Kinsmen Club To Donate Wading Pool

The Summerside Kinsmen Club will donate to the Town a wading pool for the new recreation area and will request permission to supply the balance of the equipment for the playground at a later date. This decision was taken at the regular club meeting held last evening at Coyle's Restaurant.

The construction of the wading pool will proceed immediately at a cost of approximately \$1,500.00 and will be built by Curran and Briggs Ltd. Harold Arsenault was appointed to represent the club in the matter. It was felt that this project will be in line with the general policy of the club of working for the welfare of youth.

Vernon Chute was chairman of the meeting and a minute's silence was observed in memory of national president Ken. Pierce whose death occurred recently. Herb Stright and Dick Henthorn outlined plans for the annual spring carnival to be held in the Curling Rink from May 30 to June 2. Each member of the club was assigned a job to be carried out in preparing for the carnival.

It was decided on motion to invite the district executive committee in Summerside next October. Elmer O'Brien brought in the report of the nominating committee and the election of officers will be held at the next regular meeting. The meeting went on record as being in favor of the Summerside Athletic Association having supervision of all sports in the Town particularly those which will be played on the new recreation area.

BARBARA STANWYCK, JOHN LUND STAR IN "NO MAN OF HER OWN"

A compelling emotional drama starring Barbara Stanwyck and John Lund, Paramount's "No Man of Her Own" opens today at the Capitol Theatre. Directed by Mitchell Leisen and based on the best-selling novel "I Married a Dead Man", the picture features Jane Cowl, Phyllis Thaxter, Lyle Bettger and Henry O'Neill.

The startling story of a beautiful woman who lived a dangerous life and saw it turn into blackmail and murder, threatening everyone she loved, "No Man of Her Own" is said to be Miss Stanwyck's most exciting film since "Sorry, Wrong Number". In it, she adds another to the lengthy list of brilliant screen characterizations that have established her as the queen of Hollywood's actresses.

Handsome John Lund who scored so successfully in "A Foreign Affair" and "My Friend Irma" switches to a dramatic role with a facility that is the true mark of a polished performer. As Miss Stanwyck's husband in "No Man of Her Own," he gives one of the finest

Let's Talk It Over A Prince County Viewpoint

From the statements made by representatives of the three political parties in the weeks preceding last Thursday's Provincial election it seems certain that all three are agreed that our present system of electing members to the local Assembly in Charlottetown is outmoded and unsatisfactory. That only half of our Assembly is elected by universal suffrage seems incredible on the threshold of the second half of the twentieth century. That some men and women vote for six or eight candidates, and can conceivably vote for the entire thirty is a travesty on modern political custom.

The corner stone of democracy is the belief that all men are equal. "Government by the people" is a slogan we hold up as a measure of our political freedom. We have watered down the principle a bit on this sea-girt island of ours. "Government by the people, with added powers to the owners of real estate" seems to be the slogan here. It is indeed fortunate that all political parties are convinced it is time for a change.

The suggestion that the question be decided by a referendum of the electorate may be all right, but seems unnecessary under the circumstances. Referendums are held when there is a cleavage of opinion regarding a proposed action. We have never heard, here or elsewhere, anyone defending our medieval method of electing our M.L.A.'s. If there are arguments to be advanced in favor of the system, we should certainly like to hear them. A referendum has dangerous possibilities. A large majority of our voters are property holders and have this extra voting power. In order to get a sane, progressive verdict, a large number of these people would have to vote to deprive themselves of a privilege they have held for a long time. Victory for reform would mean that these people had put democratic principle ahead of their own selfish interests. We have little doubt that Islanders are big enough to do this, but, as we see it, there is no great necessity to put the temptation in their way.

As the matter stands, outsiders probably believe that this outmoded system is just a hangover from our twilight days; something which we haven't yet got around to correcting. If a referendum should be held, and should result in a vote adverse to any change, we should stand condemned by everyone as a people opposed to reform. While now we may be mildly censured for negligence in effecting the reform, we should then be berated widely and vigorously for a deliberate suppression of human rights.

Whether we get this much overdue reform as a result of a mandate from the people or otherwise, it is to be hoped that Prince Edward Island will soon take her place, as regards election usage, with her sister Canadian Provinces and other democratic countries.

Winds Keep Prince County Lobster Fishermen Ashore

Owing to high winds and rough seas, few fishermen at Alberton South managed to put out any traps on the opening day of the lobster fishing season. Those who did venture out in the early morning reported extremely rough weather and did not attempt the second trip. With the calming down of the wind in the late afternoon it was hoped that the seas would moderate but such was not the case. About fifty to seventy five traps were put out by each boat on this one trip and this will give some indication of how the fishing will be this season. It is understood that the same conditions applied over most of the Prince County fishing area.—S.
