SCOTTISH GATHERING.—The caterers for this celebration on Wednesday next, John Murphy & Son, are making extensive preparations. Dinners, luncheons, &c, will be served in first class style. TRACED TO A DOG.—Thirty cases of diphtheria and three deaths at Akron, O. have been traced by the local health official to a dog owned by the milkman who supplies all the families afflicted. The dog was suffering from lumps in the throat and a cough. Since the dog's removal, a week ago, no new cases have developed on the route.

PARTIALLY RESTORED.—Mrs Jonathan Rowe, of South Atkinson, Me, who has been totally blind for twenty years, experienced an odd partial recovery of her sight a few days ago. She suddenly became able to see quite distinctly one afternoon about 2 o'clock, but her vision was totally obscured again in two hours. Since then she has been able to see every day between about 2 and 4 o'clock in the afternoon, but during the rest of the 24 hours she is as blind as formerly.

A HANDSOME HORSE.—One of the handsomest carriage stallions on this Island is owned by Mr. Walter Walsh, of New Perth. This horse is a beautiful silver grey, and was sired by Physician, dam by Old Sea Gull, from which the horse takes his color. He is five years old, and it would be hard for the connoiseur of style and finish to find a flaw in this beautiful animal. Mr. Walsh is a busy man and has little time for training, but he intends to exhibit this horse at our coming exhibition.

CHEAP TELEPHONE SYSTEM.—It is stated that a number of farmers living ten miles west of Yankton, South Dakota, have established a telephone system covering eight miles of fence wire. The farms in the vicinity are surrounded by barb wire fences. Each farmer is supplied with a transmitter at his house, connecting with the middle wire of the fence. The staples have been removed from this wire and insulated fasteners substituted. A cell battery has been constructed and the farmers are now able to converse with each other. The expense for the entire system did not, it is said, exceed $25.

A GOOD IDEA.—Messrs. Mark Wright & Co's. employes have engaged Batt's tug for an excursion to New Glasgow, N. S., on Monday. Sells Bros. Circus shows at New Glasgow on that day, and the main object of the excursion is to see the circus. The boat will leave here at an early hour on Monday morning (about one or two o'clock) and will return in the evening. It is expected that the excursionists will be in New Glasgow in time to see the parade in the forenoon and "take in" the show in the afternoon. Mr. Wright has kindly consented to close up the factory on Monday and will accompany the excursionists.

BAND STAND.—The band stand in the gardens will be completed by Monday night, and on Tuesday night the Citizens' Band, which has been engaged especially for the occasion by Mr. W. F. Carter, will give one of their popular promenade concerts. The contractors for the erection of the stand have made a good job of it, and to-day Mr. Edmonds is painting it up. Mr. Waddell has kindly consented to donate the electric lights, and he with Mr. Carter and the citizens committee, Messrs. Hughes, Beer and McLaren, are deserving of credit for their action in the matter. The stand is surmounted by a flag-staff, but as yet no one has come forward with the offer of a flag. Messrs Carter and Waddell have done well in supplying music and light; who will supply the flag?

LETTERS TO THE EDITOR.

THE RAILWAY TIME-TABLE.

SIR,—I read with interest Father Burke's statement re the railway time-table, and having lately been at the west can bear out what he says. Though not in favor of clergymen taking an active part in politics, I do wish that we had in this community more such public spirited men as he is. It is now evident that we cannot always trust the official wisdom in the making of our time tables. The public opinion ought to be ever on the alert for the best connections and ready to force them upon the attention of the authorities. I should like to know why the second train from Tignish could not leave there at 12.40 as well as at 9.40, and afford an opportunity for persons to go as far west as Port Hill or Bideford, do business, and return the same day?

WIDE AWAKE.

SPORTING ODDS AND ENDS.

The wheelmen are training hard for the approaching races.

The Defender in Saturday's race made faster time by six minutes than was ever made before over the America cup course 15 miles to windward and return.

A race meeting will take place at O'Leary, on Tuesday, August 13th next. The programme will consist of a three-minute class, green race and free-for-all.

At the Blue Ribbon meeting at Detroit, Mich., a few days ago, in the 2.11 trot, William Penn made a mile in 2.07¾, breaking the world's record for trotting geldings.

In the race for 40-rater yachts at Kingtown, on Thursday, the Britannia defeated the Ailsa. The Britannia's time was 4 hours, 17 minutes and 31 seconds. Ailsa did not finish.

The Amherst Press says that Messrs. A. G. Bloomvvist and Frank Weir rode from Amherst to Cape Tormentine, Wednesday, a distance of 38 miles in the fast time of 2¼ hours.

