FIRE! FIRE!

THE ILLUSION DISPELLED!

THE ILLUSION so fondly cherished by our citizens that, owing to our excellent water supply and efficient fire service, no serious conflagaration could obtain in Charlottetown has been dispelled, as witness the recent unfortunate destruction of St. John's, Nfld.

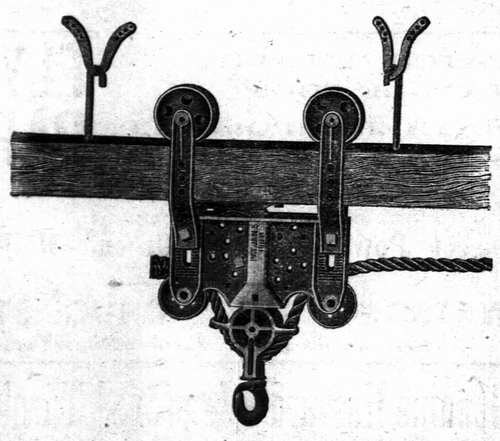
THE PORTER



Adjustable and Reversible — Hay Carrier.

Four Reasons why it is the Best Reversible Carrier offered the Trade

1st. It is the only carrier that can be adjusted to fit any size track. No more fussing and planning the track to make it fit the Carrier, but you can adjust the Carrier in three minutes to fit any size track, from a 2x4 to a plump 4x4. A great advantage over all others

2nd. It is a perfect reversible, Will work either way from the stop without changing Carrier on the track. In fact, you can take one forkful to the right and the next to the left if you wish, by using an endless draft rope.

3rd. It is made entirely of malleable iron, and is very simple in construction. It has no springs to get out of repair. Anybody can handle it.

4th. It runs on four large wheels, either plain or flanged, as ordered.

ALSO—Porter's New Railroad Steel Track, Hay Forks, Pulleys, Bes, Carts, Horse Hoes, Turnip Sowers, &c.

FIRE BUG AT WORK.

Kerosene Used to Make Sure His Dastardly Work.

The fire bug is again visiting Ch'town. Not satisfied with his efforts of Sunday morning to burn our citizens out of house and home, he repeated his dastardly work on Monday morning. About 10.30 an alarm was sounded from box 212, (corner Kent and Rotchford Sts.) Although the fire was quite a distance from where the alarm was sent in, the firemen had a stream of water pouring on the burning building in a very few minutes. The fire originated in a shed on King street, owned by Mrs. Lowden, and used by Mr. John Reid as a stable. From thence it spread to a stable owned by Mrs Lockett and a building owned by Wm Murray, Esq, Mrs. Reid went across the street to a neighbor's to get the time. She had not been gone long when her daughter came running after her to tell her the place was on fire. Mr. Reid, who was working on the wharf at the time, noticing the smoke, left his work to see where the fire was, but was too late to save anything from the stable. He lost two sets of new harness and a number of working tools. The contents of Mrs. Lockett's stable were all burned. The horses were saved with difficulty. The fire was a fierce one and the firemen had some hard work before they got it under control.

The fire was almost in the same spot as that discovered by Mrs. Cummings Sunday morning. Sunday evening a lamp half filled with oil was found under the shed. Mr. Reid was on the lookout all night but the incendiary did not show up. There was e very strong smell of kerosene at the fire on Monday. The shed and Mrs. Lockett's stable were entirely destroyed and Mr. Murray's building pretty well gutted. Some sparks ignited on some dry shingle roofs nearby, but were put out before they gained any headway.

A better spot for a conflagaration could not be found, as the buildings were all wood and were very dry. A strong wind was blowing at the time, and were it not for our brave firemen and excellent water system, no small portion of our city would now be in ashes.

A thorough search should be made for the fire bug. Such characters should not enjoy British freedom another hour.
