

Making Farmers of Farmers' Sons.

While so many ill-paid workers are jostling each other for the means of a bare existence in the large cities, it must be a source of regret to any thoughtful observer of current affairs that the rank of this large class is continually being recruited from the agricultural population of the country.

Farmers' sons, as a rule, commence life with reasonably fair prospects. They have not much money to spend, but they have plenty of good wholesome food and a sufficiency of comfortable clothing.

To one unacquainted with the details of country life in Canada, it would seem strange that boys should be apt to stray away from such a certainty as this to tempt the uncertainties of life in the large cities.

That greatest mystery of Time, were there no other, the illimitable, silent, never resting thing called Time, rolling, rushing on, swift, silent like an all embracing ocean tide, on which we and all the universe swim like exhalations, like apparitions which are, and they are not; this is forever, very literally a miracle—a thing to strike us dumb—for we have no word to speak about it.—Carlyle.

What is time? The shadow on the dial, the striking of the clock, the running of the sand, day and night, summer and winter, months, years, centuries, these are but arbitrary and outward signs, the measure of time, not time itself. Time is the life of the soul.—Longfellow's Hyperion.

A man of ability, for the chief of his reading, should select such works as he feels are beyond his own power to have produced; what can other books do for him but waste his time or augment his vanity?

I love to lose myself in other men's minds. When I am not walking I am reading. I cannot sit and think; books think for me. I have no repugnance. Write it on your heart that every day is the best day in the year. No man has learned anything rightly until he knows that every day is doomsday.

Free Trade. The reduction of internal revenue and the taking off of revenue stamps from Proprietary Medicines, no doubt has largely benefited the consumers, as well as relieving the burden of home manufacturers.

Kind words, and liberal estimate, and generous acknowledgement, and ready appreciation and unselfish delight in the excellence of other—these are the truest signs of a large intellect and a noble spirit.

Scott's Emulsion of Pure Cod Liver Oil, with Hypophosphites is not only very palatable, but the remedial power of these valuable specifics is greatly increased, and as a remedy for consumption, scrofula, emaciation, or where there is loss of flesh and nerve power, it is remarkable in its results. Take no other.

A wise man's heart is like a broad hearth that keeps the coals (his passions) from burning the house. Good deeds in his life are coals raked up in embers, to make a fire next day.

Sunbeam.—Just as there comes a warm sunbeam into every cottage window, so comes a sunbeam of God's care and pity for every separate soul.

THE SCIENCE OF LIFE. A Great Medical Work on Manhood. Exhausted Vitality, Nervous and Physical Debility, Premature Decline in Man, Errors of Youth, and the untold miseries resulting from indigestion or excesses, a book for every man, young, middle-aged and old. It contains 125 prescriptions for all acute and chronic diseases, each one of which is irrefragably proved by the Author, whose experience for 25 years is such as probably never before fell to the lot of any physician. 200 pages, bound in beautiful, French muslin, embossed covers, full gilt, guaranteed to be a finer work in every sense than any other work sold in this country for \$2.50, or the money will be refunded in every instance. Price only \$1 by mail, post-paid. Illustrative sample free to any body. Send now. Gold medal awarded the author by the National Medical Association, the President of which, the Hon. P. A. Hissell and associate officers of the Board, the reader is respectfully referred to.

The Science of Life is worth more to the young and middle-aged men of this generation than all the gold mines of California and the silver mines of Nevada combined. The Science of Life points out the rocks and quicksands on which the constitution and hopes of many a young man have been fatally wrecked. The Science of Life is of greater value than all the medical works published in this country for the past fifty years. Mention EXAMINER AND ARGUS, Charlottetown, P. E. Island, May 13, 1886—eod & wky
