**Successful Candidates**

In conformity with an announcement made by the Minister of Education four years ago, the names of successful candidates are published in alphabetical order in three classes.

Class I, contains the names of those students making 75% and over. Class II, those making between 65 and 75 per cent; under 65 per cent but not under 50% of those of pass standing. The actual marks made by candidates have been forwarded to them by mail.

#### Ingrid Bergman Meets Daughter

LONDON, July 27—(AP)—Ingrid Bergman and her daughter Jenny Ann have had a secret reunion in England, the 12-year-old girl told reporters today. The meeting was confirmed by Miss Bergman's former husband, Dr. Peter Lindstrom, just before he and his daughter boarded a plane for Sweden where the reunion was to have taken place. It was the first time the Swedish movie star had seen her daughter since 1949.

#### Federal Budget Surplus Climbs To \$336,000,000

OTTAWA, July 27—(CP)—The Federal Government, budgeting for a 1951-52 surplus of \$300,000,000, piled up a surplus of \$336,445,167 in the first three months of the fiscal year, it was disclosed tonight.

The monthly treasury report, issued by the office of Finance Minister Abbott who is on holidays, showed that revenues totalled \$886,738,606 and expenditures \$550,293,451 in the three-month period.

In 1950-51, Mr. Abbott budgeted for a surplus of \$18,000,000 and wound up with one of \$203,465,000.

In his budget speech last April 10, Mr. Abbott estimated 1951-52 revenues at \$3,720,000,000 and expenditures at \$3,700,000,000. When Treasury reports for the first and second months of the year indicated that his estimated surplus of \$300,000,000 would be greatly exceeded, he sounded a note of caution.

He said expenditures in the latter part of the fiscal year likely would wipe out much of the surplus built up in the early months.

A press release accompanying the latest Treasury report said on behalf of the Minister:

"Mr. Abbott pointed out that when he brought down his budget on April 10 he had indicated that the revenue forecast was based on the expectation that in 1951 the gross national production would reach \$20,000,000,000, but that should production and incomes rise beyond that level, the forecast would likely be exceeded.

"It now appeared that this estimate of \$20,000,000,000 for the gross value of national production this year will probably be exceeded, and that the Government revenues in turn would exceed the budget forecast."

#### Move Shows Modification Of Gov't Policy

OTTAWA, July 27—(CP)—Elements of Canada's crack paratroops now are being moved into the replacement stream for Korea, it was learned today, under a modification of the keep-them-at-home policy which provoked controversy a year ago.

They are men of the 23rd Airborne Brigade, the formation the cabinet refused to send out of the country in mid-1950 when the United Nations was desperately calling for manpower for Korea and the 23rd was the only big fighting unit Canada had available.

The stand the cabinet took then, and has maintained since, was that the 23rd was earmarked and highly-trained in parachute, airborne and Arctic warfare for the defence of Canada herself.

To meet overseas commitments, two new brigades, the 25th and 27th, were formed in the last year while the 23rd continued to train for its home defence role.

The 25th now is in Korea, the 27th is preparing to go to Europe. Both are conventional land formations without parachute or airborne training. The 23rd's roughly 5,000 men are scattered across the country.

In the last year some of its specialists—engineers, technicians, wireless men and N. C. O.'s—have been posted to the 25th but the main fighting formations have been left largely intact.

Within the last week or so, however, a 160-man company from the 1st battalion of the Royal Canadian Regiment at Petawawa, Ont., was posted to the big Wainwright, Alta., base where a replacement pool for Korea is maintained. It would represent about 20 per cent of the battalion's strength.

It is likely that roughly-equal contingents from the other two paratroop battalions—the 1st battalions of the Princess Patricia's Canadian Light Infantry and the Royal 22nd Regiment—will be posted to Wainwright, too.

No official explanation has been given, but the move may well be linked with plans for a rotation system under which long-service Korean veterans will come home.

