you the master of this house?" "Yes, and have been so for just five weeks." "But are you not the same landlord who has kept the house for many years past?" "Yes," "Why, then, do you say that you have been master of it for only five weeks?" "Because that is the precise period since my wife died."

SHARP.—A humorous fellow was one day subpoenaed as a witness on a trial for assault. One of the counsel, who was notorious for browbeating witnesses, asked him at what distance he was from the parties when the assault happened. "Just four feet five inches and a half." "How came you to be so exact fellow?" said the counsel. "Because I expected some fool or other would ask me and so measured it."

Agricultural.

MAKE THE FROST AID YOU.—Few are aware of the beneficial effects upon all kinds of soil, and especially upon heavy land, of a thorough freezing and thawing. Eight cubic feet of water freezing, swells to nine feet at least. Soils filled with water expand in the same way. The water dispersed all through the pores when freezing, cracks and pulverizes the soil, and fits it for plants, and releases much plant food. This freezing also kills many insects, insect eggs, and weed seeds. It is wise, then, to plow fields and spade gardens into furrows and ridges in autumn, so as to let the frost down as deeply as possible. This can be done at any time before the ground becomes solid. If so wet that it packs, the freezing will lift it up again. The operation pays well. If the ground be left in ridges, with deep dead furrows or ditches, it will drain and dry off, and become warm a week or two earlier in spring, which is an important gain for the cultivator at that season of the year.

WHY THE BEST FLOUR IS CHEAPEST. Two dollars extra on the price of a barrel of flour will secure a much superior quality. Any one who will devote a little observation to the subject will notice that with poor bread people eat from one-quarter to one-half more butter than they do with that which is of a superior or extra quality. If we reckon on one-quarter more, it will be seen by the calculations of the preceding item that \$2 saved in the price of a barrel of flour involves \$5.62 more expense for butter, or for other condiments to make the poorer bread palatable.

REMOVAL.—To begin the new year aright, when it comes, the old year must be finished rightly. Farmers are very apt to run into careless habits about their accounts—not so much in money matters as in their store bills, especially where the farm products are seldom sold for money, but are exchanged for family groceries. Go over all accounts and get ready to commence with a clean balance-sheet January 1, 1867. A plain account book has prevented many a lawsuit, for it is the very best witness a man can take into court, provided it has been regularly and accurately kept.

MANURE.—We do not approve of hauling out manure in the winter, and spreading it or leaving it in heaps on the land. It may be moved to distant fields when the sledging is good, or their laid in compact heaps trodden down,

New Triumphs of Rogers' Medicines.

Run your eye over them and tell your afflicted neighbour about it. From the Halifax "Citizen."

A VALUABLE REMEDY.—As a general rule, we do not endorse, editorially, any of the numerous notices of popular medicines, that from time to time appear in the advertising columns of our paper; but we depart from our usual custom to-day to direct attention to the advertisement of Rogers & Co's. Medicine, because we believe the facts disclosed in the advertisement are such as to justify, if not call for, such special attention. The facts of the case detailed in the advertisement are placed beyond dispute by the certificate of the High Sheriff of Cumberland, and ten of the most respectable and well known citizens of Amherst, so that there is nothing of mere puffing about it, but a truthful statement, that ought to be laid before sufferers afflicted as young Copeland was. The character and social position of Mr. Rogers, who is well known over a great part of Nova Scotia, is sufficient to say that this is no mere quack nostrum, made only to sell, and put money in the pockets of speculators, at the expense of the credulous and unfortunate.

NAPAS, Cumberland Co., N. S., July 23, 1866. MESSRS. ROGERS & Co. —

Gentlemen—Your medicine has done such wonders for my son, that I feel it my duty to make the case public, for the benefit of others. The facts of the case are as follows:—

About three years ago he took a severe cold; it settled into his limbs; he suffered most excruciating pain, he was often out of his mind. The doctors called it Inflammatory Rheumatism. About three months his arms and legs— which were very much swollen— ulcerated, and continued to discharge freely for sixteen months, and he could only get about on crutches. Numbers of pieces of bones came out of the sores on his arms and legs. We heard of your medicine, and concluded to try it. My son is now well, and walks to and from school about a mile. I may say that your medicine has transformed him, by the blessing of God, from a puny, sickly cripple, to a cheerful, lively boy; the change is wonderful. I hope I shall ever feel grateful for the great blessing. Yours respectfully, OSCAR F. LOWE.

PUGWAH, August 28, 1865. MESSRS. ROGERS & Co. —

Gentlemen—Your medicine cured my wife of a most distressing case of hip disease; and as some persons seem disposed to misrepresent the case, I give you the following facts in relation to it; to all of which I am prepared to make oath, and prove by many other witnesses if necessary:—

Three years ago she fell upon the ice, and broke or injured the bone of her hip. She was confined to her bed for three months. She then recovered and got comparatively well, and continued so for nearly twelve months, when her hip began to get painful, and swelled and broke, and discharged freely, and in great quantities. She suffered most excruciating pain; it broke in three places. The doctors were attending her, but could not cure; in fact we gave up all hopes of her ever getting well. The doctors told me that she never could recover? We, however, thought we would try your wonderful medicine as a last resort, and she soon began to improve, and in a few months she was able to attend her domestic duties. The sores all healed up, and she got as well as ever she was, with the exception of a little hitch or limp in her walk. She died last fall; but there was no symptoms of the old complaint. She was entirely cured of that. She died from other causes. ARCHIBALD DAWSON.

MRS. WINSLOW, An experienced Nurse and Female Physician, presents to the attention of mothers, her

SOOTHING SYRUP, FOR CHILDREN TEETHING.

which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay all pain and spasmodic action, and is SURE TO REGULATE THE BOWELS. Depend upon it, mothers, it will give rest to yourselves, and

Relief and Health to your Infants. We have put up and sold this article for over thirty years, and can say, in confidence and truth of it, what we have never been able to say of any other medicine—never has it failed in a single instance, to effect a cure, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this manner "what we do know," after thirty years' experience, and pledge our reputation for the fulfillment of what we here declare. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the most experienced and skillful nurses in New England, and has been used with never failing success in thousands of cases. It not only relieves the child from pain but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC, and overcome convulsions, which, if not speedily remedied, end in death. We believe it the best and surest remedy in the world, in all cases of Dysentery and Diarrhea in Children, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—do not let your prejudices, nor the prejudices of others, stand between your suffering child and the relief that will be sure—yes, absolutely sure—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None Genuine unless the face-smile of CUTLIS & PERKINS, New York, is on the outside wrapper.

Sold by Druggists throughout the world. Principal office, No. 48 Dey Street, N. Y. Price, only 25 Cents per Bottle.
