HOUSEHOLD HINT

A never-empty fruit bowl encourages family members to nibble healthful fresh fruits which, eaten between meals, are not too filling, yet supply a wealth of nutrients.

To get the full-bodied, zippy flavor from most cheeses, serve them at room temperature.

Suds and water must be able to circulate freely in your washer to do the job you expect it to do. If you overload the machine or use a detergent that gives too much suds, this circulation will be hampered.