#### Oppose Admitting Turkey and Greece To Atlantic Pact

WASHINGTON, July 27—(AP)—Strong opposition has arisen among signers of the North Atlantic defence treaty to a United States proposal for extending the treaty to Greece and Turkey, diplomats said today.

American officials hope to have the differences worked out in time for big three foreign ministers talks tentatively planned here in the second week in September. A meeting of the North Atlantic Treaty Council is under consideration for Ottawa the following week.

In Ottawa, External Affairs officials said they are proceeding on the assumption the pact council will meet there. They added that no official announcement has been made that the meeting will be in Ottawa is expected before Monday at the earliest.

#### Pakistan Calls Up National Guard

KARACHI, July 27—(AP)—Prime Minister Liaquat Ali Khan vowed with a clenched fist today that Pakistan will not bow before "any aggression."

He made the fist his symbol in an impromptu speech to defence-day paraders demonstrating against India.

His government earlier had disclosed a call-up of four more guard battalions in the midst of the war of words with India over Kashmir.

"Our symbol now is our fist," he told 50,000 men and women demonstrators who shouted anti-India slogans before his residence.

"We want peace and don't want to fight anybody unnecessarily, but for peace we will not sacrifice our independence and the existence of Pakistan."

India and Pakistan fought for princely Kashmir in 1947-48 after they won independence from Britain. A U.N. truce now prevails in Kashmir. The rich domain adjoins both India and Pakistan and is a southern neighbor of Soviet Asia.

The Pakistani call-up follows India's announcement yesterday that she has mobilized several thousand more troops. An unofficial source in New Delhi estimated India called up more than 40,000.

#### U.S. Army Accuses Reds Of Big Buildup In Korea

WASHINGTON, July 27—(AP)—The United States Army pointed officially today to the "tremendous" Communist build-up in Korea since preliminary truce talks started, and expressed hope this was not evidence of "bad faith."

Proof of the "good faith" of the United States and its United Nations partners, the army said, was presented when they let the truce talks halt their advance at a time when the Reds "were hanging on the ropes."

An army spokesman read these remarks at a military headquarters press conference and, departing from custom, told reporters they were for direct quotation if desired.

The spokesman drew a contrast between the increase of Communist troops, weapons and supplies and the U.N. reaction to the truce talks. He let it be known that the U.N. command, instead of building up, has pulled one sizable unit out of battle and has sent it to Japan.

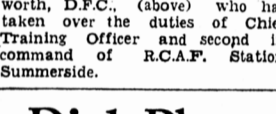

He said:

"In brief, the enemy has utilized the time since the Malik proposal to build troop strength and to move supplies and weapons south. It is to be hoped that these acts are not an indication of bad faith in view of the Malik proposal."

His reference to Malik linked the Korean situation of which he spoke to Moscow because Jakob Malik, who made the original peace proposal, is the Soviet delegate to the U.N.

"The picture... has been one of constant and continuous buildup behind their screening forces," the spokesman said.

#### Dial Phones Planned For Ch'town Next Year

Plans are now under way by the Island Telephone Company to provide Charlottetown with dial telephones next year.

Approximately 5,800 of the new telephones have been ordered and it is expected the equipment will arrive the latter part of 1952. The change-over will mean the addition of another storey to the present Charlottetown Telephone building, and will also necessitate the building of another wing on the rear.

Construction of these additions to the present central office will be timed so that they might be completed by the time the new equipment is received.

The new system will include all telephones in the Charlottetown exchange, with the exception of about 200 phones which are more than 7 miles out. It is understood the dial system will not work efficiently when phones are this far from the central office.

#### Harriman Flies To London

TEHRAN, July 27—(CP)—W. Averell Harriman left by plane for London tonight to get a clear-cut answer from the British government on Iran's proposal for reopening Anglo-Iranian talks over their deadlocked oil dispute.

