Earlarning Fire Razes Farm Buildings

GEORGETOWN - A fire of unknown origin which was discovered between 3.30 a.m. and 4 a.m. Thursday morning, destroyed two barns, a machine shed, and a hen house, owned by John Murphy, about one-quarter mile outside the town limits.

The fire was noticed by one of the occupants of the house looking out from a bedroom window and Mr. Murphy's son Joseph made an effort to get cattle out of the barn before the fire broke through the door, forcing the interior a mass of flames. He proceeded immediately to Georgetown by truck, and gave the alarm.

The town fire department was quickly on the scene with a tank truck, but could do nothing to save the burning buildings. The nearby farmyard was protected with water, as it was becoming hot. No wind was blowing which possibly saved the house from destruction.

Lost in the fire were a four-wheel tractor, a combine harvester, a Holstein heifer, two brood sows, 35 hens, about 2,000 balles of hay, a rotary digger, a hay mower, a field sprayer, a hay rake and a binder.

Renowned Blind Organist Opens N. American Tour

The first recital of a North American tour will be presented Thursday, Nov. 5 at the United Church, Charlottetown, by a renowned European organist, Martin Giesemann of Hamburg, Germany.

Professor Giesemann, a blind virtuoso, has taken the organ master-class at the State Music High School in Hamburg.

YOUTH 6 LEADS GUILTY TO CHARGE OF ROBBERY

SUMMERSIDE - Grant Cowl, 16, of Summerside, was remanded in custody on a robbery charge before Magistrate Hinton, in town police court yesterday.

DIEFENBAKER

(Continued from page 1) Grant Deschamps (L.-Vancover) and Ernest Frederick Jewell (C.-Quebec) were charged with conspiracy to defraud the public.

Ernest Frederick Jewell of the Court Oct. 30 yesterday when he appeared before Magistrate A. H. Haslam, Q.C. on a theft charge.

Of 10 persons charged with being drunk and incapable, four were fined \$20 and costs or 20 days; two \$20 and costs or 10 days; and two were given 20 days in jail.

of 7 to 2 with five abstentions. The recommendation was then approved by a vote of 8 to 1.

The committee sat for nearly 100 hours in 45 sittings that were stepped up to three a day in the last few weeks. It first considered a motion for a national plebiscite on the flag question, which was defeated 9 to 4.

As the flag issue was thrown back into the lap of the Commons, it was clear that the forces of "for and against" were still in a deadlock.

Mr. Diefenbaker said Wednesday night that the new design was presented at that time and would be recommended.

ISLAND DELEGATES AT PRESBYTERIAN SYNOD

Island delegates to the 91st annual Synod of the Presbyterian Church in Canada held at Lunenburg, N.S., examine an outline of the three-day conference. Left to right are:

High Lowry, Marshfield; William MacKenzie, Belfast; and Rev. Carl Currie, Murray Harbor North. Delegates from the four Atlantic Provinces attended the synod.

CAUSEWAY NEEDS RAILS

As Only Part of Answer

asked for an opinion on the rail for the causeway which he said was out of his field at the moment but he felt the need for such a railway to handle the large volume of freight expected in the next 25 years would be absolutely necessary.

He concluded his remarks by advising the members of the board to make use of the commission on all possible occasions.

Out of town visitors to the meeting and taking part in the discussion were B.G. Rogers, Keith MacKinnon, James Moe and others.

The summation of the meeting was that a flexible transportation system which would include rail, all weather roads, truck transportation and sea shipping at low cost was the answer to P.E.I. transportation problems.

Kenneth R. MacDonald, president of the local board considered "The Power Women Have Over Men."

It is simply the power to say "NO!"—as one man claims? Is giving praise the secret of women's power? Or is it solely a matter of sex? Here's a symposium of letters from Digest readers, provoked by a previous article which considered "The Power Women Have Over Men". Don't miss the November issue of Reader's Digest.

Following his address a question and answer period took place in which Mr. Dickson was the main speaker.

LA PAZ, Bolivia (AP) - Bolivia broke diplomatic relations with Communist Czechoslovakia Thursday night, accusing the Czech embassy of fomenting subversion and other disturbances that have raged here for days.

Earlier in the day President Victor Paz Estenssoro sent troops into the tin mining district of Oruro, where miners and students proclaimed a rebellion against his regime after a series of strikes.

Anti-government radio broadcasts said possibly 30 persons were killed in a clash on a highway near Oruro, 145 miles south of the capital. There was no confirmation from the government.

There will be an interruption on our Kingston line on Monday afternoon, between the hours of 1:30 and 3:30 p.m.

