

FAMINE IN RUSSIA

Europe Just Beginning to Realize its Terrible Extent

The European correspondent, Harry Norman, cables the Boston Herald as follows:—"The Russian famine is on a scale which Europe is only just beginning to realize. All the provinces of Middle-Volga district, thousands of square miles in extent, and in the center of the empire are on the verge of starvation. In four of the provinces children are dying by wholesale, and every portable object that the peasants own have been sold. The seed grain supplied by the government had been eaten for food. In the province of Samara similar conditions exist. The Russian Red Cross Society admits that at least 23 per cent of the people have no prospect of any official assistance, and must be supported by private charity or die."

ESTEEMED EXCHANGES.

Montreal Gazette: Mr. Tarte, in his speech in Parliament on Tuesday night, referred to the somewhat frequent statement that he runs the Government. He doesn't seem to have directly denied the impeachment, however. He has an awful load on his political shoulders.

The Guardian: We have not reached the end of our resources in the discussion of the Scrimgeour case, and if the warehouse is continued there are some thousands of decent order loving electors who will demand to know "the reason why" when another election comes around.

DEAR SIRS,—I have been a great sufferer from rheumatism, and lately have been confined to my bed. Seeing your MINARD'S LINIMENT advertisement, I tried it and got immediate relief. I ascribe my restoration to health to the wonderful power of your medicine.

A Good Watch Is ruined, not by time, but by bad handling. Properly cared for, it would last a lifetime. To run well, it should be wound regularly, and cleaned at least once every 18 months, as in that time the oil will have lost its lubricating qualities and the wheels begin to wear. We do good watch repairing and charge moderately. W. W. WELLNER, The Great Watch House.

There is Nothing like pleasing customers. That's what we are doing all the time, we give them such value for their money that they come back again and bring others with them. MASTER OF THE ADMINISTRATION AGAIN!

Another Temperance Victim of Tarte's Wrath.

WINNIPEG, April 3 —A significant dismissal is that of the principal of St. Paul's Industrial school, Rev. M. Fairlie, whose management of the institution was recently investigated by the Indian commissioner. Very serious charges were laid against Mr. Fairlie, implying misconduct with the pupils, and his removal from office is undoubtedly the result of the enquiry though the public has been kept in the dark as to the evidence given. It will be remembered that when Hon. J. I. Tarte visited Manitoba, a couple of years ago, Mr. Fairlie refused to accommodate the party who were entertaining the minister at the school, because he claimed that liquor was to be used at the luncheon. The incident caused a bit of a sensation at the time.

DIED.

At Charnwood, on March 29th, Mary C. Leslie, daughter of Margaret and William Leslie, aged thirty years.

The man with a weight on his leg can't hope to win in the race. A man with a weight on his life can't expect to compete in life and business with those who are not handicapped. If his brain is heavy, and his blood sluggish, because of constipation, he will not succeed in doing anything very well. Constipation is the cause of nine-tenths of all the sickness. Symptoms of it are: sallowiness, listlessness, poor appetite, bad taste in the mouth, dizziness, biliousness, and lassitude. Constipation can be cured easily and certainly by the use of Dr. Pierce's Pleasant Pellets. They are not at all violent in their action, and yet they are more certain than many medicines which are so strong that they put the system all out of order. The great advantage of the "Pleasant Pellets" is that they cure permanently.