Harriman was accompanied by Britain's Ambassador to Iran, Sir Francis Shepherd. They are due at London airport at 9 a.m. tomorrow (4 a.m. EDT). Harriman, as a trouble-shooter in the Iranian dispute, will see Foreign Secretary Herbert Morrison and possibly Prime Minister Attlee this weekend.

#### Application Forms For Old Age Pensions Ready

Application forms for old age pensions are now available in all post offices throughout Prince Edward Island. The Regional Director of Old Age Security, A. Nicholson, said here yesterday.

Persons who are already receiving Old Age Pensions do not have to fill out new application forms, Mr. Nicholson emphasized. Their names and addresses are being tabulated from Provincial records and transferred to Federal lists without any action being required on their part. Prince Edward Island has approximately 3,100 persons in this group. Those who are receiving a \$40-a-month pension will have it continued at that level; those who are getting a partial pension will find it increased to \$40.

Prince Edward Island has approximately 3,000 persons aged 70 or over not now getting pensions, who will be eligible for a pension under the new program Mr. Nicholson said. It is essential, he emphasized, that these people send in their applications immediately so that proof of age and residence in Canada may be checked and all arrangements completed for the first cheques to go out toward the end of next January.

Delay in sending in an application may mean that the application cannot be put through in time for the January cheque issue. The longer the delay the less chance there is that the application can be handled in time.

Applicants must prove their age, and the proof should be sent along with the application form. Birth or Baptismal Certificates are best evidence. Other documents that will be considered include records in family bibles, church rolls or registers, marriage records, communion certificates, passports and acknowledgments of age by insurance companies.

#### Reds Expected To Give Arguments At 12th Session

U.N. ADVANCE HEADQUARTERS, Korea, July 27—(Saturday)—(AP)—Communist negotiators were expected to argue at Kaesong today (Saturday) for a cease-fire line centre on the 38th parallel.

The Allied position was not disclosed. Presumably they proposed a demilitarized zone along the present battle line. The bulk of it is north of 38, as much as 35 miles on the east coast.

The Allies regard the present battle line—based on ridges—as a good defensive one in case the armistice talks break down and serious fighting is renewed.

Fighting Friday was desultory. Intense Red artillery and mortar fire blocked Allied patrols seeking to seize hills on the eastern front near Yangju. Allied planes continued to attack North Korean supply lines.

In Washington, an army spokesman, "the enemy has moved south through Korea a far greater quantity of supplies than he needs to support forces during the negotiations."

The Red view of a buffer zone was released in a broadcast Red statement at the outset of the Kaesong talks. It called for a cease-fire zone 12½ miles wide, centred along the 38th parallel.

Vice-Admiral C. Turner Joy, senior U.N. delegate, Friday gave the Reds a 12-minute outline of the Allied view on a line of demarcation.

North Korean Gen. Nam Il, senior Red negotiator, acknowledged the Allied view without comment.

The present front line dips south of the 38th parallel only in the extreme west. There it is below Kaesong, the conference site, which is three miles south of 38.

Wherever neutral zone is established, movement of troops and material out of it might require weeks.

While Allied military men prefer the defensive system they generally hold there is an old defence line south of the parallel. Its positions were originally laid out in 1945.

Yesterday's talks lasted only 72 minutes. The first 18 minutes were utilized in settling procedural matters—the mechanics of how to take up the four major points on the agenda.

The four are, in order: The buffer zone; mutual inspection behind the lines; exchange of prisoners; and "recommendations to the governments of the countries concerned on both sides for a broad issue presumably embracing Red demands for withdrawal of foreign troops."

#### Marketing Board Case Removed To Federal Tribunal

Authority of the Potato Marketing Board to issue orders and the validity of the P.E.I. Agricultural Products Marketing Act will be decided by the Supreme Court of Canada. This move was agreed to yesterday when the Prince Edward Island Supreme Court met to hear a reference to the Act.

