Our town is different. We are one of the few tobacco centres in Canada. Rich crops are grown and cured around our friendly community.

Yet, in many ways, we are the same as your town. We have the same kind of people . . . hard working, honest, friendly people . . . take the Commerce manager for instance. He has helped us with many of our problems.

Yes, our town is different but the people are the same. And the men and women at your Commerce branch are good people to know.