This interruption is necessary to permit our crews to relocate poles as required by road construction work in the area.

The area affected will be from East Wiltshire School to Kingston and Emyvale.

KING DOMINION CHAPTER ANNUAL DINNER

The annual ladies night and dinner meeting of the King Dominion Chapter of Royal Arch Masons, was held Wednesday in the United Church Young People's Centre at O'Leary. The chapter embraces the West Prince area. Excellent King Dr. L.G. Dewar presided. Guest speaker was Neil Maclean, Tyne Valley, with editor of The Guardian. The toast to the ladies was proposed by Stanley Maynard, Fort Hill, and responded to by Mrs. James Harris, of O'Leary. Toast to the craft was by past high priest, Donald Maclean, Tyne Valley, with Frank Vanderlinde, Charlottetown, responding. Above, left to right, are: Mr. Vanderlinde, past grand high priest, Royal Arch Masons, jurisdiction Nova Scotia, Prince Edward Island and Newfoundland; Dr. Dewar, Charlottetown, excellent king; Eloy Ramsay, Tyne Valley, high priest of King Solomon Chapter, and Robert Woodside, Knutsford, excellent archie.

MUSHROOMS DO OR DIE

The surface around Wallace Scantlebury's new paint shop in Paradise was paved with asphalt in mid-summer. Recently the Scantlebury noticed cracks developing in spots in the new pavement. He investigated their cause and found that the asphalt was too thick.

Other detection and defense systems used by NORAD are the ballistic missile early warning systems which can, through radar antennas, calculate the area of origin and point of impact of an enemy missile at a distance of several thousand miles.

As a result of this system, NORAD now knows within eight seconds of the launching of Russia's three-man space ship recently, though the type of missile could not be determined immediately, the area of the launching was calculated to a certain degree of accuracy.

Another system used by NORAD is the space detection of a tracking system which keeps track of all satellites and associated space "junk" now in orbit. One of the methods used for this tracking is the Baker-Nunn camera which can take a picture of a pencil at a great distance.

Speaking briefly on the Bomarc missile, one of the major defense functions which men in the NORAD are now performing is the sub-sonic cruise missile, which is a purely a defensive weapon with a range of 400 miles.

SAFEST EXPOSURE is probably the space explosive ever devised and in the 20 years of the U.S. has had them there has never been an accidental explosion, he noted.

Also they are reported most effective against nuclear-bearing manned bombers or missiles in that when striking the enemy weapon the nuclear explosion from the Bomarc would destroy the enemy cargo, thus rendering it useless.

Mr. Macdonald also pointed out that the Bomarc was a clean weapon and as an example mentioned that four USAF officers had stood at ground zero while a Bomarc bearing a nuclear warhead struck a target at Chatham, N.B.

CHURCH SERVICES. Springfield - O'Leary - Alameda United Baptist Church. Mr. Macdonald stated that those who came to his office for their yesterday seemed quite happy with what they were getting.

There are no ships at the moment and as far as the present weather is concerned, it can be determined, none is expected to arrive at this time.

After the meeting, Wednesday, three representatives of the striking men said they would contact the remainder of those involved in the strike about the offer made of the stewarding companies and report back whether or not they would accept the offer.

PARLIAMENTS ADDRESS TO LIONS

Early warning and the Mid-Canada Line, now only in eastern Canada (along the 53rd parallel) plus overlapping radar covering southern Canada and the United States.

As a result of this system, NORAD now knows within eight seconds of the launching of Russia's three-man space ship recently, though the type of missile could not be determined immediately, the area of the launching was calculated to a certain degree of accuracy.

PARIS (AP) - The United States was voted down again Tuesday at a general conference of the United Nations Educational, Scientific and Cultural Organization (UNESCO) on the issue of nuclear disarmament.

The council insisted Paraguay to fully vindicate the United States' claims that Chile and Bolivia, admitted last week over U.S. objections, were in arrears in its UNESCO dues.

DEATH NOTICES

MacGIBBEN - At Souris Hospital, Thursday, Oct. 29, John J. MacGibbon of Souris and formerly of St. Margarets in his 85th year. Buried at St. Perry Funeral Home. Funeral arrangements will be announced later.

THE POWER WOMEN HAVE OVER MEN

It is simply the power to say "NO!"—as one man claims? Is giving praise the secret of women's power? Or is it solely a matter of sex? Here's a symposium of letters from Digest readers, provoked by a previous article which considered "The Power Women Have Over Men". Don't miss the November issue of Reader's Digest.