It was noted by counsel on both sides that regardless of the decision which might be given by the local Supreme Court an appeal to the Supreme Court of Canada was almost certain to follow. For this reason it was decided to remove the case to the higher court to save time. In this way an opinion may be handed down by October. If the case had to go through this court and an appeal taken it would probably be February of next year before a decision was reached.

The full Bench of Chief Justice T. A. Campbell and Justices M. R. McLaughlin and G. J. Tweedy sat yesterday to hear the case.

#### Cabinet May Consider Canada's Butter Problem

OTTAWA, July 27—(CP)—The Cabinet expected to consider soon whether the Government should be given a monopoly over butter imports, informed quarters said today.

Imports are not restricted and the trade has been purchasing small shipments of butter from western Europe, presumably for storage against a possible winter shortage next winter.

However, Agriculture Minister Gardiner told the Commons last spring that if Canada was found to need more butter by Dec. 1 next, it would be purchased by the Government's dairy products board from British preferential tariff countries such as Australia and New Zealand.

The official thinking behind this move is said to be that if the Government allows the trade to import butter freely, wide spread speculation may develop which butler prices driven higher.

Officials said the problem to be considered by Cabinet are:

1. Should the Dairy Products Board be given a clear field in butter imports immediately to allow it to build up a stockpile against a possible winter shortage?
2. Should imports be restricted to British preferential tariff countries?

Officials expect that a decision will be made shortly, possibly within the next few weeks.

They say that, unlike last year, the Government so far has not been asked by domestic producers to buy any butter at its official support price of 58 cents a pound and that the outlook at the moment is that the Government will obtain no butter from the farm this year.

#### Chinese Nationalist Army Force Strikes Into Communist China

RANGOON, Burma, July 27—(AP)—A Chinese Nationalist army force has struck 65 miles into Communist China from its refugee base in Burma and seized a 100-mile-long frontier strip in Yunnan Province.

The Nationalists have captured one airfield and are reported trying to build another.

Communist troops in larger force are counter-attacking from headquarters bases at Paoshan on the Burma-China Stilwell Road of the Second World War.

The fighting is about 200 miles west and slightly south of Kunming, the Red-held Yunnan capital.

Although the Nationalist penetration is relatively small-scale, it is regarded as the most effective action on the mainland this year by forces linked with Chiang Kai-Shek's Formosa regime.

The Nationalist force was authoritatively said to number about 15,000 regular troops in three columns. They are commanded by Li Mi, displaced Nationalist Governor of Yunnan and one of western China's best-known generals. Li's sortie has been going on quietly for three months. He and his troops had come to Burma as refugees fleeing from the Red China.

Their re-entry into Yunnan was prodded along by Burmese troops. Burma, torn internally by a Red-tinged civil war, has recognized the Red China regime of Mao Tse-Tung at Peiping and is officially neutral in the China conflict.

His three columns fanned out northeast of Lashio, a big transfer point inside Burma on the old Burma road to China.

The north column took the Reds' Kengma airfield. The southern columns ranged about 100 miles south and seized Menghai. First resistance was reported light.

Communist troops are attacking south towards Kengma from the Paoshan area. An estimated 45,000 regulars are attached to Paoshan headquarters and posted mainly between Paoshan and the Burma frontier.

#### U. S. To Have 400,000 Troops In Europe

WASHINGTON, July 27—(AP)—Defense Secretary George Marshall said today the United States expects to have 400,000 troops on duty in Europe in 1952.

He said there would be 340,000 ground troops and 60,000 air force troops.

Marshall gave the figures in testifying to the Senate Foreign Relations Committee on the administration's foreign aid program.

He said that U.S. allies in Europe expect to have 2,500,000 men on active duty in their armed forces in 1952, and have promised they will be able to put 500,000 men into the field from their reserves 90 days after any war begins.

The administration's announced plans call for six U.S. divisions of ground troops to serve in the European defence forces being organized under Gen. Dwight D. Eisenhower. The figure in general use in Congress has been that the world would, with supporting forces, slightly over 200,000 men.