The programme for the race meeting, to be held on the Driving Park, at Charlottetown, on the 21st and 22nd August will be found elsewhere in to-day's issue. It is a good one and should draw.

A telegram from Dallas, on the 23rd, stated that the advance sale of tickets for the Corbett-Fitzsimmons fight had been phenomenal, more than $35,000 worth having being sold up to date.

There will be flat races, ¼ and ½ mile, hurdle and sack races, 100 yards dash, 220 yards, pole vaulting, one mile and five-mile bicycle races (gold medals) and other interesting events at the Scottish Gathering on 31st July. Don't miss it.

Sporting Life says that the official nominations for the Derby of 1897 include by Mr. Lorillard four colts and one gelding by Sensation; by Mr. Crocker, eight colts by Hanover; by Mr. Keene, one colt by Candlemas and one filly by Gaillard. For the Oaks of 1897 Mr. Crocker has nominated one filly by Minting and one filly by Merry Hampton.

Beauty unadorned may do in poetry, but the nicely fitting gown is the desire or every true woman. Priestley's dress fabrics have done much to realize a woman's ideals by offering, in their texture, appearance, fit and wear, a character and distinction, which no other dress goods, however excellent, have quite attained to. And now Priestley's have something new. The "Eudora" is all the rage. It is even better than the Henriettas so much admired. The "Eudora" has something which the Henrietta lacks—to wit: greater width greater weight and a superior dust shedding quality. And then it has an exquisite surface which gives it an almost regal presence. Wrapped on "The Varnished Board" and the name Priestly stamped on every five yards. 246.

GENERAL TELEGRAPHIC NEWS.

ROME, July 25.—Baron Blanc made a statement in the chamber of deputies today in which he said there was complete entente between England and Italy throughout the Nile Valley and East Africa. All Europe, he said, recognized Italy's position in Abyssinia except France and Russia, and even they had not protested against it.

SHANGHAI, July 25.—The provisions of the new Franco-China treaty regulate the commercial relations between the southern Chinese provinces and the adjoining French territory, grant new trade ports and reduction of duties and give French engineers the first right to exploit mines.

BOSTON, July 25.—Rev. Peter Thos. Stanford, an evangelist from Birmingham, England, led an impromptu and sensationally novel religious meeting day on the street of the negro section of Boston. As he was passing along he chanced to notice a quartette of colored banjo and guitar playing minstrels and asked them to play "Jesus, Lover of My Soul." They did so, and soon the narrow way was crowded with singing and playing African Americans. The scene attracted a great crowd of sightseers, who evinced emotion at the earnestness of the preacher and listeners.

OTTAWA, July 25.—Hugh Sutherland, N. Boyd, M. P., and C. C. Carlyle, lately Canadian agent in Newfoundland, had a talk with the deputy minister of marine yesterday on the subject of the navigability of Hudson straits. They are anxious that some suitable craft be despatched to these waters in order to ascertain the exact length of the season of navigation that can be depended upon. Their impression is that the real difficulty likely to be encountered at late and early season is with the ice in the straits. As far as the bay itself is concerned, they say there is evidence that it may be safely navigated a month later in the year than navigation is possible to Montreal. Should this opinion prove to be correct it would be possible, with a railway to Hudson Bay, the promoters claim, to remove the great bulk of the Northwest wheat crop before the close of navigation in the same year.

LONDON, July 24.—Truth prints a despatch from Carlsbad saying Prince Ferdinand of Bulgaria told some of his friends that he had telegraphed to his ministers that he would return to Sofia immediately, but the ministers replied that they would resign if he returned just now and advised him to remain abroad for the present.

TORONTO, July 25.—When the Orange supreme grand lodge of Canada meets in Halifax on Tuesday, an effort will be made to secure legislation to the effect that supreme grand lodge officers must not belong to political associations. The case in point is that of Supreme Secretary Birmingham, who is also organizer for the federal Conservative party.

LONDON, July 25.—The Duke of Cambridge, commander in chief of the British army, in the course of a speech at Richmond yesterday, referred to the statement that perhaps he would ere long abandon command of the army. He said if it would be to the country's advantage that arrangements for another commander in chief be made, he did not wish to stand in the way. He was quite ready to retire, but he was still vigorous and wished it to be clearly understood that he never desired to leave the position he had occupied for 30 years.

MONTREAL, July 24.—A special cable from London says: "There is good authority for stating that the British government has agreed to grant a subsidy, which in conjunction with aid granted by the Canadian and other governments, will enable the Halifax and Bermuda cable to be extended to the West Indies. Departmental details are being now fully arranged for the grant. This matter is of the highest consequence to Canadian trade with the West Indies, which is now altogether dependent upon American cable channels."
