## BINDERS, MOWER AND RAKES

MAXWELL BINDER is recognized to be the best implement on the market. It is true only right hand cut, and also the simplest and surest knotting machine, never breaking twine.

MOER.—The lightest cutting and strongest machine for heavy or light hay. Has all the best improvements—foot lifting spring, raising finger bar clear of all obstructions, stumps, roots, etc.

RAKES.—Tiger and Stied. These Rakes are fitted with the new steel wheel, having 26 teeth and solid steel axle. Also, angle steel bar to hold teeth. The teeth are set to rake, not to harrow the ground. They are the most perfect Rake made to-day. Inspection of those machines invited, or write us for prices.

### PERSONALITIES.

Mrs. McKinley is extremely fond of books and not nearly so much of an invalid as many people imagine.

M. Vuillot, the French socialist deputy recently elected to the senate, used to earn his living as the man cannon in a Paris circus.

Abbas Hilmy, brother of the khedive of Egypt, is 21 years of age and weighs 250 pounds. He is now in Paris under treatment, it is said, for a nervous disease.

Dr. William Thomson, brother of President Thomson of the Pennsylvania railroad, has been made emeritus professor of ophthalmology in the Jefferson Medical college of Philadelphia.

General George B. Randall, who died recently in Richmond, was a close personal and political friend of James G. Blaine, and was at one time a member of the legislature of his state, Maine.

Silas Young of Wiscasset, who will soon be 91 years of age, is the oldest storekeeper in Maine. He has seen Wiscasset rise and crumble away, but believes it will again be the premier seaport of the coast.

Professor Lucian I. Blake of the chair of electro chemistry of Kansas university has expressed the opinion that it may be possible to whiten the negro by a cataphoresis process, which shall decarbonize the pigment which gives his skin its color.

The estate known as "Big Spring Farm" in Loudoun county, Va., and through which runs the trout stream in which ex-President Cleveland used to fish so often, has been sold to Mr. Joseph Storey Curtis of New York and Johannesburg, South Africa.

Count Nicholas Esterhazy left a will making his cousin, Count Moriz Esterhazy, the heir of his vast estate. He left a large sum also for various charitable purposes. All his employees and servants who had been in his service ten years or more were pensioned.

Mrs. Hackett, the mother of James K. Hackett, leading man of the New York Lyceum company, always travels with her son. The tie between them is one of unusual strength and tenderness, for, as the devoted mother says, they have had only one another since he was 2 years old.

According to the Washington correspondent of the Chicago Record, Senator Hanna, when introduced to Robert Fitzsimmons, the pugilist, greeted him by saying: "I am glad to see you, Bob. We did them up, didn't we? You licked your man and I licked mine. But it was a good deal of a job, wasn't it?"

## SPECTACLES.

Over twenty-five years I have been in the Spectacle business and during that time have fitted hundreds and hundreds of persons. Some had put off getting glasses so long that they could not see a large 4 inch letter A without going within 2 or 3 feet of it, and might have gone blind if they had put off getting glasses much longer. Others have been fitted or rather misfitted, with wrong glasses by travellers, and charged a great deal more than they ought to have been. This year our traveller, Mr. C. H. White, intends calling on parties at their homes in the country, to test eyes and show samples of our goods. Should he call on you I bespeak for him your favorable consideration, and any order you may give him will be filled as soon as possible and guaranteed by me. Glasses can also be exchanged at the store, CAMERON BLOCK, City, if after a trial they do not prove as satisfactory as you wish.
